LONDON, March 19.—The money market was not affected today by the payment of £20,000,000 (\$37,500,000) on exchequer bonds and £7,500,000 (\$37,500,000) maturing treasury bills. Discount rates were easy. The revised official prices on the stock exchange did not increase business, but the opinion is that it is a step in the right direction and will be a fruit.

JUDGMENT GIVEN IN BAILEY CASE

Reorganization Committee Gained Distinct Victory Before Master-in-Chambers

MINE SHARES STRONG

MeIntyre Leads the Way in Porcupine Group—Reaction in Timiskaming.

Aside from the advance in Big Dome, McIntyre was the feature on the Standard Exchange yesterday, selling up to 381/2, after opening at 371/2. H. B. Wills, in his market letter this week, says of this issue: "Development work at McIntyre is how breaking down an average of 600 to 790 tons daily; in other words, more than twice the tonnage necessary to keep the mill going at its fullest capacity. As will be the case with several other mines in Porcupine, McIntyre's production for the current month will run very high."

He says that the proposed changes in the directorate will be definitely announced within a short time.

Jupiter continued to exhibit a fair measure of strength, advancing to 101/4, accompanied by the same vasue rumors of a new deal for the property. Vipond was steady at 43 and Hollinger firm at \$22.70.

Balley Judgment. Aside from the advance in Big Dom

of a new deal for the property. Vipond was steady at 43 and Hollinger first at \$22.70.

Balley Judgment.

Among the Cobalt issues Bailey was prominent. The master in chambers has ordered the Benson judgment laid aside, thus giving the Equidator a chance to have the whole matter reopened. It will be remembered that the Benson judgment was for \$90,000, which the former official claimed the company owed him. The liquidators disputed the claim and following yesterday's judgment the stuation appears to be somewhat claiffied from the shareholders' standpoint. The reorganization committee were jubliant over the latest development and expect within a reasonably short time now to have the affairs of the company completely readjusted.

Thuskaming, after early strength, weakened under profit-taking, reacting to 23 and recovering fractionally before the close of the afternoon session.

In view of the sharp advance several mining issues have scored of late, the following table showing the high record prices for leading Porcupine issues, the night and low last year and yesterday's best, will be of interest:
