

Cream Separators.

HOW IS THIS FOR

NEW CENTURY "ALPHA" DISCS ?

An Unsolicited Testimonial.

COWANSVILLE, APRIL 27TH, 1900.

THE CANADIAN DAIRY SUPPLY CO., MONTREAL, P. Q.:

Gentlemen,—The Alpha Cream Separator bought from you received, and is now running in my factory. I wish to say I am delighted and surprised. I am delighted with the way the machine is running and fine work it is doing. I am surprised that any man building a butter factory could be induced to buy a Russian or Tubular separator, with the Alpha separator on the market. Two hundred dollars per year and a Russian Tubular free of charge would not induce me to take out my Alpha machine. I regret to say I have a Sharples Tubular in my factory. I am pleased to say I have an Alpha separator also in my factory. With the Alpha we can separate cream in fine shape. With the Tubular we can partly separate and partly churn the cream. My butter-maker claims it does neither to his entire satisfaction. ELI RUTHER.
