

"A LITTLE CHILD CAN HELP."

# Canada's Boys and Girls

All go to Sabbath School—and early learn the joys of giving to those in need.

---

There is not a boy in Canada who would not stop to help his comrade should he fall and hurt himself.

The boys and girls can help a thousand suffering children—they can save five cents every year for charity.

That will help.

And there are patient little ones waiting for your help.

Ask your superintendent to organize a systematic giving in the Sunday School—for the Hospital for Sick Children.

Do you know that there are several cots in the Hospital supported entirely by Sabbath school children? Two schools pay \$100 a year each for the support of a cot—and have done so for years.

Children—your cents will grow into dollars—your sympathy can never be measured.
