The new business of the SUN LIFE was the largest ever secured in the Company's history and was equalled by but one other Canadian life company. The surplus accumulated during the THREE years of the current quinquennium far exceeds the amount earned during any previous FIVE years, and the profits to policy-holders thus cannot fail to be highly satisfactory. The properity of the SUN LIVE is no doubt largely due to its issuing unconditional policies and paying its claims promptly. Canadians should also remember that by patronizing a home Institution, which invests all its funds in the Dominion, they are benefiting themselves by reducing the rate of interest here, and are helping to build up our own cities rather than those of foreign states.
