**THE ONLY MANURE SPREADER**

operated with a single lever, and the only one having a **Vibrating Rake**. The single lever avoids complications in construction, is easy to work, strong, acts quickly and surely and is entirely efficient. No danger or liability to breakage by pulling the wrong lever. The **Vibrating Rake** is so constructed and so placed that it thoroughly evens up the load on its way to the cylinder. This insures perfectly even distribution and spreading and obviates the necessity of extra care in loading. Coarse and lumpy manure cannot always be loaded so as to produce a level load. The **Vibrating Rake** will make every load, of every kind of manure, perfectly even. In all other respects the **I. H. C. Spreader** is built as well as best material and superior workmanship can make it. Solid steel axles front and rear; steel wheels with broad faced tires, flanged to keep out dirt, mud, etc; traction lugs on rear wheels; power applied from both rear wheels; front wheels cut under—turns very short; steel track for apron. While exceedingly strong and capable of great strain the **I. H. C. Spreader** is of unusually light draft.

The **I. H. C. Spreader** spreads all kinds of manure rapidly, evenly and perfectly. It matters little if manure be strawy, chaffy, packed, caked, wet, dry or frozen, this machine will tear it apart and distribute it upon the land evenly. It will handle fine, composted manure for top dressing in the most perfect manner, and even the presence of corn stalks in the manure does not prevent the excellent quality of its work. It is the greatest labor saver of the age. Made in three sizes, 35, 55 and 75 bushels. Our nearest agent will supply you with printed matter, prices, etc. See him before buying, or write nearest branch house.

OF NATURE, WHICH ARE  
FOUND IN**Dr. Chase's  
Nerve Food.**

The Christian Scientists are right enough when they claim that the mind influences the body.

Worry, excessive mental toil and strong emotions consume nervous energy at an enormous rate.

Rest of mind and body is essential for the restoration of an exhausted nervous system.

But the mind is dependent on the brain, and the brain in turn is a bundle of nerve cells, which are nourished and sustained by pure, rich blood. Hence the absolute necessity of supplying the elements from which blood is made.

These elements of nature which go to form new rich blood and revitalize wasted and depleted nerve cells are found in splendid proportions in Dr. Chase's Nerve Food.

By using this great food cure you supply the material substances from which are found brain and nerve force.

By all means have a cheerful, hopeful mind, but do not depend on this to make you strong and well or you will be terribly disappointed when it is forever too late.

It may take weeks or even months to thoroughly restore your health with Dr. Chase's Nerve Food, but you can be absolutely certain that every dose of this great food cure is at least of some benefit to you.

The healthful complexions, the well-rounded forms, the energy and elasticity of movement characteristic of persons who have used Dr. Chase's Nerve Food are the strongest evidence of its wonderful restorative influence. 50 cents a box, at all dealers, or Edmanson, Bates &amp; Co., Toronto.

**New Route to Southern California.**

The opening to traffic of the San Pedro, Los Angeles and Salt Lake Railroad, known as the Salt Lake Route, between Salt Lake City and Los Angeles, makes available a most desirable short line to Southern California. This will doubtless be of great interest to the ever-increasing number of people who journey each winter to this sunny clime.

In anticipation of a large volume of this class of traffic, a handsome equipment of modern vestibuled trains has been placed in service in connection with the Overland Limited train of Chicago, Union Pacific and North Western Line, the most luxurious train in the world. This forms a new and interesting route by which first-class tourist travel can reach the sunshine and flowers of Southern California, travelling on fast schedules and in luxurious comfort. Rates, folders and full information can be obtained from B. H. Bennett, General Agent, 2 East King St., Toronto.
