THE LOCAL BUDGE

Mrs. W. H. Fisher, Murray street, is quite ill with rheumatism.

Carl. Fleming, of Chicago, is in the city visiting his father, Robert Fleming. He is spending a few days duck shooting on the Dover plains.

C. W. Cameron laid a charge of using insulting language against Henry Linderbeck, of Harwich. Linderbeck pleaded guilty and paid a fine of \$1 and \$3.50 costs.

George Dunkley brought 160 dozen bunches of celery in from the Ericau celery farm yesterday. He says that it is impossible to supply the demand for the celery. They can sell all that they can get ready for the market.

"I was up to the 'Fadettes' last evening," said a certain newly wed benedict to The Planet this morning, "and was told that one man managed that company of young women. I would certainly like very much to see him and get some ideas from him, as I find it more than I can do to manage one."

"Although a great many people moved from the city during the summer, I think the most of them have and are coming back," said Jas. Marshall to a Planet reporter this morning. "I have nine houses rented at present and could have rented three more within the last week if I had had them. Rent is fairly high and the Crown. most of the tenants are paying in advance.

George Cartier, stage carpenter at the Opera House, has charge of the bill distribution, and to do this work he always has a number of little lads. Before they can work for George they must have a tough name. The boys who haven't a nickname are quick to find a sobriquet. A shiny little black fellow is called "Plaster," a mulatto boy with considerable chin answers to "Goldy," and others of the dodger carrying crowd are known by the names of "Juice," "Grasshopper," "Ribs," "Rickety Dick," "Silver," "Ginger" and "Plug."

Col. Sam Holmes has returned from a couple of days' shooting at the Joy Club. He states that the residence of James Parish, Jr., on the 13th concession, Dover, was burned to the ground on Tuesday night at 10 o'clock. Only two women were at home at the time and the fire is supposed to have started from 4 defective stovepipe. Only a churn was saved. The fire cleaned up everything and nothing was left standing in the ruins except a stove. Colonel Holmes says that it was just such a fire as he would like to have if he had to have one. There was nothing to be pulled down to make room for re-building.

the railway will be put down, and through the charter we have at present. It is bound to come. There is no place in Ontario where the conditions are more favorable than in Kent and I would like to see the scheme caried out. The line which is most needed is from Chatham to Petrolea. I would like to see a railway taking in the country north of Dresden, While helping Chatham it would in no way injure the smaller places through which it passes, but would tend to build them up also. This has been found to be the case in other places
