## HARD WINTER IS PREDICTED

Goose-bones and Weather Prophets Prognosticate Early Snow and Lots of It—Get Coal in Early.

It is going to be a long, hard winter with lots of snow, says the New York Sun. Two of the country's most famous weather prophets agree upon this forecast, and the goosebone of a third bears them out. Uncle Sam's official weather man never tells weather secrets so far ahead, but if you take the advice of Uncle Horace Johnson, the sage of Middle Haddam, Conn., or Weather Prophet De Voe of Hackensack, N. J., you get your coal in early and have your fur coat handy on the rack.

September is the open season for weather prophets. They emerge from their lairs with their readings of the stars and goosebone just at the time when summer days are waning. Prophet De Voe always forecasts them all. His prediction for this winter was made two years ago. He is busy just now in 1912, which is going some for weather prophets, and he had to look back in his records to tell you what this winter will be like.

While Uncle Horace and Prophet De Voe agree on the fact that as a winter it's going to be the real thing, they differ a little as to dates for the first snowfall. From his retreat in Connecticut, where he has been studying the stars for eighty-eight years, Uncle Horace the other day issued his annual proclamation. In it he startled the farmers by announcing that snow would fall on October 13. On the Hackensack, Weather Prophet De Voe, who is just a bit Uncle Horace's junior, made it known to a Sun reporter that Uncle Horace had made a little mistake in his dates.

"He's got it just a little too soon," said Prophet De Voe, after a kindly reference to Uncle Horace. "Snow will fall on October 24, but it will be a long, hard winter. He's right about that."

According to Mr. De Voe, November 7 will see the first snow fall hereabouts and not the first snow fall Uncle Horace predicted. "There is no longer remains any doubt and there will be a second fall on November 22 and sleighing on Thanksgiving Day, such a thing has hardly been seen in these parts in years, and as for December, you would fairly shiver to hear him talk about that month even in these warm days of fall. It will be awfully cold, he says, with heavy snow on the 9th and 10th, another ripping snowstorm on the 21st to stay in for a fortnight, and still another on December 29, with the thermometer hugging the bottom of the tube.

Uncle Horace says that by November 12 the lakes and streams will have plenty of ice, which agrees pretty well with the weather forecast of his fellow prophet of Hackensack.

"I predicted to the day that cold rainstorm we had in August and also the hot spell in July, so you see I know what I'm talking about," says Weather Prophet De Voe.

Uncle Horace's great exploit in the weather forecasting line was the big year of 1888. Andrew Jackson De Voe was the Galveston flood, the exact time of which he missed, he says, by only 24 hours. Uncle Horace predicted bad weather for Mr. Taft's inauguration right in the face of the government's deplorable prophecy.

Both of these famous weather prophets think that they have it all over Uncle Sam's paid officials and don't care to stay in the government. They don't ask them for their receipts. Uncle Horace will undertake the entire year of telling the weather the year around for Uncle Sam for the sum of \$200,000 a year. The Hackensack prophet, on the other hand, has a plan to sell to the government to sell his secret for \$100,000.

Uncle Horace, who enhanced his fame by predicting an earthquake in the Connecticut Valley which really happened, used to be a member of the Corn Exchange in New York and was a member of the eighty-eighth year in the little village on the shore of the Connecticut. Most of his observations are made from the top of his barn.

"My system," he says, "is based entirely upon a knowledge of astronomy, meteorology and mathematics. I can tell you the time for any one else to foretell first class storms fifty years in advance or to tell that there were storms on certain days over yonder."

"All the planets are governed by one central power house. All the planets in the heavens are ruled by one central attraction in the centre of the universe, the centre of creation. In order to predict the weather, astronomy and mathematics to place a certain planet in position whereby the attractive force of the central force of gravity of the earth, this disturbs the equilibrium of the earth, lessens the heat of the sun, or perhaps a sugar mill boiler or a large tank loaded with explosives.

Members of the Maine board, including Rear Admiral Sigsbee, are reticent in regard to the discovery and will not confess that the revelation is an important one, especially those who can see the upheaved bottom and guess its meaning. It destroys all reasonable doubt as to the blowing up of the Maine by a mine.

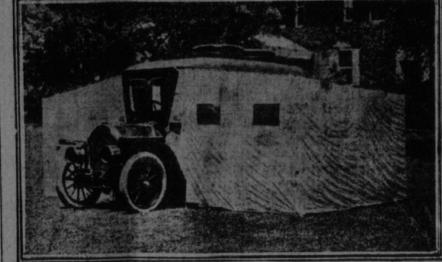

LIFE WILL BE SHORTENED. Those who fail to observe the fundamental rules of health, especially those who neglect constipation, will have short lives. Costiveness ruins health, destroys vitality, weakens the blood, causes dyspepsia, nervousness and insomnia. Why not use Dr. Hamilton's Pills and be cured. Take 1 or 2 pills before retiring and you will next morning. No grip or pain, no headache and nausea when you use Dr. Hamilton's Pills—they cure scientifically. Positive, the best laxative known, 25c. at all dealers.

In the Police Court. In the police court yesterday morning Thomas Barry was committed for trial on the charge of setting fire to a house 74 Brussels street, owned by George H. Waters. Timothy O'Brien was fined \$20 for assault, and Thomas McCann was remanded on a similar charge.

Public Storage. We have the best and most centrally located Public Warehouse in the City of St. John. Situated on our own wharves in the heart of the shipping district, we can receive goods at all times, day or night. Most convenient for shipping purposes, as a number of the coasting steamers and vessels dock at our wharves.

Russian Dancer Coming. Mrs. Pauline Winslow of Montreal is to give in the interests of the great interpretive dancer and dramatic pianist, the Russian Countess Thamar de Opra, who will appear at the Opera House on October 27 and 28.

## COMPLETE CAMP OUTFIT ON WHEELS FOR COLONEL DU PONT

COL. DUPONT'S CAMPING CAR.

Colonel T. C. du Pont has had a camping car built for his use. He intends to use it while supervising the construction of the public highways in Delaware, for which he has just given the State a million and a half dollars. The car is 45-horse power. It has a wheel base of 115 inches, and is long enough inside for a half mattress six feet long. Supplies are packed in two lockers, six inches wide, which run the length of the body on each side.

## MAINE WAS DESTROYED BY A WAVE

No Longer Doubt that External Explosion Caused Tragedy of Havana Harbor—Cause of Disaster Revealed.

A cable from Havana to the New York Sun says: Havana, Sept. 23.—The Maine was destroyed by an external explosion. There is no longer remains any doubt as to the manner in which the United States battleship was sunk in this harbor on the night of Feb. 15, 1898. The coffers about the wreck has been pumped out and the mud cleared away to a greater extent than ever before. The clearing away of the wreckage reveals the double bottom of the ship with part of the peel standing in a perpendicular position some 23 feet higher than the natural position.

This perfectly confirms the report and testimony which Ensign Powelson gave before the investigating board after the disaster and which was based upon the reports made to him by divers just after the explosion.

The Sun correspondent saw the bottom of the vessel this afternoon, and it stands supported in a perpendicular position by stanchions. The lowest, or platform deck is in the position described. It is in an upheaved mass above the submerged bow.

The position of this part of the bottom indicates that what is now the explosion took place in a position originally and structurally occupied a position at above frame 18. This suggests that there was an explosion of a mine under the forward deck, the explosion falling on the superstructure on the starboard side. From this position, in cutting away the wreckage, it has been allowed to settle to the main deck slightly forward of the after turret, which is on the port side. Thus the tower is on the opposite side to that on which the explosion took place.

"Other portions of the superstructure were thrown forward, falling upon the double bottom, as stated, is standing in a perpendicular position above frame 10.

It is a confirmed belief that such a tearing of the ship's bottom could not have been produced by an interior explosion. It is further said that no regular military mine could have wrought such terrific havoc. It must have been a huge mine, as Capt. Sigsbee and others suggested at the time, perhaps a sugar mill boiler or a large tank loaded with explosives.

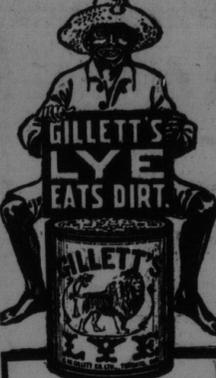

Members of the Maine board, including Rear Admiral Sigsbee, are reticent in regard to the discovery and will not confess that the revelation is an important one, especially those who can see the upheaved bottom and guess its meaning. It destroys all reasonable doubt as to the blowing up of the Maine by a mine.

LIFE WILL BE SHORTENED. Those who fail to observe the fundamental rules of health, especially those who neglect constipation, will have short lives. Costiveness ruins health, destroys vitality, weakens the blood, causes dyspepsia, nervousness and insomnia. Why not use Dr. Hamilton's Pills and be cured. Take 1 or 2 pills before retiring and you will next morning. No grip or pain, no headache and nausea when you use Dr. Hamilton's Pills—they cure scientifically. Positive, the best laxative known, 25c. at all dealers.

In the Police Court. In the police court yesterday morning Thomas Barry was committed for trial on the charge of setting fire to a house 74 Brussels street, owned by George H. Waters. Timothy O'Brien was fined \$20 for assault, and Thomas McCann was remanded on a similar charge.

ESTEY & CO. Selling Agents for the Manufacturers, 49 Dock Street.

## Chancery Sale

There will be sold at PUBLIC AUCTION at Chubb's Corner, on Saturday, the 27th day of September inst., the property of the late George W. H. Hamilton, Esq., deceased, in the City and County of Saint John, in the Province of New Brunswick, on

SATURDAY The TWENTY-FIRST DAY of OCTOBER, Next

at the hour of 12 o'clock, noon, pursuant to the directions of a Decreeal Order of the Supreme Court of Justice, in relation made on Tuesday, the twenty-first day of July in the year of our Lord One Thousand Nine Hundred and Eleven, in a certain cause therein pending, between Augustus H. Hamilton and Jane Elizabeth Hamilton, his wife, as Plaintiffs, and James K. Potts, Annie B. Melick, James Melick and Marion B. Melick, his wife, Arthur K. Melick and Honorable Harry A. McKeown, Trustees under the Will of Charles J. Melick, deceased, as Defendants.

The said property consists of certain parcels of land situated in the City of Saint John, in the County of Saint John, and in the Province of New Brunswick, and described as follows:—Beginning on the eastern side of the said line of division, so called, at its intersection by the northern line of the said Market Square and the line of the said Dock Street, and extending westerly along the said line of division, a distance of forty-two (42) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence northwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence eastwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Dock Street, and thence southwardly along the said line of division, a distance of thirty-two (32) feet, to the line of the said Market Square, and thence westwardly along the said line of division, a
