

THE OPINION OF ALL CANADA.

The Montreal Star is in receipt of thousands of congratulatory telegrams. These messages come from men of prominence in public and business life in all parts of the Dominion.

Halifax, N.S., Sept. 22.
To the Editor of
The Star, Montreal.
Congratulations on your splendid work in the great campaign.
R. L. BORDEN.

MAYOR G. R. GEARY.
Toronto, Ont., Sept. 22.
Editor of The Star, Montreal.

Feeling of intense satisfaction and pride here. Great strengthening of national spirit and unbounded confidence in future of Canada. Adoption of Reciprocity would have been taken as knuckling down to the United States, with whom we desire to live in friendly relations, but with whom we desire to be independent fiscally. Thanks of whole Canadian people due to The Montreal Star for great fight for National existence within Empire.

G. R. GEARY,
Mayor.

LORD CHARLES BERESFORD.

While propriety has prevented me hitherto from giving expression to my thoughts and wishes, I am more than glad to be able to-day to tell the people of Canada how much I rejoice with them in their splendid victory, for I consider it essentially a victory of the Canadian people to have preserved their national integrity and economic freedom.

BERESFORD.

The feeling to-day in St. John is of intense relief that the stability of our tariff under which the country has been prospering, and our businessmen satisfied, remains unimpaired and that our fiscal powers are not subject to the dictation of a foreign nation. People are also glad that our position in the British Empire has been made secure by the rejection of the pact. To The Montreal Star great credit is due for its magnificent fight which tended in no small degree to secure this result.

MR. W. E. THOMPSON.
Halifax, N.S., Sept. 22.

The Government made a mistake in taking on this important question without first feeling the sentiment of Canadian opinion.

Fielding and Paterson apparently did not appreciate the great change that had come over Canada in twenty years; the country in that time really developed into a nation; that Canada had a strong national spirit and that the fate of the flag was involved in such a question. The Montreal Star, with its large circulation, deserves the greatest credit for its splendid work.

W. E. THOMPSON.

SASKATOON CITIZENS.
Saskatoon, Sask., Sept. 22.
Editor of The Star, Montreal.

The election results are highly satisfactory to the people of Saskatoon. In the eyes of the world Canada stands higher than ever before. Saskatoon city, which is the centre of the riding, gave a majority of six hundred against Reciprocity. We are particularly gratified that Eastern Canada, our old home, stood so solidly against a pact which we in the West opposed from a national standpoint and against what seemed to be only temporarily pecuniary consideration.

"The people have demonstrated that when the country is at stake, when a great issue is thrust before the electors to be judged on its merits or when there is a question asked in solving Canada's destiny, the British Empire there is but one answer to be given. That answer has been most decidedly given and there is none that dare gainsay it."
