Keep up hope. There are thousands of cases where recovery from Consumption has been complete. Plenty of fresh air and a well-nourished body will check the progress of the disease. Nutritious foodsare well in their way, but the best food of all is Cod-liver Oil. When partly digested, as in Scott's Emulsion, it does not disturb the stomach and the body secures the whole benefit of the amount taken. If you want to read more about 't let us send you a book.

X Ray Experiment.

X Ray Experiment. About two weeks ago a two-year-old child of a Mr. Barnaby, of Northville, swallowed a Canadian cent. It did not seem to interfere scrioualy with the little fellow's health, but the parents were doubt-ful as to its whereabouts, so on Thursday evening of last week they brought the child over to Prof. Haley, of Acadia, who took an X ray photograph of it. The negative showed the youngster's ribs, backbone, etc. but the cent was not visible. A button on the back of some of his clothing showed distinctly, so it is thought that the cent is no longer in circulation in the little fellow's system.—Wolfville Acadian.
