

# WEST YORK FARMERS TO RUN CANDIDATE

Convention to Consult Independent Labor Party Before Choosing Nominee.

Woodbridge, Sept. 6.—Delegates from the various United Farmers of Ontario clubs in the riding of West York met in Woodbridge on Saturday to discuss the advisability of nominating a candidate to contest the riding at the coming provincial election. After a long session, the delegates decided to hold a meeting at the coming time to select a candidate to represent the farmers at the polls. The meeting was held at the home of Mr. Longhouse, who was appointed to act as chairman. Following a resolution moved by J. G. Whitmore, the convention unanimously refused to allow the representative of an afternoon paper to remain in the hall. The explanation given for the action was that the report of a recent U. F. O. picnic, appearing in the newspaper, was unflattering to local farmers. After this passage of arms, the real business of the convention was commenced. The principal speakers were Mr. Law and A. A. Potts, the latter representing Messrs. Morrison, Halbert and Burnaby.

After some discussion, the convention decided not to nominate a candidate, but to postpone nomination until a conference with the Independent Labor Party.

**Attack on Government.**  
Mrs. Law apologized for being at the meeting in place of Mrs. George Brodie. She said that it was an open question as to whether the present government was democratic or not.

"Since the agriculturists of Ontario produced more than all the manufacturers in the country, the government should be composed of farmers," said she. "Everything we do or say is democratic. We stand for democracy pure and simple. I defy even a lawyer to say what the four referendum questions mean, and the U. F. O. is the only party that has taken a decided and open stand on the temperance question."

A. A. Potts told two stories, commencing the press on the recent acquisition of a "certain amount of sense," and proceeded to deal with U. F. O. political problems. "Compared with the revenue obtained from other businesses," said Mr. Potts, "the farmers are not well off, or over-prosperous."

He said that the economic conditions of farming today were unsatisfactory, and asked why men and women were leaving the farms. Such a condition continuing will mean national bankruptcy.

Mr. Potts briefly outlined and discussed the U. F. O. political platform.

Regarding the discussion as to whether West York U. F. O. should nominate a candidate for the provincial legislature, several members spoke for and against.

Fred Bacher advised against putting forward a U. F. O. candidate in the riding.

"Better elect ten men than have fifty miserably defeated candidates," said he. "It is not true that the U. F. O. has nothing to do with other political parties, as they ask the aid of the Independent Labor Party."

Mr. Potts said that before leaving the U. F. O. office, he had heard that the Independent Labor Party asked that the nominations of candidates be postponed for a week.

Mr. Crawford moved that the farmers of West York proceed immediately with the nomination of a candidate, adding that the time was now short. The motion was carried unanimously.

Another motion, deferring nomination of a candidate until further conference with the Labor Party, was also carried.

J. G. Whitmore said that there never was a time when labor and the general consumer ought to support a U. F. O. candidate more than now. "It is up to the farmers and the consumers to work together."

# OUTLOOK SERIOUS IF COAL STRIKE BREAKS

Threatened Trouble at Mines Would Cause Further Advance in Price.

Coal and yet more coal has been the cry of Toronto householders for the past three years. From the news published on Saturday the cry is likely to merge into the dirge, "Coal! Less coal!" From Scranton, Pa., come the news that the miners' grievance committee of the Delaware and Hudson Coal Co. have issued orders for a general suspension of work by all the collieries operated by the company in the Lackawanna and Wyoming valleys. If this order becomes effective twenty-six collieries will be closed down and 30,000 men thrown out of work, and it will undoubtedly be the largest anthracite coal strike in that district since the famous six months' stoppage of work in 1902. These mines produce in the neighborhood of 26,000 tons of coal daily.

The World on Saturday made enquiries in local coal circles and found that the threatened strike was not taken too seriously, but should it become effective it will naturally have a serious bearing on not only the supply of anthracite coal in Toronto but also on the price. At present this class of coal, if you can get it, is \$12.50 per ton, but if the strike takes place there is no saying to what figure it may eventually go. Although the local coal dealers made their contracts with the pit owners as to prices at the pit mouth some long time back, there is a clause in such contract which protects the coal mine owner from delivery in the event of a strike taking place at his pits. The whole thing comes down to a question of supply and demand, and if the local dealers cannot obtain delivery of anthracite coal which they deemed necessary for Toronto's winter supply they will naturally demand enhanced prices for the amount they have in stock at the yards. This is another case in which the poor public is again the goat.

# WILSON APPEALS FOR PEACE TREATY

President Asks Massed Meeting to Support It as Charter.

## ONLY HOPE FOR U. S.

League of Nations Would Prevent Men From Controlling Affairs Like Russia.

Kansas City, Mo., Sept. 6.—President Wilson appealed to a Kansas City crowd today to support the peace treaty as a charter for a new order of world affairs. The people, said the president, had been misled about the treaty by men who look at it "with the jaundiced eyes of those who have some private interests of their own." When these men were "gibbeted" by public opinion, he said, "they will regret that the gibbet is so high, and that no anybody dare to defeat this great instrument," he continued, "then they will have to gather together their counsellors for the world and do something better. A negotiation will not save the world."

"Germany," said the president, "would be the only great nation left out of the league unless we intend to stay out and come in later with Germany."

**Solve Philippine Islands Problem.**  
Alluding to the American promise to set the Philippine Islands free, Mr. Wilson said the league would solve the "very perplexing" problem of how they were to be kept free after their independence had been granted.

The president asked the audience not to think he had come out to "fight or antagonize" anybody.

"I have the greatest respect" he said, "for the senate of the United States. But I have come out to fight a cause that is greater than the senate, and I intend to fight that cause in office or out as long as I live."

Effective disarmament would be accomplished under the covenant, Mr. Wilson predicted. The league, he declared, would mean the end of the "military class" through the world, forever.

"There is no other way to dispense with great armaments, without an agreement by the great nations of the world," said Mr. Wilson, "and here is the agreement."

Autocrats would perish with militarism, added the president, and the intrigue which had terrorized Europe for generations would be ended. He declared that Democrats will sooner or later have to destroy that kind of government and "if we don't do it now the job will still be done."

**Majority, Not Minority.**  
This task, he continued, must be carried to the extent that no minority anywhere could control the majority.

"The men who now control the affairs of Russia," said Mr. Wilson, "represent nobody but themselves. They have no kind of mandate. There are only 34 of them, I am told. There is a closer monopoly of power in Moscow than there ever was in Wilhelmstrasse, and a man more evil than the czar is controlling the destinies of that people."

"And if we don't wait little groups of selfish men to plot the future of Europe then we must see to it that little groups of selfish men do not plot the future of the United States."

Citing conditions in Armenia, Mr. Wilson said he wondered that men do not wake up to the moral responsibility of what they are doing when they were "debating and debating," while tragic situations waited to be dealt with.

# ONTARIO FARMERS AND WHEAT PRICES

Up to Sellers of Grain to See That They Get Full Price Set by Board.

A York county farmer asked The World on Saturday to enlighten him as to the price which Ontario wheat should bring. He said he asked a buying firm at Richmond Hill what price they would pay for winter wheat, and was told he would receive \$1.90 if the wheat was of proper grade, but that he would not be entitled to any further amount even the Canadian wheat should bring a higher price in the European market.

C. B. Watts, secretary of the Dominion Millers' Association, who is also a member of the recently created Canada wheat board, stated emphatically to The World on Saturday that only \$1.90 for No. 1 or No. 2 wheat, he was not being fairly dealt with, and should certainly lodge a complaint with the board, which will open a session at 9:30 Monday morning, in the board of control room at the city hall.

Watts pointed out that the prescribed price for Ontario wheat was \$2.18 at Montreal for No. 1 red, white or spring, and \$2.16 for No. 1 mixed winter wheat, the price to be paid buyers at any point in Ontario being based upon freight rates between such a point and Montreal. He added that the board's present view, one subject to change, was that the Ontario farmer would have a final payment of 10 cents a bushel coming to him after the wheat was disposed of in Europe. The millers were being charged 15 cents a bushel more than the prices above quoted, 5 cents being estimated as the cost of a season's carrying expenses.

The wheat board should at its Toronto sitting make a clear announcement as to the price which should be paid for wheat at all Ontario points, and also as to who is to do the grading.
