REPUBLICANS CHECKS UP PRICE

GOVERNMENT LEADER IS RETURNED

President of Free State Elected by Preference Vote From Kilkenny.

CABINET MINISTERS

Early Returns Indicate a Victory for Irish Government.

(Canadian Press.)

Dublin, Aug. 28.—President William T. Cosgrave has been elected on the first preference vote from Kilkenny.

The President's brother, Philip, was elected from South Dublin, and both Gen. Richard Mulcahy, minister for defense, and Kevin O'Higgins, minister for home affairs, both of the present cabinet, were also returned from Dublin.

C. N. Byrne, Government candidate from Wicklow, was also elected.

Aided by Cosgrave.

Dublin, Aug. 28.—It is believed that the government candidates were aided by a revelation recently made by President Cosgrave regarding the government's just missed capturing a Republican dispatch showing that the Irish regulars, who he called the "little buccaners" had formed a plot to kidnap him. The announcement attracted much attention.

Shortly before the polls closed a tour of Dublin revealed a slow and steady procession of voters to the election stations. Among the late voters was President Cosgrave, who motored from Kilkenny to Waterford in the early morning and later toured North Kilkenny and Carlow, returning to Dublin last evening in time to cast his ballot.

"Here's First Shot"

"If that's your game," replied a voice from the crowd, "here's the first shot." This rally was accompanied by a well directed egg which, the correspondent asserts, found its mark. The Daily Mail's Dublin correspondent says it was almost pathetic to see Countess Markievicz driving about the capital in a taxicab, the sides of which were covered with posters and flags. The cab was filled with young children, including the son of Eamon De Valera.

BROADWAY HAS A NEW SENSATION

Another Chapter of Night Life Revealed in Search For Murderer

2 WOMEN IN CASE

Private Secretary is Found Dead With Poison in His Stomach.

(Canadian Press)

New York, Aug. 28.—Another chapter in Broadway's night life slowly is being revealed to police in their search for the murderer of John H. Sutphen, a private secretary, who was found dead, a warm pipe in his mouth, day before yesterday. Two well dressed women, the presence of cocaine, one of the most deadly poisons known, in Sutphen's stomach, a third woman known as "Mrs. Stupphen," who lived in his apartment, and a real Mrs. Sutphen in New Jersey were the tangible facts police had to work on. It also was learned that Sutphen, although working at a comparatively small salary, had been paying high rent for more than a year for the Central Park West apartment, which he occupied.

There was a suggestion that the poison had been placed in the stem of Sutphen's pipe, although the pipe was found at his apartment. Sutphen lived in a rooming house, paying \$12,000 a year for his apartment and presumably paying also for the home in New Jersey, which he and a child live in New Jersey.

The apartment was stocked with expensive liquors and elaborately furnished.

TRANSCONTINENTAL PHONE FEASIBLE

W. R. Pearce of New Brunswick Telephone Company Submits a Report.

Edmonton, Aug. 28.—An all-Canadian transcontinental telephone line is entirely feasible from an engineering standpoint, according to a special committee which reported at the Canadian Telephone Convention here yesterday.

The report was submitted by W. R. Pearce, of the New Brunswick Telephone Company.

The two chief obstacles are the link over the Canadian Rockies and the link through Northern Ontario from Manitoba. Both links can be built if right-of-way can be secured along the lines of the transcontinental railways.

The bridging of the Rockies and Northern Ontario and some construction in Quebec is practically all now but needs to be done to complete the All-Canada line.

The convention yesterday adopted unanimously the recommendation of a special committee that a uniform system of accountability used in the U. S. and proposed by the Interstate Commerce Commission be the system in Canada.

EVACUATION RUHR VALLEY IMPOSSIBLE

Reply to the British is Given Out at the Belgian Embassy.

SHARE OF BRITAIN

Belgium Claims to Have Only Received 2,000,000 Gold Marks.

(By Canadian Press.)

Paris, Aug. 28.—The Belgian government in its reply to the last British reparations note stands with France on the principal points of contention, maintaining that the legality of the Ruhr occupation has been established by the previous action of the Allies, including Great Britain, and that evacuation of the Ruhr Valley is impossible on simple promises from Germany.

The reply given out at the Belgian Embassy here today dwells particularly upon the justice of Belgium's claim to priority in reparations payments. It declares that thus far Belgium has received only two million gold marks more than Great Britain.

Reduces British Share. M. Jasper remarks that if a reduction in Germany's debt is necessary, the balance she is obliged to pay ought to apply to material damages only. This might be understood as meaning the elimination of pensions from the allied claims on Germany, thus reducing the British share to an infinitesimal percentage.

The Ruhr regime, the note says, is what the Germans have required it to be by their violence and resistance. It was intended to be an economic operation and a simple seizure of the pledges which the allies had a right to take under the Treaty of Versailles. If the military feature of the occupation has been necessarily extended, the German people, a step possible by abandoning their present attitude.

Six of the twenty-two pages in the document are devoted to a discussion of Belgium's claim to priority in reparations payments. The notes in detail the implication in the British communication that Belgium has been unduly favored, since the other allies have made sacrifices while her priority has remained.

Recognized by British. "Belgian priority in reparations," asserts the note, "was recognized in the seventh of President Wilson's fourteen points. It was recognized by the British Government in the solemn document giving Belgium formal assurance that she would receive, after the war, integral reparations for the immense damage inflicted upon her solely because she remained faithful to her engagement with the powers that guaranteed her neutrality."

In spite of her priority claims, M. Jasper remarks, Belgium has received in cash and kind only a little more than Great Britain or France. He then gives what he claims are the exact figures in gold marks as follows: Great Britain, 1,297,000,000; France 1,175,000,000; Belgium 1,299,000,000; the other allies \$42,000,000.
