The Truth ABOUT Leather

How Many Hides Has A Cow?

IN a recent defensive circular to the auto trade, leather manufacturers define leather as "the skin or hide of an animal, or any part of such skin or hide, tanned or otherwise prepared for use."

But since whole hides are too thick for upholstery, and the under fleshy portion must be split away from the grain side to make it thin enough, why should the two or three sheets into which the wastage is split, be called leather? Although artificially coated and embossed to look like real grain leather, these splits are weak, spongy, and soft—they crack, peel and rot.

MOTOR QUALITY FABRIKOID For Buggies and Automobiles

CRAFTSMAN QUALITY FABRIKOID For Furniture

Guaranteed far Superior to Coated Splits.

Fabrikoid is guaranteed superior to coated splits. Its base is cotton fabric, twice as strong as the fleshy split. It is coated much heavier and embossed in the same way.

America's largest auto makers adopted it for upholstery because it outwears coated splits.

A leading furniture manufacturer says: "The cheap split leathers should be entirely eliminated in furniture upholstery."

Two-thirds of all "leather upholstery" is weak, flimsy coated splits. Demand the superior Fabrikoid on your car, buggy or furniture, and Fabrikoid Rayntite tops, guaranteed one year against leaking.

Sample of either quality free. Mention your dealer's name. Or, if you send us 50c, we'll mail a large working sample 18 by 25 inches, sufficient to cover a chair, etc. Write us to-day

DU PONT FABRIKOID COMPANY

"Fabrikoid" is made in Canada. Dept 504 Toronto 2
