Christmas Pudding

And other delicacies require the best goods. Now, there are two preparations that we manufacture that are often forgotten by our customers; preparations that we manufacture so carefully and with so little profit to ourselves that it does not pay us to push them.

1. FLAVORING EXTRACTS.

These can be procured from us in bottle or in bulk. Ten drops of our lemon will flavor as much as a 10-cent bottle of what is usually sold. You will find our peppermint, our vanilla, etc., the same. The next time that you are in our store try a sample ounce or a bottle of our extracts.

2. BAKING POWDER.

We begrudge even this little space to puff up our Baking Powder. There is too little profit in it. Our only reason for doing so is that if you try it you will be our regular customer. We pride ourselves on the fact that it is a pure Cream of Tartar Baking Powder and sold at a reasonable price. **Lb., 25c.; Half-Lb., 15c.**

We could make a powder to sell at 10c. a lb., which would raise cakes quite as well as ours, but—it would not be made of Cream of Tartar.

SPICES.

The next lot of spices you want just try ours. We keep all kinds and the very purest.
