The Wornout Nerves, The Weak Heart, The Tired Brain,

The Wasted Strength. What a multitude of women there are who feel that these words exactly suit their case. From early morn until late at night they have been on the go, year in and year out, attending to the daily household duties, looking after the wants of her children and spending the rest of her time attending to social and church work. Is it any wonder then that sooner or later there comes a general collapse? The action of the heart becomes weak and palpitating, the nerves become unstrung, the brain feels in a whirl half the time and the usual force

of vitality is lacking.

It is at this time a woman should look after herself. If she does not, serious female disorders may set in and often cause weary months and years of helplessness and wieers his suffering. What she wants and miserable suffering. What she wants is something to build up her system. For this purpose there is nothing to equal

MILBURN'S HEART AND NERVE PILLS

They are the women's friend in every sense of the word. They will strengthen the weak heart, They will strengthen the weak heart, tone up the shaky, starved nerves, make the brain clear, and restore the lost vitality.

Mrs. George Lohnes, Stanley Section, N.S., writes: "I was greatly troubled with weak and dizzy spells and was so run down I could not attend to my household duties. I bought two boxes of Milburn's Heart and Nerve Pills and after taking them I found that my trouble had all them I found that my trouble had all passed away. I am now strong and healthy
