MR. H. R. STRVENS, BOSTON Mass.:

Dear Sir—For several years I have been greatly troubled with Pimples breaking out on my face and body. I had consulted several physicians and also tried several preparations and obtained no relief. I thought I would try Vecertie, as I had heard several speak in its favor, and before I had used the first bottle I saw I had the right medicine. I have used three bottles and my health is very much improved, and the Pimples have entirely disappeared from my face and body. I recommend Verentine to all who are troubled as I was.

I am personally acquainted with Mr J. Osburns, and know the above to be a true statements of the acts. I sold him the Vegetine.

A New Brunswick poet.

ORION AND OTHER POEMS—BY CHARLES G. D. ROBERTS, PHILADELPHIA, J. B. LIPPINCOTT & Co., 1880.

The publication of this little book begins a new era in the Literary History of this Province. It has had no predecessor and it has no companion. Volumes of verse we have had, of domestic make, but no volume of poetry except the one now before us. No person with poetic tastes can open it at random, and read a dozen lines, without his attention being arrested by the soul shining through the song : without feeling the force of the divine afflatus breathing through the lines; without noticing a wealth of epithet and eloquence of diction, a richness of metaphor; without being forced to acknowledge that a good thing has come out of the New Brunswick Nazaroth He is prosy indeed, even to stupidity, who can compare it to anything that has been hitherto published as the production of the Muse of New Brunswick. Others have written flowing ballads and dreamy sonnets and respectable verse of many metres, but none of them stand on the same plane with the author of "Orion." He is the Chaucer of New Brunswick literature. But he resembles the author of the "Canterbury Tales" only in this one point-of superiority to his predecessors and contemporaries, and not in the character and bent of his genius. He has not, like Chaucer, employed the framework of foreign story in immortalizing domestic life

and character, but has contented himself, chiefly, in following the beaten path he found on the classic summits of song, where he caught his inspiration. We shall not quarrel with him for this. The man who sings because he must may not choose his theme. It is safer to take the first flights under the eye of the masters, amid familiar scenes, than to risk all by venturing out into the untried and unknown. But having found his wings strong and gained for his muse a wide recognition, the young poet need not hesitate to spread his pinions in the limitless ether of modern life and thought. There must be inspiration for him, if he seeks it, in the scenery, the legends, the history of our own land and in the life, the thought and the labors of our own people. The field is all before him where to choose. Longfellow olanced over it and made one of its episodes a portion of the deathless heritage of song. Will our young poet take the hint? He has, we are glad to notice, faith in his own powers -an

Surely I have heard
The ample silence stirred
By intensest music from no throat of bird:—
Smitten down before thy feet
From the paths of heaven sweet,
Lowly I await the song upon my lips conferred.

Here we have at once the confidence

and the humility of genius,-the proud consciousness of power, and the reverent recognition of its source. We believe he has not been deceived and confidently look forward to a fuller demonstration of his powers in the future.

One line differeth from another in glory, but all are worthy of admiration. Where, in all our literature is there a nobler description of scenery? It suggests, at first, the opening passage of "Enoch Arden," but in its majesty and boldness leaves that far behind. It is a him choose one of them for his lady-
