First Amateur Barrow Circuit Soccer Right Spirit is Being Displayed

INITIAL WORKOUT FOR DENTS. TODAY

Will Likely Play Hamilton This Week—Cameron and Hebert Ready.

The Toronto and District Football Association at their monthly meeting took the first step to put local football on a sound basis again and to establish the friendly spirit that existed between the various local clubs and associations up to a year ago. Soccer enthusiasts will remember that the provincial league came into existence at the O.F.A. semi-annual meeting in April last, when that body granted affiliation to the T. and D. F.A. claiming it was illegally granted, and immediately instructed their registered players that they must not take any part in the provincial league games, nor play against any player or on any ground registered with the provincial league. Both associations have been running through the season, but the ban put on their players by the T. and D. has caused some friction and later a few have broken away. By rescinding the resolutions the T. and D. hope to bring about peace in local circles and stimulate interest in the game, which has suffered considerably by the continuous disagreements.

Harry Munnery wired Manager Querre of the Toronto team yesterday saying that he was not quite satisfied with the terms offered. Manager Querre wired back telling him to report for practice and that terms can then be talked. He will likely be here about Wednesday or Thursday.

The Toronto pros practice from 2 to 3 this afternoon and Harry Cameron and Sammy Hebert will be out. Both are satisfied with the terms offered. Cameron should have a great season. He was going great guns when the Toronto team stopped last season. Hebert will be the regular goalie if he shows enough.

St. Patrick and T. R. & A. A. will likely get in their first practices tomorrow.

Ottawa Journal-Press: Hockey fans around the N. H. L. circuit are pulling for Art Ross, who will manage the Montreal Wanderers this winter, to produce a winner. And if he does it will only be a fitting climax to a most successful hockey career.

Art Ross is one of the greatest players the winter game has ever produced. That battered title has been tossed about a bit, conferred on first one, and then another, but when they've all been rattled thru the ether, Ross stands out as the brainiest, most consistently brilliant player over a long period of years that the game has ever known.

Six feet in height, perfectly proportioned, always in the pink of condition, Ross in his hey-day added to these assets terrific speed, and a stick-wizardry that was little short of marvelous. In later days he has lost his high flight of speed, but the ability to puzzle opponents with sheer brain power remains. He is still today a formidable addition to any team.

A Winnipeg despatch says: Senior hockey played by the Vimy Somme and Vimy teams of the Winnipeg Military Hockey League will be played at the Amphitheatre rink this winter. The decision was made at a meeting of the league held at the Broadway Barracks yesterday afternoon. The teams are decided to open the 1917-18 schedule on Thursday, Dec. 27. This will be preceded by an exhibition game between two all-star teams about Thursday, Dec. 20, the proceeds of which will be turned over to the Christmas cheer fund.

ANNUAL CONFAB OF THE INTERNATIONAL

May Adopt the Policy of Watchful Waiting at Meeting Today.

New York, Dec. 9.—The first of a series of baseball meetings which will have an important bearing upon the sport next year will be held in this city tomorrow, when the International League managers gather in annual conference. The chief problem that will confront the club owners will be the advisability of continuing the league during the season of 1918. Opinion appears to be divided upon this point among those financially interested, and the outcome of the conference cannot be predicted in advance. The more conservative among the owners and officers of the league advocate a waiting policy, in order that the league may take advantage of any favorable developments during the winter and early spring rather than a definite plan will be made for a tentative schedule, which may call for a shorter season than last year, and other arrangements made for cancelling expenses in case it is decided to place the league affairs in condition for play next summer.

The attitude of the major leagues will be an important factor in this decision. Several big circuit magnates are understood to favor the continuation of the International League. One has put himself on record as approving such action, even though it means the loss of a season's extent the present list of cities represented. Such a move, involving the shifting of the league's base, has been informally discussed for some time.

It is doubtful, on the other hand, whether the merger of several International League and American Association clubs for the purpose of forming a third major league will even be mentioned at this meeting. The sentiment in favor of this seems to have lost ground, and a little likelihood of the proposition going thru at this time.

PLAYING BASKETBALL AT THE PLAYGROUNDS

The basketball leagues of the City Playgrounds, girls and boys, are all full swing with any amount of enthusiasm. The following are the results of the games played the past week.
