less because of the lack of

shippers always prefer sending their wheat via a port where there is a good elevator. In a case where their would be no facilities for storing a large quantity of grain the shipper would have to forward his wheat as soon as it arrived at seaboard, no matter whether the prices on the other side were high or low. Mr. Timmerman believed that an elevator was much needed here.

Before leaving, the reporter asked him if the Canadian Pacific company intended making any more improvements on their own hook at their terminus in Carleton.

"The matter is in abeyance," replied Mr. Timmerman, "and I don't think any thing more will be done, until all the work of the standard of the standard

Carleton.

"The matter is in abeyance," replied mous brands. Call and see Market building, 45 Charlot more will be done, until all the arrangements, connected with the transfer of the Carleton branch railway are completed. I cannot say anything more just now in regard to what the company may do there."

"A Delicate and lasting to the carleton branch railway are completed."
