LOVE'S GOOD NIGHT BY CHARLES MACKAY.

Unsh Nature! let no jarring sound The drowsy air encumber,

While she, the fairest of thy works,
Is sinking into slumber.

Be silent, earth! ye winds, be still!

Let nought from sleep alarm her,

Nor midnight storm, nor sudden fire,

Nor prowling robber harm her!

Good Night! and be thy pleasant rest Unbroken till the morrow! May all thy visions, like thyself, Be sweet, and void of sorrow: Good night! and o'er thy silent couch, While darkness spreads her cover, May guardian angels watch and pray, And bless thee as they hover!

May guardian angels watch and pray, And bless thee as they hover!

Another of the Tea-Party Gone.—Mr. William Pierce, one of the few survivors of the famous Tea Party—that is, the party which threw the tea overboard from a British ship in Boston harbor, previous to the Revolution—died at his residence on Saturday last, aged 96. He occupied the same shop in Marshall-street—or one near the same place—which he occupied previous to the Revolution. He was by trade a barber; and he retained to the last a few old customers who knew him in the time that' tried men's souls.' He has for many years received a pension from the Government in part pay for his patriotic services. Mr. Pierce was present at the celebrated Tea Party Lecture, given by the late B. B. Thatcher, at the Masonic Temple a few years since, and was referred to by him in connection with the event. He dined on the 4th July, 1838, with the citizens in Fancuil Hall at the Temperance celebration, and entered with much interest into the festivities of the occasion. Mr. Pierce was for many years intimate with the distinguished men of the troubled times of the Revolution, having from the nature of his occupation, daily intercourse with them, and the opportunity of knowing all the important events of such succeeding day. He was a professor of religion, and enjoyed its consolations under the infirmaties of very advanced years. His death was sudden, not caused apparently by any particular disease, as, on the morning of his demise, he had every prospect of continuing among us several years longer.—Boston Paper

BALDNESS.

A BEAUTIFUL HEAD OF HAIR

Is the grandest ornament belonging to the human frame. How strangely the loss of it changes ance of old age, which causes many to recoil at being ancovered, and sometimes even shun society to avoid the jests and sneers of their acquaintance; the remainder of their lives is consequently spent in retirement. In short, not even the loss of property fills the generous thinking youth with that heavy sinking gloom as loss; the loss of his hair. To avert all these unpiers an circumstances, OLDRIDGE'S BALM OF COLUMBIA stops the hair from falling off on the first application, and a few bottles restores it again. Il-Elewise produces eyebrows and whiskers; prevents the lair from turning grey, makes it curl beautifuly and frees it from scurf. Numerous certificates of the first expectability in support of the virtues of Oldridge's Balm are shown by the proprietors.

THE HUMAN HAIR.

Where the hair is observed to be growing thin, nothing can be more preposterous than the use of oils, grease, or any other fatty matter. Their application can only be recommended through the grossest ignorance, as they husten the tall of the hair, by increasing the relaxation of the skin. When there is a harsh, dry, or contracted skin, and where the small blood ressels which carry nourishment to the bulb are obstructed, then the oil, &c., may be good, as they tend to relax the skin; but alone they are of no avail. There must be a stimulous to rouse the vessels from their torpor, and quicken the current of the blood.—

The Balm of Columbia is the only preparation that can have that effect, being entirely free from any oily substance. THE HUMAN HAIR.

MOFFAT'S Vegetable Life Medicines.

Vegetable Life Medicines.

THESE Medicines are indebted for their name to their manifest and sensible action in purifying the springs and channels of life, and enduing them with renewed tone and vigor. In many hundred certified cases which have been made public, and in almost every species of disease to which the human frame is liable, the happy effects of MOFFAT'S LIFE PILLS AND PHENIX BITTERS have been gratefully and publicly acknowledged by the persons benefitted, and who were previously unacquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act.

The LIFE MEDIGINE recommend themselves in diseases of every form and description. Their first operation is too loosen from the coats of the stomach and bowels, the various impurities and crudities constantly settling around them, and to remove the hardened faces which collect in the convolutions of the small intestines. Other medicines only partially cleanse these and leave such collected masses behind as to produce habitual costiveness, with all its train of evils, or sudden diarrheas, with its imminent dangers. This fact is well known to all regular anatomists, who examine the human bowels after death; and hence the prejudice of these well-informed men against quack medicines—or medicines prepared and heralded to the public by ignorant persons. The second effect of the Life Medicines is to cleanse the kidneys and the bladder, and by this means the liver and the lungs, the healthful action of which entirely depends upon the regularity of the urinary organs.—The blood, which takes its red color from the agency of the liver and the lungs before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly mounts the banner of health in the blooming cheek.

Moffat's Vegetable Life Medicines have been thonerable tested and **vegetable** accessed **vegetable**.

TO PHYSICIANS AND PATIENTS.

The Blind Piles, said to be incurable by external applications. Solomon Huys warrants the contrary. His Liniment will cure Blind Piles. Facts are more stubborn than theories. He solicits all respectable physicians to try it on their patients. It will do them no harm, and it is known that every physician who has had the honesty to make the trial, has candidly admitted that it has succeeded in every case they have known. Then why not use it? It is the recipe of one of their most respectable members, now deceased. Why refuse to try it? Because it is sold as a proprietary medicine? Is this a sufficient excuse for suffering their honest patients to linger in distress? We think not. Physicians shall be convinced that there is no humbug or quackery about this article. Why then not alleviate human suffering? If they wont try it before, let them after all other prescriptions fail. Physicians are respectfully requested to do themselves and patients the justice to use this article. It shall be taken from the bottles, and done up as their prescription, if they desire.
