

15542
My cousin and I have taken a house in Bremen
(near Bahuswal), and we are going there in a day or
two to have a rest and lead a quiet life.

I am sure you are very busy now with the political
crisis which has just taken place in Canada. I hear that
the Ministry had resigned.

The dark clouds which have been hanging over
~~Canada~~ India have cleared a bit. I am certain that
cases of assassination will always take place in India.
They are the deeds of men whose minds are unhinged and
are half-wild. Things are moving very fast in India.
The whole East, as you know, is vibrating with new life.

I do not know whether I shall be able to pay a visit
to Canada before I return home. But I shall try my best
best to do so.

I trust you are keeping good health.

With best wishes

I Remain
Yours Sincerely

Nitish C. Ghose
