

He Will Cure You First Then You Pay Him

The physician, who has not sufficient confidence in his own ability to cure his patient first and receive his pay afterwards, is not the man to inspire confidence in those who are in search of honest treatment.

Dr. Goldberg's acceptance of a case for treatment is equivalent to a cure, because he never accepts incurable cases. He is satisfied to receive the money for the value he has given the patient, but he expects to prove his worth and show positive and satisfactory results before he asks for the fee. So, should he fail to cure the case, the patient loses nothing, while the doctor, when he cures the patient, has given him what is worth much more than money—he has given him his health back.

Dr. Goldberg is the first specialist in the United States or Canada, who has had sufficient confidence in his ability to say to the afflicted that not a dollar need be paid until cured.

There is no guesswork, no experiment about his method. He is a known expert in his chosen specialty, and offers you the best, and only the best treatment. When your life or your health is at stake, inferior treatment (which leaves after-effects worse than the disease itself) is dear at any price.

Dr. Goldberg has 14 diplomas and certificates from the various colleges and state boards of medical examiners, which should be sufficient guarantee as to his standing and ability. It makes no difference who has failed to cure you, it will be to your advantage to get the doctor's opinion of your case free of charge. He wants to hear from patients who have been unable to get cured, as he guarantees a positive cure for all chronic, nervous, blood and skin diseases, which he accepts for treatment. He not only cures the condition itself, but likewise all the complications, such as rheumatism, bladder or kidney troubles, blood poisoning, physical and nervous debility, lack of vitality, stomach trouble, etc. All medicines for patients are prepared in his own laboratory to meet the requirements of each individual case. He will send a booklet on the subject, which contains the 14 diplomas and certificates, entirely free. All medicines for Canadian patients sent from Windsor, Ont., duty and transportation prepaid. Address him simply, Dr. S. Goldberg, 208 Woodward Ave., Suite 535 Detroit, Michigan.

We want you to remember that HOLSTEIN COWS

owned by me (formerly at Brookbank Stock Farm, Currie's) won all sorts of honors in milk tests at Toronto, Ottawa and Guelph (5 years), and among many other prizes in the show-ring, including sweepstakes at Toronto and Pan-American in competition with the best in the world. Our herd is always improving. We have now 5 cows whose official test average 22.4 lbs. butter in 7 days, 10 cows whose official test average 20.4 lbs. butter in 7 days, 15 (3 yrs. and up) whose official test average 19.4 lbs. butter in 7 days, 10 (3 and 4 yrs.) whose official test average 17 lbs. butter in 7 days, 10 heifers (average age 20 mos.) whose official test average 11 lbs. butter in 7 days. That is our idea of a dairy herd, and the kind of stock I handle. A few good young bulls, 1 to 18 mos., for sale.

GEO. RICH,
Amandale Stock Farm, Tilsonburg, Ont.

WOODBINE HOLSTEINS

Herd headed by Sir Mechthilde Posch, absolutely the best official backed sire in Canada. Dam Ianthe Jewel Mechthilde. 25.8 pounds butter in seven days. Champion cow of Canada overall breeds. Sire's dam, Aaltje Posch 4th, holds the world's largest two-day public test record—8.6 pounds butter. Young bulls of the choicest quality for sale.

GOSSIP.

Dopeing doesn't count much with sheep, as a sick sheep is worth but little more than a dead one. The old saying that prevention is better than cure has more significance with sheep than with any other animal.

Gad-fly season is here. To save the sheep much annoyance paint their noses with tar and the fly will not trouble them. Or better yet, permit the sheep to paint their own noses by using a very narrow salt trough, and keeping the inside well smeared with tar.

All lovers of gilt-edged butter have a warm place in their hearts for the Jersey cow, which is acknowledged to be a producer of the choicest cream and butter. At Dun-Edin Stock Farm, Chatham, Ont., a choice herd is kept by W. W. Everett, which numbers about twenty-five head, by such grandly-bred sires as Rose's Comet, Handsome Rioter, Belvoir King and Monarch of Kent, which is the present stock bull, whose sire was Brampton Monarch, a sweepstakes winner. Several of Mr. Everett's cows have records of 17 lbs. and upwards of butter in seven days. A pair of young bulls, deep-ribbed, strong-constituted fellows, are by Monarch of Kent, one of them from May of Glenallan and the other from her daughter, May of Dun-Edin, are bulls that will soon be ready for service, and, we are informed, their dams are heavy producers. Mr. Everett also has several heifers of choice breeding and good individually that he says must be sold before winter on account of being crowded for room. Call upon him early and get a bargain.

Registered Berkshires are also bred at Dun-Edin, of the most approved type, also collies, a few pups of which are now ready for shipping.

Mr. Everett is steadily drifting into Clydesdales, having a good start in Clan Mack, a fine specimen of the breed, imported by Messrs. Smith & Richardson, the well-known importers of Columbus, Ont. He is now on the look-out for a choice registered mare or two to enable him to breed Clydes at home. Mr. Everett lives only a short distance from the town of Chatham, and will meet anyone at the station that is desirous of looking over his stock. Give him a call.

W. J. Mitton, of Mapleton Farm, Thamesville, Ont., Bothwell County, was paid a flying visit by our field man a short time ago, who found him busy tearing down and building greater, being remodeling the family residence. The Shorthorns were leisurely feeding in pastures good enough to mow. The stock bull, Minto, is still at the head of the herd. Since our last visit, Mr. Mitton has added a few choice and choicely-bred females to the herd, among them being a pair of heifers by Palermo 36074 (77387) (imp.). These are thick, even-fleshed, smooth heifers that would be a credit to any herd. A young bull calf, by the same sire, is also a very promising calf. Two other bull calves are by Minto, aged from four to six months, the latter from Lady Howard 29063, and the other from Olive, whose sire was Masterpiece (imp.), and grandsire Baron (imp.). Either of those calves will make creditable herd headers.

Yorkshires of the most fashionable and up-to-date breeding are also receiving considerable attention from Mr. Mitton. The foundation was laid with the old-reliable Julia strain from Oak Lodge, which was later increased by drafts from Mr. Platt's importation, Dalmeny Duke (imp.) and Worsley Queen (imp.) being added to the herd. Young stock from the above are now on hand nearly ready to breed, also some younger ones ready for fall service, that Mr. Mitton will part with very reasonable, considering quality. Brown Leghorn fowls are also quite extensively reared. They are the Buyott (New York) strain. Some of them are as fine as it has been our pleasure to examine. They are housed in a roomy, light and warm henry, recently built expressly for them. When you are in want of any of the lines of stock above referred to, write Mr. Mitton, describing what you want. If he has what you want, he will fill the bill, he will ship it for you, and you know by return mail. Also, try and remember to mention the "Farmer's Advocate."
