 Six Model 85-76 \$1855
 C.O.D. Toronto

Next Summer

This Winter

**Double the Utility—Double the Comfort
 —and for a Moderate Price**

Here is a car that is just as ideally suited for use in winter as in summer. It is a closed sedan and open touring car in one—a practical, sensible car for every use every day of the year. Closed, it has the appearance, luxury and protection of a car that is permanently enclosed. It's exactly the car for cold, inclement weather—or hundreds of occasions all year 'round when a closed car is desirable. But with the windows lowered and the uprights folded away it is open to every friendly breeze that blows—and has much more character and style than an ordinary touring car.

It is only the work of a minute to open it up or close it without getting out of the car. The Touring Sedan has double the utility and double the comfort of any car that is permanently either a closed or open car. The Touring Sedan is a beauty, either open or closed. You can have a Touring Sedan on either a four or a six cylinder chassis. The four has the famous 35 horsepower Overland motor in its latest and most improved en bloc type. It has a 112-inch wheelbase, 4 1/2-inch tires and those long, shock-absorbing cantilever rear springs. The six has a 35-40 horsepower en bloc motor that is a marvel for power and flexibility—116-inch wheel-

base—large tires—long cantilever rear springs. And think of the price! These Overlands are the first full size Touring Sedans ever offered at a moderate price. Such cars could not be sold at such prices but for the economies made possible by our enormous production. See these Touring Sedans. Make your selection now—either a Four or a Six. Do not wait. You can use these cars in the dead of winter with just as much pleasure and comfort as you can on the warmest days. See the Overland dealer now and arrange for one of these moderately priced luxurious cars.

Catalog on request. Please address Dept. 770.
