**NEWFOUNDLAND TAXES CHINK**  
 Suddenly Decides to Charge \$300  
 Entrance Fee—13 Held Off  
 Ottawa, Aug. 20.—No disposition has  
 yet been made of the party of Chinese  
 men who a few days ago were refused  
 entrance to Newfoundland.  
 The Newfoundland government, which  
 has never had a poll tax on Chinese, on  
 Aug. 8 decided without giving any notice  
 to the Chinese to pay all entrance taxes  
 the colony \$300 per head.  
 The tax was imposed in time to hold  
 off 13 Chinese men who had travelled  
 the way from home to North Sydney.  
 The government's object in imposing  
 the tax was probably to prevent a  
 Chinese labor question, as it is under-  
 stood that owing to the scarcity of  
 white labor in Newfoundland the min-  
 ing interests of the island colony were an-  
 xious to place about 500 of them.

 glishmen on Labor Question.  
 (Canadian Associated Press Cable.)  
 London, Aug. 20.—Rev. W. E. Gilroy,  
 speaking at Whitefields Tabernacle yester-  
 day, said that the prejudice existing among  
 certain employers against English labor  
 was consequent upon a party emigrating  
 some years ago who were not up to the  
 average type of workman, but this  
 antipathy was fast on the wane owing  
 to the influx there lately of competent  
 workmen.

**TORONTO MARKET LIFTED OUT OF ITS RUT.**

The Toronto stock market was lifted out of its rut this morning, the overpowering influence of Wall-street being too much for local conservatism. Buying orders accumulated over Sunday bulked up to quite a fair sized volume, and difficulty was experienced in handling them. Brokers whose line of credit had run out were importuned to try other channels for accommodation. Many orders were unfilled to-day for the reason that they could not be financed. Stocks interlisted with New York were more easily handled, and the market was expanded in getting securities carried at the larger centre. This procedure admitted of a rally in Twin City. Considerable local opposition has been put in the way of this stock for the ostensible purpose, it is thought, of keeping the speculative field more free for some of the newer and less responsible issues. Nearly 1400 shares of the stock were traded in during the day, but purchases for purely local account were more than offset by liquidation, advantage being taken of the rally to ease accounts with loaning institutions. This was regarded as an indication of strength, as the buying was sized up as coming from an inspired source. The market otherwise was quiet, but a demand for some of the navigations found offerings scarce, and sharp bidding up was required to draw out sales.
