**Report of Rev. Dr. Bowman, Representative of the Synod of
Nova Scotia on the Board of Trustees.**

In explanation of the absence of any official report to the Diocesan Synod of Nova Scotia from me as their representative on the Board of Trustees, I beg to state, for the information of the shareholders, that, having, by the kindness of the Managing Director, been enabled, at the meeting of the Synod, to place in the hands of each of its members, both lay and clerical, a copy of the Calendar for 1894-95, I found it impossible to add anything by way of report to the information contained therein. I therefore confined myself to a very few verbal remarks, corroborating the statements of the Calendar, and expressing, as the representative of the Synod, my entire satisfaction with the conduct, progress and standing of the Church School for Girls; also congratulating the Diocese upon having within its boundaries, such a useful, beautiful and efficient Institution.

In contributing a brief portion to the report now presented to the shareholders, I reiterate the sentiments before expressed, and add, that, since addressing the Synod on the subject, I have had great pleasure in watching the continued progress of the School, not so much from a Diocesan standpoint as an educational Institution, that part having been in abeyance during the vacation, as in a shareholders' view, as a financial success, insured almost beyond peradventure by the continued patronage that it has merited and received, and an influx of new pupils, far in excess of what could have been expected, considering the general depression under which the whole world is laboring. I would also give expression to a hope that all parties interested in the School, whether as Shareholders, Directors, Trustees, Teachers or Pupils, will continue in the future, as in the past, so to exercise their various functions, as to encourage and secure a continuance of that patronage, which the results of their labours in the past has so far induced.

CHAS. BOWMAN, D. D.
