GOSSIP.

Just be glad that you have a chance to work and breathe God's pure air.

And don't forget when you are full of revengeful notions that you and I and all the rest will be a "long time dead."

Even if a person unjustly blames or accuses you, it is poor business to lose your own temper and mental balance.

Usually, the things said about us that hurt worst are those that have most truth in them.

When inclined to flare up with righteous indignation, have a care that it does not lead you into unrighteous condemnation.

Wayward Hobbs—Did yer ever get ketchted between de bumpers uv a freight train?

Uppon Top—Worse'n dat. I got between a man an' his wife once dat wuz fightin'.

Englishman (in Scotland).—"People are so different here in Scotland. See how sad everybody looks!"

Scotsman.—"Natoorally. They're a' thinkin' o' a' the unfortunate folk wha canna live in Scotland."

During the period from January 5th to January 18th, 1904, Superintendent Hoxie has received records of forty-three Holstein cows, all of which have made seven-day records, one a sixty-day record, three thirty-day records and four fourteen-day records. Twelve full-age cows averaged, age 6 years 8 months 27 days, days from calving 19: Milk, 431.8 lbs.; butter-fat, 14,830 lbs.; equivalent butter, 17 lbs. 2.3 ozs.; percentage of fat, 3.54. Six four-year-olds averaged, age 4 years 5 months 27 days, days from calving 33: Milk, 432.3 lbs.; butter-fat, 14,696 lbs.; equivalent butter, 17 lbs. 2.3 ozs.; percentage of fat, 3.40. Seven three-year-olds averaged, age 3 years 3 months 6 days, days from calving 19: Milk, 375.1 lbs.; butter-fat, 12,079 lbs.; equivalent butter, 14 lbs. 1.5 ozs.; percentage of fat, 3.27. Eighteen two-year-olds averaged, age 2 years 2 months 11 days, days from calving 29: Milk, 301.4 lbs.; butter-fat, 10,870 lbs.; equivalent butter, 12 lbs. 10.9 ozs.; percentage of fat, 3.61. It must be borne in mind that these records are made under the careful supervision of agricultural experiment stations, and that 85.7 per cent of a pound of fat found in the milk is equivalent to a pound of butter.

TRADE NOTE.

CANADIAN STOCK FOOD FOR CANADIAN STOCKMEN.—The International Stock Food Co., whose head office is at Minneapolis, Minn., have opened up a Canadian factory at 4 Bay Street, Toronto. This means that the firm's comprehensive line of stock preparations will be manufactured in their entirety by Canadian labor. There is cause for gratification in such an announcement, for in these days of giant strides in national development each new industry adds to the sum-total of general progress. With a plant turning out Canadian-made goods for Canadian consumers, the International Co. are assured a large and ever-increasing trade throughout the Dominion. At the present time they are issuing their stock book that contains 183 large engravings of horses, cattle, sheep, poultry, etc., which cost upwards of \$3,000 to produce. Besides many pages of descriptive matter, there is also a veterinary department devoted to the symptoms and treatment of all common diseases known to the different farm animals. Any of our readers can get this book by writing the firm and answering these two questions: Name this paper, and how much stock have you? Remember the address, International Stock Food Co., 4 Bay Street, Toronto.
