

**For a \$3 Poll Tax on Less Than \$300
Income, in the Local House**

Copy From Synoptic Report, Local Legislature, April 26th, 1909

A black and white portrait of a man with dark hair, wearing a suit jacket, white shirt, and a patterned tie. He is looking slightly to the right of the camera.

He said he made the motion at the request of a very large number of working men of St. JOHN CITY. It was represented to him that the settlement made by the banks, the street railway and civic servants when the bill was before the house a few days ago did not meet with the approval of the men of the small shops and stores. He said that he had been told that 3,300 working men who were assessed on income of less than three hundred dollars in St. John, only four hundred were able to pay their taxes. In the last fifteen years no more than forty or fifty per cent. of the taxes of the small wage earners have been collected. Every year the per cent. of non-payers seemed to increase. Assuming the average tax per person to be \$100, the city would have last year as six hundred, this would give the city revenue of twenty-five hundred dollars from the four hundred who paid.

It would seem that the poorer the man was the less regard they had for him in making up the assessments. Three hundred dollars meant a great deal to a poor man as he (Mr. Powell) knew from experience because he had worked for three hundred dollars a year, and found it extremely difficult to keep body and soul together, let alone pay a poll tax of \$5.00.

Last year the man was assessed on \$100, paid with his poll tax a total of three dollars and seventy cents, which was increased under the bill now before the house to five dollars. On three hundred dollars income last year the total tax was \$40, this year if the bill went through, it would be \$5.00. The smaller the man's income the heavier the new assessment law bore upon him. He thought on all incomes from \$300 to \$300 the poll tax might be left at three dollars. In the county where he resided the poll tax was only a dollar and a half.

This motion was seconded by Mr. McKeown.
 Upon the vote being taken the amendment was lost those voting being:—(Yeas)—Messrs. Currie, Robinson, McKeown, Sweeny, Oop, Tweeddale, Burgess, Leger (West), Lovell, Baker, Byrne, Sormany, Leger (Glou.), Hatheway, Upham—15. (Nays)—Hon. Messrs. Hazen, Fleming, Grimmer, Morrissey, Landry, McLeod, Messrs. Murray, Dickson, Woods, Slipp, Hart, Jones, Munro, Sproul, Pinder, Young, Robinson (York), Glastier, Prescott, Wilson, MacLachlan, Allain, Bourque, Sheridan, McInerney—25.

READ TH

n for the third reading of the bill referred back to the committee to **FIX THE POLL TAX ON INCOME**.

He made the motion at the request of the speaker, and represented to him that the settling of the bill was before the house a matter of time. The poll tax of five men who were assessed on income were able to pay their taxes. In the case of the small wage earners the tax would increase. Assuming the average income of \$300, this would give the citizen a tax of \$10.

On the feeling that a three dollar poll tax would allow people would give laboring on assessment was the feeling that the poorer the man the more the tax would mean to him. A man who had worked for three months and then lost his job, let alone pay a poll tax, the man who was assessed on income would be assessed on the basis of the last year's total tax was \$10. A man's income the heavier the tax would be to \$300 the poll tax might be \$10 a dollar and a half.

The vote was seconded by Mr. McKeown and the vote being taken the amendment was carried, Sweney, Copp, Tweeddale, Henthway, Upland, -15. (Nayes, A. Messer, Murray, Dickson, Wood, Glasier, Prescott, Wilson, M
