FRIDAY, SEPT 1 1899.

INGERSOLL TURNS THE TABLES.

Defeats Princeton in a Well Played Game.

Ingersoll won yesterday a closely contested game of ball from Princeton by a score of 15-9. It was close and exciting until the sixth innings when the home team drew ahead by scoring three runs on two hits and three errors of their opponents. In the seventh they cinched the game by hitting the ball for six bags which resulted in a tally of five runs.

Princeton scored most in their first venture, the first three men up made the circuit by three safe hits and Pearson's error. In the third they bunched four hits and aided by Frezell's error two runners scored. In the fourth and the seventh they added one to the score by clean hits, and in the eighth two more on Gibson's miss of Dake's hot drive.

Gregory for the visitors pitched fast ball, the first five outs fanned, and though the home team began to get on to his style as the game progressed, yet four more fell victims to his curves. Hutt, Pearson and Gibbs were the only members of the home team who did not strike out at some part of the game.

Though Burnet had only six strike outs to his credit he pitched much steadier ball, giving only one base on balls and hitting one batter, while Gregory allowed eleven to to walk to first base.

Princeton's fielding too was poor, the errors made were costly while only two of Ingersoll's errors were directly responsible for runs. Nor could the visitors steal bases, Benham only went down to second and that was because there was a man on third. Ingersoll played with great snap on the bases no less than ten steals being recorded for them.

NOTES OF THE GAME.

One apiece.

Not in the hay-field this time.

Reddy couldn't get out of the way of the ball.

Rather amusing to see our heavy hitters fanning.

The enjoyment of the spectators would be greater if the would-be witty small boy would keep his mouth shut once in a while.

Hutt played the game of the day; he hit the ball safely every time at bat, caught a beautiful game and kept the visitors hugging the bags and stole bases in the most daring style.

Bloor, the junior of them all, played an excellent game at first. He gathered in everything possible, stopping several poor throws that might have lost the game. He batted well too—though nervous at first, the last three times up, he hit the ball safely.

Unlike most pitchers Gregory is a batter—he was five times at bat and hit three times.

Boyd is quite a jollier; he knows more about the game than the umpire and the other seventeen players.

Myers is all right at short. He missed his first chance only, but played gilt-edged ball the rest of the game, and he had more work to do than any man on the team.

"Dutch" Merner finished strong: in the eighth he made the only catch of the day of an outfield fly, and immediately came in and made a clean two-bagger.

Myers only got one hit but it was good for two bags and besides started the merry-go-round of the seventh.

W. Davis is an uncertain man; he made the longest hit of the day, but also struck out three times.

THE GROWING TIME.

Big Increase in the Customs Collections for Month of August.

OVER HALF A MILLION DOLLARS.

The Balance of Gain for the First Two Months of This Fiscal Year Is $29,863.68—The Indications Now Are That September's Importations Will Be Unprecedentedly Large.

Ottawa, Sept. 1.—That Canadians have more money than ever has been in their pockets before is to be seen at a glance. One of the prime indicators of the existence of the growing time is evident by the statement of customs receipts for August, which was issued yesterday. The total amount of customs collection for the month ending yesterday was $2,631,870.44, as against $2,119,198.01 for August of last year, the increase being the enormous sum of $512,672.43. In July of last year the figure was $2,436,491.81, admittedly a large sum, but the receipts for the month referred to were swelled because after its last day German and Belgium, non-British countries, were debarred from participating in the 25 per cent. cut in duties, which they were granted before the denunciation by Great Britain of the treaties under which they were permitted to avail themselves of the advantages of the Canadian tariff. In July of this year the total amount of customs dues paid was $1,953,683.06, a decrease of $482,808.75, as compared with July, 1898. Taking the two months together, the balance of gain this year is $29,863.68. From present indications the importations for September will also be unprecedentedly large.

Space at the Paris Exposition.

Acting upon requests from many Canadian manufacturers, the Minister of Agriculture is making a strong effort to secure additional space for the Canadian exhibit at the Paris Exposition. Gentlemen engaged in the manufacture of agricultural implements and machinery have made insistent demands upon the department for more space. The present commercial prosperity of Canada has justified them in so increasing their staff and manufacturing facilities as to make it possible for them to make efforts to extend their trade to non-British countries. As is well known, we already drive a thriving trade in agricultural implements and machinery with Great Britain, Australia and South Africa, but our manufacturers now desire to go farther afield, and are confident that the merits of their goods will obtain for them greatly increased markets. The cable has been kept busy for some days with despatches from the Minister of Agriculture demanding more space, and from a Paris despatch received here last night it is safe to say that Hon. Mr. Fisher will be successful.

THE DOCTORS.

The Dominion Association Discusses the Question of Tuberculosis.

Toronto, Sept. 1.—Previous to the meeting of the Dominion doctors yesterday morning at the Normal School, a skin clinic was held at St. Michael's Hospital. The lecturers were Drs. A. R. Robinson, McPhedran and Graham-Chambers. Sixty doctors were present, and two dozen patients were studied.

This session caused the medical men of the Dominion to be late in getting down to work Thursday. Of the nine papers on the list for the morning session, only one was discussed. Many papers were laid on the table as read and some left over from the previous session were discussed in order.

The contribution of Dr. T. Hunter was exceedingly interesting. His subject was "Tuberculosis and Insurance." In discussing the hereditary tendencies of tuberculosis, Dr. Hunter stated that this principle of heredity had received the endorsation of the masters of the age. Yet the direct transmission of the bacilli has been proved by pathological research to be rare and really of no importance. Speaking of the curability of the disease, the doctor said that in his opinion a very large percentage of the patients treated were completely cured.

Dr. Hunter's paper was warmly discussed.

Dr. A. E. Benedict of Buffalo held that there was no heredity in relation to consumption.

Sir William Hingston stated that the question of heredity has done an enormous evil to society.

Sir James Grant warmly advocated government interference. He deplored the spread of tuberculosis and urged the medical association to take some action whereby the Dominion and Provincial Governments might be induced to increase the efficiency of sanitation laws.

This concluded the morning session.

At the afternoon session papers dealing with technical questions and problems in surgery were read by Prof. Peters, Dr. F. F. Ross, A. G. Benedict and William B. Coley of New York.

THE UNIVERSITY CHEMIST

Resigns to Take Up Practical Work for a Toronto Packing Company—Salary Is $4,000.

Niagara Falls has been chosen by the Volunteer Firemen for their next place of meeting in August, 1900.

The 11-year-old son of W. Parker of Blythfield, Man., was killed in a runaway accident on Thursday.

Roy Stevenson, the 4-year-old son of George Stevenson, carpenter of Udora, was bitten on the calf of the leg by a kissing bug. Despite a physician's best efforts blood-poisoning set in, and the child died on Thursday night.

A Toronto packing company has secured the services of Prof. F. J. Smale, B.A., Ph.D., lecturer in chemistry at Toronto University. His chief duties will be to sperintend, with the aim of perfecting, the canning processes now in vogue. His salary will be $4,000. The professor sent in his resignation from the faculty of the university about two weeks ago, in order to devote his whole time and energies to the canning industry.

Kerosene poured on a blazing fire caused an explosion in Toronto on Thursday morning and Mrs. Annie Mulcahy of 117 Jarvis street received fatal burns. She tried to increase the fire by the use of coal oil. The can exploded and its flaming contents went over the poor woman's head and clothing. She ran out into the yard, where she was seen by Mrs. McTiernan, a neighbor, who put out the flames with water. She was fearfully burned, almost to a crisp. Death was due to the shock and her burns.

THE D.R.A. MATCHES.

Many of the Marksmen Rapidly Seeing Their Finish.

Ottawa, Sept. 1.—Yesterday morning was the beginning of the end, and many marksmen saw their finish rapidly approaching. The 500-yard range in the Walker match was shot Wednesday night, when the weather conditions were splendid. Some few, however, well up in the aggregate went back a good deal, but no kicks were made on account of ammunition, as the 1898 issue and rifleite, at the option or the marksmen, were entirely used. After this range was over Sergt. Swaine, 16th Battalion, was found to be leading the second man, Pte. Langstroth, 1st C A., by six points in the aggregate.

Walker Match—Ranges 500 and 800 yards, 10 rounds at each, the first three scores were:

Cup, and $25—Bomb S W Bodley, 5th RCA 95
$20 Pte J Watt, PWRF 94
12 Corp J T Peddle, 5th RS 93

The Grand Aggregate—The leaders in the grand aggregate so far are:

Cup and $30—77th Batt 510

The leaders in the grand aggregate so far are:

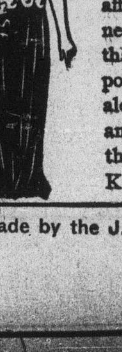
The Light of Common Sense



will prove to any woman that there is no better shoe for feminine wear than the King quality at $3. She doesn't need to be a judge to see that. Did you ever know that uncomfortable shoes affect a woman's temper? It's true, nevertheless, and so we can honestly say that a sweet disposition goes along with the style and the ease and the beauty of King Quality.
