

FROM THE STATES.

Boston, Oct. 1.
A despatch from Gen. Grant dated yesterday at 3.30 p. m., at City Point, states that Warren's attack and carried the enemy's line to-day on their extreme right, capturing a number of prisoners. He immediately prepared to follow up his success.

Gen. Meade moved from his left this morning and carried the enemy's line near Poplar Grove Church.

Gen. Butler at 8 P. M. yesterday reports that enemy has just made assault in three columns on his line near Chapin's Farm and had been repulsed.

Advances from Sherman are to 9 o'clock last evening. He had exchanged 2000 prisoners.

Yellow fever is prevailing extensively at Newbern, N. C.

Gold 192.

Oct. 3.

Details of Federal advance towards Richmond on Thursday and Friday have been received.

Fighting was desperate on Friday, but Federalists maintained ground gained, losing 3000 killed and wounded.

Federals captured 22 guns and number of prisoners.

Federal advance within 3 miles of Richmond.

Reported Gen. Meade had obtained possession of South side of Railroad, thus severing communication between Petersburg and Lynchburg.

A body of Federal Cavalry under Kautz penetrated to within one-half mile of Richmond but retired, not being strong enough to make a lodgement.

Gold 192.

Steamship "Peruvian" with dates to the 23d, passed Father Point last night.

American news caused a decline of 9 per cent. in Confederate loan.

No political news. Consols, 88½ a 88½.

Breadstuffs slightly declined.

Sales of Mixed Corn 27½ 28.

Provisions quiet.

Oct. 4.

We have nothing later this morning from Grant or Sherman.

Rebel newspapers state that Sherman was compelled to send all citizens of Atlanta away to save his army from starving.

It is believed that Sherman's communications with Chattanooga are still open although strong efforts have been made to destroy them.

The appointment of Admiral Farragut to North Atlantic blockading fleet indicates a naval demonstration shortly to be made at Wilmington.

A heavy rain storm on Saturday and Sunday prevented active hostilities in vicinity of Richmond.

NARROW ESCAPE FROM EMBALMING ALIVE.—Another marvellous escape from the horrors of actually being buried alive has just occurred in New Orleans. A man by the name of Martin was supposed to have died from disease of the heart, and to every outside appearance was dead. The attending physician had given his certificate for the burial, certifying to the cause of death, etc., and the supposed corpse had been prepared and confined, when the friends of the deceased concluded to have the body embalmed. The coffin was closed up and the body sent to an embalming establishment, and the process entered upon. It appears that in the process which preserves the body from immediate decomposition, the preserving quality is infused the system by means of an incision into the main artery of the arm. The incision was made with a lancet, as in the case of blood-letting. The embalmer had commenced his work by making the necessary incision, and to his surprise he discovered blood freely oozing from the vein. He knew there must be life where blood would flow, and desisted from his work of embalming. In a few minutes more there was a slight motion of the body, and presently the man in the coffin made an effort to raise himself, and with assistance did so up and speak. Gentle restoratives were administered, and he was soon able to converse, and he desired to know how it was that he found himself in a coffin clothed in a shroud. The matter was soon explained to him; his friends, in their joy, were advised of what had taken place, and he was sent to the hospital instead of the grave, where he is now in a fair way of recovering. This is, indeed, a marvellous escape from the clutches of death.

The best joke of the season.—The Mc Clellan organs of this city, says the Boston Journal, publish the speech of Theodore Tilton, a Democratic ratification meeting, held in Lowell, but they omit one important incident connected with the speech. When reference was made to Sherman's late victory at Atlanta, Mr. Sweetser stopped and called for "Three cheers for Gen. W. T. Sherman, a Democratic General!" The response being very feeble, the chairman of the Democratic city committee of Lowell stepped to the front of the platform and called for "Three cheers for W. T. Sherman, the only Democratic fighting General who had done anything during this war." These cheers were heartily given. The Republicans of Lowell consider it the best political joke of the season, deeming it not necessary to question the capacity of Gen. Mc Clellan, the Democrats having endorsed all that was necessary to say against him.

The Savannah Republican says the losses during the bombardment of Atlanta will reach five million dollars, worth of real estate embracing forty seven houses burnt.

There were four hundred and ninety-seven people killed, and six hundred and ninety-one wounded.

BUSINESS IN ENGLAND.

Gibbs, Bright & Co., in their Liverpool Circular dated 17th Sept., report the sale of the cargo of New Lampado spruce deals, at an avg. of £7 7s 8d, as follows:—16 feet and upward, 8x11 and 2x17, £7 15; 8x9 and 3x7, £7 13s 6d; 12 to 15 feet, 8x11, £7 7s 6d; 3x9, £7 10s; 3x7, £7 5s; 2x7, £7 12s 6d. Pine Deals, £7 8s; Scantlings, £6 12s 6d; Deal Ends, £5 17s 6d; Paling, 70s. The cargo of the Lancaster, from St. John, brought £7 6s 6d at auction. We quote:—

The Bank rate of discount was raised on the 8th inst. to 9 per cent., and little or no business has been done during the last fortnight.

Cotton is very unsteady, and prices have fallen considerably.

Sutres.—There is no demand for first class vessels except a great reduction on previous sales. The following have changed hands early last week:—

O. M., 1004 Regt., built at St. John, N. B., 1864, classed A 4 years, for £6,000; and

"Elora," 627 tons Regt., built at Maine, 1854, brought £2,500.

Freights.—No material change has taken place in outward freights. Homeward from Bombay the last advices quote Cotton to Liverpool at 45s, and Calcutta to London at £4.

Timber remains without alteration. At the last auction sales Deals brought better prices, the cargo per New Lampado averaging £7 7s 8d per standard. About 500 logs Birch ex Florence, from St. John, 17 inch sold at an average of 18½d per foot; 11s logs of this lot are in the yard.

The Liverpool Journal thus summarises the general aspect of European affairs:—

We have mails this week from India, Australia, the West Indies, and the Pacific. They all testify to order and prosperity.

Europe is in a pleasant state of repose, and Russia is seeking health or doing courtesies.

The Danes German Conference, not being in a hurry to finish its labours, has prolonged the armistice, and Denmark finds consolation in a double connection with the Russian Court. A son of the Czar is to wed a sister of the Princess of Wales; and her brother, the King of Greece, is to place on the throne a fair daughter of the Autocrat.

England has lost cast in Scandinavia, and Russia, by these alliances, will take another "round turn" on Turkey. The representatives of the London press in Copenhagen tell us how heartily we are despised in that capital; but their reports are contradicted by the accounts furnished of the honours paid to the Prince and Princess on their arrival and progress through Denmark. The Royal pair intended to pay a visit to Stockholm; but, owing to the lateness of the season, will not this year journey to St. Petersburg.

Perhaps the most interesting news is the Emperor and Empress of the French. The Emperor is seeking health at Naxos, and the Empress, we are told, is far from being well.

Austria and Prussia have a little commercial quarrel; Francis Joseph is rather in favour of free trade, but King William is conservative on the Zollverein question. The German question evidently is not settled yet, and the Teutons by-and-by may have something to say about free trade.

BRANDING IN THE BRITISH ARMY.—The London Medical Times and Gazette states on good authority, that the H. H. Field-Marshal Commander-in-Chief has issued a circular from the Horse-Guards, by which the present very objectionable plan of branding soldiers is removed. When the necessity for marking a soldier occurs, the operation is to be performed by the drum or trumpet-major at the orderly-room, in the presence of the adjutant, and under the immediate supervision of a regimental or staff medical officer. This is as it should be; and we congratulate the profession that a medical officer no longer occupies a derogatory and false position, and the Duke of Cambridge that he has had the good sense to concede an alteration which was very urgently required.

NARROW ESCAPE.—On Thursday afternoon the policeman on duty at Reed's Point, was informed that a boat, in which it was thought a man was lying asleep, was drifting out of the harbour. He at once procured another boat and the assistance of two men, and started in pursuit, and on coming up with the boat, found the owner, Daniel Gallagher, of Dipper Hartour, lying drunk and fast asleep. There were neither oars nor sail in the boat, and in all probability had it not been seen, it would have gone to sea, and neither it nor its occupant would ever have been heard from. Gallagher was taken to the Watch House and locked up until he got sober, when he was cautioned and allowed to go on his journey towards home with a far better chance of reaching it than he had on his previous trip.—Freeman.

Dr. Radway's Pills will cure the worst cases by the use of one to six boxes. A highly respectable gentleman in this city had not enjoyed the luxury of a natural movement of the bowels for twenty years. He was compelled to assist nature by means of an injection every morning. He had tried all the popular pills in use, but every call to the water closet was attended with great straining and tenesmus, and then to secure a passage he resorted to injections. He was advised to take Dr. Radway's Pills, the first dose removed the obstruction three boxes completed a cure and made him a happy man. He enjoys now a regular movement every morning, and has not taken a particle of medicine in eighteen months. Radway's Pills purge thoroughly, occasion no sickness, straining, weakness or piles. Price 25 cts per box. Sold by Druggists.

It is expected that General Doyle, who is now in the States will visit Canada, and proceed to Washington and perhaps to Gen. Grant's army before his return to Nova Scotia. It is thought he will be at Quebec during the Conference. What with Lord Lyons, Lord Monck, the General, McKay of the London Times, and Day of the London Post, there will be quite a distinguished coterie on hand at the Intercolonial gathering.

A New York butter speculator of a few days ago sent orders to his agent in Potomac, New York, to sell a thousand tubs of butter which had been holding for higher prices, for the most he could get. The splendid condition of the fall feed, taken in connection with the reduced consumption of butter will disappoint many farmers and speculators who are holding their butter for higher prices. It was selling in New Hampshire last week for from thirty-five to forty cents a pound.

There were four hundred and ninety-seven people killed, and six hundred and ninety-one wounded.

Gibbs, Bright & Co., in their Liverpool Circular dated 17th Sept., report the sale of the cargo of New Lampado spruce deals, at an avg. of £7 7s 8d, as follows:—16 feet and upward, 8x11 and 2x17, £7 15; 8x9 and 3x7, £7 13s 6d; 12 to 15 feet, 8x11, £7 7s 6d; 3x9, £7 10s; 3x7, £7 5s; 2x7, £7 12s 6d. Pine Deals, £7 8s; Scantlings, £6 12s 6d; Deal Ends, £5 17s 6d; Paling, 70s. The cargo of the Lancaster, from St. John, brought £7 6s 6d at auction. We quote:—

The Bank rate of discount was raised on the 8th inst. to 9 per cent., and little or no business has been done during the last fortnight.

Cotton is very unsteady, and prices have fallen considerably.

Sutres.—There is no demand for first class vessels except a great reduction on previous sales. The following have changed hands early last week:—
