Get An Increase.

Detroit, Feb. 13.—The first labor  
contract concluded this season on the  
great lakes was signed here Satur-  
day night when the Great Lakes Tug  
and Dredge Owners' Protective Asso-  
ciation reached an agreement with  
the International Brotherhood of  
Steam Shovel and Dredge men. Im-  
proved incidental conditions are con-  
sidered equal to a general increase of  
7 1/2 per cent.

**\$100 REWARD \$100.**

The readers of this paper will be

pleased to learn that there is at

least one dreaded disease that science

has been able to cure in all its stages,

and that is Catarrh. Hall's Catarrh

Cure is the only positive cure

known to the medical fraternity.

Catarrh being a constitutional

disease, requires a constitutional

treatment. Hall's Catarrh Cure is

taken internally, acting directly ap-  
on the mucous surfaces of the system,

thereby destroying the foundation of  
the disease, and giving the patient

strength by building up the constitu-  
tion and assisting nature in doing

its work. The proprietors have got  
much faith in its curative powers

that they offer One Hundred Dollars  
for any case that it fails to cure.

Send for list of testimonials.

ledo, O.

Sold by all Druggists, 75c.

Take Hall's Family Pills for con-  
stipation.

SHOCK BY A TRAIN.

Cobourg, Feb. 13.—At an early  
hour Saturday morning a fatal acci-  
dent occurred at the Division street  
crossing, when Jean Palmer, a young  
woman who has been employed as a  
domestic at the Commercial House  
here, was struck by a passing train  
and instantly killed. A coroner's in-  
quest will be held.

THE ROOT OF NEURALGIC HEAD-  
ACHE.

Is an irritable condition of the  
nerves caused by cold. Relief comes  
quickly from Nerviline, the great  
pain reliever of to-day. "I consider  
Nerviline a magical remedy for neu-  
ralgia," writes Mrs. E. G. Harris  
of Baltimore. "But I never worry if  
Nerviline is in the house. A few ap-  
plications never yet failed to kill the  
pain. I can also recommend Ner-  
viline for stiffness, rheumatism and  
muscular pains." In use nearly fifty  
years: try Nerviline yourself.

The Mamma Invitation.

"Please, Mrs. Smith, mamma says  
she'll be glad if you'll come to tea  
on Monday."

"With pleasure, Bessie. Tell your  
mother it's really too kind."

"Oh, no! Mamma says she'll be  
glad when it's over."

Ghosts would frighten many people  
who are not afraid of germs. Yet  
the germ is a real danger. If this  
microscopic animalism could be mag-  
nified to a size in proportion to its  
deadliness it would show like a giant  
python, or fire-breathing dragon.

The one fact to remember is that  
the germ is powerless to harm the  
body when the blood is pure. It is  
far easier to keep the germ out than  
to drive it out after it obtains a hold  
in the system. Dr. Pierce's Golden  
Medical Discovery is the most pow-  
erful and perfect of blood-purifying  
medicines. It increases the quantity  
as well as the quality of the blood,  
and enables the body to resist dis-  
ease, or to throw it off if disease has  
obtained a footing in some weak or-  
gan. Wherever the digestion is im-  
paired, the nutrition of the body is  
diminished, for the blood is made  
from the food which is eaten, and  
half digested food cannot supply the  
body with blood in quantity and  
quality adequate to its needs. For  
this condition there is no remedy  
equal to "Golden Medical Discovery."

It cures ninety-eight out of every  
hundred persons who give it a fair  
trial. When there is constipation  
Dr. Pierce's Pleasant Pellets will  
promptly and permanently cure.

Marriage ceremonies present a pic-  
ture of vanity done in the most glow-  
ing colors.

**MESSRS. C. RICHARDS & CO.**

Gents.—After suffering for seven

years with inflammatory rheumatism

so bad that I was eleven months con-  
fined to my room, and for two years

could not dress myself without help,  
your agent gave me a bottle of MIN-

ARD'S LINTMENT in May, 1897, and

said me to try it, which I did, and

was so well pleased with the results,

I procured more. Five bottles com-  
pletely cured me, and I have had no

return of the pain for eighteen

months. The above facts are well

known to everybody in this village  
and neighborhood.

Yours gratefully,

**A. DAIRY,**

St. Timothee, Que., 16th May, '99.

It takes a lot of culture in savag-  
ery to make one really enjoy a foot-

ball game.

er throat ailments are quickly reliev-

ed by Creosote Tablets, ten cents per  
box. All druggists.

ICE CREAMS.

The Purely American and the For-  
eign Variety—Several Variations.

Philadelphia ice cream is a product  
of American invention and is but little  
known abroad. In this country it is con-  
sidered the choicest kind of ice cream.  
When properly made, it consists entire-  
ly of sweetened and flavored cream, the  
flavor giving the specific name to the  
variety. The cream, which should not  
be too rich, may be scalded or not, as it  
suits the individual taste. It will  
expand more in freezing if it be not  
cooked, giving an ice of light, fluffy  
texture, but of raw taste. What is  
gained in quantity is lost in quality.  
Cooking the cream obviates all danger  
of its curdling in case of atmospheric  
changes and gives a firm, close  
grained, velvety ice which cuts like  
jelly. In scalding the cream, as in all  
dishes where milk or cream is called  
for, use a double boiler or a pair set  
into a kettle of hot water. Dissolve  
the sugar in the hot cream and when  
cold add the flavoring. In case an ex-  
tract be used, one tablespoonful for  
each quart of cream will be required.

In making a fruit cream—straw-  
berry, raspberry, peach, etc.—the fruit  
should be mashed, mixed with sugar,  
and, after standing some time, added  
to the cream, when the latter is partly  
or wholly frozen. The quantity of  
sugar to be used depends upon the  
acidity of the fruit. Strawberries and  
peaches may be pressed through a  
potato ricer, but raspberries must be  
sifted through a sieve fine enough to  
keep back the seeds.

For peach ice cream, to a quart of  
Philadelphia ice cream, frozen without  
flavoring, add a pint of peach pulp in  
which half a cup of sugar has been  
dissolved.

A Tempting Dessert.

For extra occasions ice cream and  
melons are a splendid combination. Se-

lect small nutmeg variety for this pur-

pose. Wash outside clean, then di-

vide into segments, but leave them

hinged at the flower end of the melons.

Remove the seeds and membrane.

Place the melons on lace paper doilies

on individual plates. Have ready ice

cream delicately flavored with some

fruit extract, either banana, cherry,

peach, grape or apricot, but for once

omit vanilla, and use this for the center.

Neapolitan Ice Cream.

This ice cream is universally served  
in England and on the continent of Eu-  
rope. It is made of cream or rich  
milk and yolks of eggs in every pro-  
portion from six to one for each quart  
of cream. One cup of sugar is allowed  
for each dozen of yolks. Beat the yolks  
till light colored and thick, add the  
sugar and beat again, then add to the  
cream in the double boiler and cook  
as a boiled custard till the mixture  
coats the spoon. Strain the mixture  
at once into a dish set in cold  
water. When it has become ice cold  
flavor and freeze.

Sometimes starchy material, as ar-  
rowroot or cornstarch, is used in the  
place of part of the eggs. In this case  
it is better to mix such material with  
a little cold cream or milk and cook  
it in the hot cream for ten or fifteen  
minutes.

The Neapolitan method of making  
creams is considered best adapted to  
vanilla, coffee, chocolate, caramel and  
the various nut creams. In Europe  
fruit flavors are thought not to harmo-  
nize with eggs, which are an essential  
part of all their creams, but any of  
the fruit pulps may be added to a  
Neapolitan cream with good results.—  
Boston Cooking School Magazine.

Blueberry Pudding.

Mix one and one-half pints of sifted  
flour, three teaspoonsful of baking  
powder and one-half cupful of sugar.

Beat the yolks of three eggs until

light and to them add one generous cupful

of milk and pour over the dry mixture,

beating until smooth. Add then three

tablespoonsful of melted butter. Flour

one quart of blueberries (reserve one-  
half cupful from the original measure

for the purpose) and stir them well

through the batter. Add lastly the

beaten whites, making them in lighty.

This batter pudding may be steamed

or baked in a mold (large enough to

admit of its expanding) for one and

one-half hours or baked in a moderate

oven for three-quarters of an hour.

Serve with any preferred sauce.

Fighting the Water Bug.

Water bugs and roaches now put  
forth their best efforts to inhabit every  
vacant space. In old houses where  
there is decaying wood it is difficult to  
exterminate them. A good method is  
to sprinkle every crack and crevice  
with fresh cayenne pepper. The peel-  
ings of fresh cucumbers strewn  
around their foraging places at night  
are said to possess mysterious power  
to drive them away for good. Another  
discouragement when they appear in  
small numbers consists in sprinkling  
around salt and borax. All remedies  
should always be accompanied by scru-  
pulous cleanliness.

Costly thorns have for their central  
portion large insect or bird forms ex-  
actly unguipped in diamonds.

WILL INTEREST EVERYBODY

Or at Least Everyone Who Suffers  
From Catarrh.

Catarrh in its various forms is a nation-  
al disease, and the fact that nearly every-  
body suffers from it more or less leads  
many to neglect its proper treatment.

Nasal catarrh is a common cause of  
headaches, destroys sense of smell and  
if neglected reaches the throat, causing  
impairment and sometimes total loss of  
voice. Bronchial catarrh leads easily to  
consumption. Catarrh of stomach and  
liver are very serious and obstinate trou-  
bles, while it is now generally admitted  
that catarrh is the most common of all  
causes of deafness.

All of the more serious forms of catarrh  
begin with nasal catarrh, the local symp-  
toms, being a profuse discharge, stoppage  
of nostrils, irritation and frequent clear-  
ing of the throat, sneezing, coughing and  
ragging.

The old style of treatment with douches,  
inhalers, sprays, etc., simply give  
temporary relief and everyone who has  
used any of them knows how useless they  
are and their inconvenience is such that  
very few have the time or patience to  
continue their use.

A radical cure of catarrh can only be  
obtained from a treatment which removes  
the catarrhal matter from the blood be-  
cause no one will now dispute that Cat-  
arrh is a constitutional or blood disease,  
and local applications can have no effect  
except to temporarily relieve local symp-  
toms.

A new remedy which has been remark-  
ably successful in curing simply give  
a pleasant tasting tablet which is taken in-  
ternally and acts upon the blood and  
mucous membranes.

It is composed of antiseptic remedies  
like Red Gum, Blood Root and similar  
cleansing specifics which eliminate the  
catarrhal poisons from the system.

The tablets being pleasant to the taste  
are dissolved in the mouth and thus reach  
the throat, trachea and finally the stomach  
and entire alimentary canal. They are  
sold by druggists everywhere under the  
name of Stuart's Catarrh Tablets.

If desired, when there is much stoppage  
of the nose, the tablets may be dissolved in  
warm water and used as a douche in ad-  
dition to internal use, but a douche is not at  
all necessary. A few dissolved in the  
mouth daily will be sufficient. Dr. Ainslee  
says: "The regular daily use of Stuart's  
Catarrh Tablets taken internally will cure  
the whole catarrhal trouble without resur-  
ting to the inconvenience of a douche or an  
inhaler."

They seem to give a healthy tone to the  
whole mucous membrane and it is really  
remarkable how soon they will clear the  
head and throat of the unnatural and  
poisonous catarrhal secretion.

Stuart's Catarrh Tablets is undoubtedly  
the best, most palatable and certainly the  
most efficient and convenient remedy for  
any form of catarrh.

A Messenger Boy's Explanation.

"Does it take you four hours to  
take a message a mile?" said the  
head clerk. "No," replied the new  
office boy: "I got there in 15 min-  
utes—it's the coming back that takes  
the time."—Melbourne Weekly Times.

The Reason Why.

Patience.—Does she ever speak of  
her family tree? Patience.—No, I  
think it was one of the shady sort of  
trees.—Sydney Town and Country  
Journal.

PROVED IN MOUNT FOREST.

Every doctor in this town tried his  
best to relieve Mrs. J. Withom, of  
Asthma; none succeeded. "For  
years," she states, "I was a dreadful  
sufferer; nothing gave relief. At  
times I found it necessary to have  
all the doors and windows open to  
get my breath. When in despair I  
heard of Catarrhine. I used it and  
now am perfectly cured." This  
proves beyond doubt that any case  
of Asthma is curable with Catarrhine.

No remedy so pleasant, none  
so absolutely certain to thoroughly  
cure; try Catarrhine yourself; it's  
guaranteed.

Posterity's Revenge.

Foreign Visitor (in the year 2050):  
You don't seem to have any family  
trees in this country. Native American  
—No; our ancestors destroyed the last  
of our forests more than a hundred  
years ago.—Exchange.

Ties and Time.

She—What is the difference between  
a made up tie and one you tie yourself?  
He—Oh, about half an hour.—Cassett's  
Journal.

HER SKIN WAS YELLOW.

"I had only to try Dr. Hamilton's  
Pills to appreciate their merit,"  
writes Miss Annie S. Bryce, of Wood-  
stock. "My system was out of order.  
My blood was weak and thin. I had  
a nasty, murky complexion. My skin  
was hard and dry. The first box of  
Dr. Hamilton's Pills made a complete  
change. I felt better at once. Health-  
y color came into my face. In  
about three weeks I was cured." Dr.  
Hamilton's Pills effect an easy cure.  
Try these good pills, 25c. per box, or  
five boxes for \$1.00; at all dealers.

To Prevent Rust.

A good mixture for use as a slush to  
prevent the rusting of machinery is  
made by dissolving an ounce of cam-  
phor in a pound of melted lard; skim  
off the impurities and add enough black  
lead to give the mixture an iron color.

After cleaning the machinery carefully  
smear on the mixture. It can be left  
indefinitely, or if wiped off after two-  
four hours will prevent rust for  
some time. When removed, the metal  
should be polished with a soft cloth.

The chaste mind, like the polished  
plane, may admit foul thoughts with-  
out receiving their tincture.

WINDSOR SALT is

the best Salt for Table

and Dairy—No adul-

teration—Never cakes.

SAVED ON THE GALLOWES.

Story of Two Men Whom a Long Prayer  
Preserved From Being Hanged for  
Stealing An Ox.

A Canadian octogenarian named  
Richard Carr, lately deceased  
in Erie, Penn., had lived on  
that side of the lake for  
many years, but his body was  
taken to the Province of Ontario for  
interment. There was little of gen-  
eral interest in the career of the  
Canadian, but a single remarkable  
episode of his life is recalled by the  
fact of his death of old age at home  
among his friends. Dr. M. J. Clark  
of Erie, tells the story of Carr's suc-  
cess in the gallowes: "I had no  
idea that Carr was living on this  
side of the lake," he said, "or that  
he was living at all. Not having  
heard anything of him for thirty  
years, I supposed him long since  
dead. His arrest, conviction, sen-  
tence and escape are events closely  
connected with my family and my  
childhood, my uncle, Rev. John Ryer-  
son being the clergyman who attend-<
