

## GLAD TO SEE YOU BACK AGAIN.

---

"Welcome Jonathan, we are extremely glad to have you at our Carnival. You are not afraid, apparently, to join in our athletic sports once again.

"That's right; we will soon make a healthy Canadian of you! Yes, and we are awfully pleased to see so many of your fair ladies with you, and hope that they will heartily enjoy themselves."

"Why, yes, ever since my last visit, and in spite of the recollection of bruises, I have longed to see one of your beautiful Canadian winters again; and, after several winters spent in the Tropics, I am perfectly converted to the value of a Canadian winter for health, as well as novel, exhilarating pleasure."

"Thank you, Jonathan, for speaking of our dear old Canada from an unprejudiced point of view. Remember that we have a great many additional attractions to offer you this Carnival, and we hope that you will carry away with you the brightest recollections of the MONTREAL CARNIVAL OF 1884.

"Good bye, old fellow, *au revoir*, until the Carnival of 1885, but not *adieu*."
