

WHAT NEGLECT DID FOR HIM

JAS. E. BRANT SUFFERED TORTURES FROM KIDNEY DISEASES.

Then He Used Dodd's Kidney Pills and Became a Well Man — His Experience a Lesson for You. Athabasca Landing, Alta., Oct.

26 (Special).—That Kidney Disease, neglected in its earlier stages, leads to the most terrible suffering, if not death itself, and that the one sure cure for it in all stages is Dodd's Kidney Pills, is the experience of Mr. James E. Brant, a farmer residing near here.

Mr. Brant contracted Kidney Disease, when a young man, from a strain, and like hosts of others, neglected it, expecting it to go away itself.

But it kept gradually growing worse, till after thirty years of increasing suffering the climax came, and he found himself so crippled that at times he could not turn in bed, and for two weeks at a time it was impossible for him to rise from a chair without putting his hands on his knees.

He could not button his clothes. He was troubled with Lumbago, Gravel and Backache, and tried medicines for each and all of them without getting relief, till good luck turned him to Dodd's Kidney Pills.

Dodd's Kidney Pills started at the cause of his troubles and cured his Kidneys. With cured Kidneys his other troubles speedily disappeared, and to-day he is a well man.

If you cure your Kidneys with Dodd's Kidney Pills you will never have Lumbago, Rheumatism, Heart Disease, Dropsy or Bright's Disease.

MURDERED 20 WIVES.

Cruel Annam Emperor Condemned to Perpetual Exile.

Than Thai, King, or, as he is sometimes called, Emperor of Annam, the most fantastically cruel monarch of modern times, has been condemned to perpetual exile in Algeria by the French Government.

Than Thai murdered twenty of his pretty little wives with tortures of inconceivable cruelty and horror.

Annam is a large country of south-eastern Asia, which is under a French protectorate. France permits the native Emperor to rule his own country absolutely in internal affairs except where French interests are specially concerned. Thus it happened that the Emperor was at liberty to carry on murder and torture in his harem for many weeks before anybody ventured to interfere.

Finally the French authorities broke into the Emperor's palace, which he had turned into a morass of blood, and seized the crazy monarch. That was nearly two years ago. Since then the Emperor has been kept under restraint and close observation.

WOMEN TELEGRAPHERS.

India's Government has recently authorized the employment of women telegraph operators. The candidates must be between 18 and 30 years of age, and they must be unmarried or widows. They must undergo a training of twelve months in the telegraph training classes, during which time they will receive \$0.65 a month, the same allowance that is drawn by male learners.

HUNTING WILD HORSES.

Favorite Sport in New South Wales — Breaking the Animals.

Whether "brumby" is a survival of the aboriginal name for a wild horse or a corruption of "unbranded" appears to be a question which philologists have left undecided, but brumby hunting is still a favorite sport in New South Wales, says the London Standard.

Districts like the Clarence and Stephens and Manning River watershed are still the home of numerous droves of brumbies, and hunting them is declared to be a very exhilarating pastime. The first step taken is to stake out a corral and make all secure except a narrow entrance, which can subsequently be gated. On either side of the entrance and projecting from it funnelwise a "bosby fence" is prepared.

To the simple minded brumby it presumably looks like a stockade, and pieces of fluttering cotton make it look impregnable. When this is ready the young bloods, well mounted, gallop out and round up the wild horses, driving them with shouts and much loud snapping of stock whips toward the mouth of the funnel.

In a group of brumbies there is always a leader, and when once the hunters have got the leader for the corral they are pretty certain of the rest of the drove. The fluttering cotton rags of the sham fence are sufficient to deter the brumbies from breaking through the flimsy barriers, and in less time than it takes to tell the wild horses are safely corralled and the big gate shut on them.

Then they are left for four and twenty hours without food and water to reflect on the situation, and after that they can be broken without much difficulty.

THE DETERMINING TEETH.

INDISPENSIBLE TO MOTHERS.

"I am satisfied that Baby's Own Tablets are indispensable to mothers," says Mrs. Abraham Boucher, Pierreville Mills, Que., and she adds:—"Before using the Tablets my baby was cross, peevish and not thriving well; but the Tablets have worked a great change and my little one is well and happy." This is the verdict of all mothers who have used these Tablets. And better still, mothers have the guarantee of a government analyst that Baby's Own Tablets are absolutely safe—that they contain not one particle of opiate or poisonous soothing stuff. Sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

A MAGISTRATE INVESTIGATES ZAM-BUK.

Says It is a Wonderful Healer and Does More Than is Claimed For It.

No household remedy in existence has won such glowing tributes from people in high places as has Zam-Buk. Mr. Roger F. Perry, Justice of the Peace for British Columbia, tested this famous balm, and this is what he says of it:

"The Pavilion, Goldfields, B. C.

"To the Zam-Buk Co.,
"Gentlemen,—After a very fair trial I have proved Zam-Buk eminently satisfactory. In my case it cured a skin rash of five years standing which no doctor had been able to do any good for.

"I would certainly encourage any person to keep Zam-Buk in their home. It truly does even more than you claim for it. For my own part I would not now be without it in the house. Yours very truly,

(Signed) "Roger F. Perry,
Justice of the Peace for B. C."

Zam-Buk differs from ordinary salves and embrocations, for while these mostly contain animal oils and fats, Zam-Buk is purely herbal. It soothes and heals cuts, sores, ulcers, eruptions, boils, eczema, chafing sores, etc. All druggists and stores sell at 50 cents a box, or from the Zam-Buk Co., Toronto, for price, 6 boxes for \$2.50.

It is an Officer of the Law of Health.—When called in to attend a disturbance it searches out the hiding-place of pain, and like a guardian of the peace, lays hands upon it and says, "I arrest you." ISSUE NO. 44-03.

DEMANDS OF TURKISH WOMEN

Want Home Life as It Obtains in Other Countries.

One of the most difficult questions which will have to be solved by new Turkey is that of the future of Turkish women. It has already given rise to considerable discussion, and will sooner or later become a national question.

For many years among the better classes there has been a steady movement toward emancipation, and the old Turkish life has practically disappeared in all the houses of the educated people. The change came with education, as the daughters of the house were trained by foreign governesses. They began to read foreign literature and papers, and brought up their children better than themselves, with the result that no family of any consequence keeps up the old Turkish customs in their entirety. Thus very few modern Turks have more than one wife, the life in their houses is quite European, including their dress, mode of living, food, etc. Only out-of-doors do they wear the veil as before.

But the women want more; they want to institute home life, and many have done so already. They also desire to receive visitors without restriction, and adopt more becoming dress in public. The educated Turks have no objection to this, provided the change is not too quick, as they also have mixed in foreign society and feel the want of ladies in Turkish society. If it remained with this class alone the change would come rapidly, but there are the common classes and the country people, who cannot understand it, and can never imagine any change by which their women folk should be anything else than what they have been for centuries.

And it is noteworthy that in the provinces that whenever reactionaries have tried to start a movement against the constitution they have always declared that one of the first objects of the constitution would be the complete emancipation of the women and their going about unveiled, and this has never failed to excite the people, as was the case at Medina, where the situation was saved by the arrival of a number of troops and the arrest of the agitators. This is the reason Prince Sabah ed Din in his speech last week, specially spoke to women, counseling prudence and moderation.

Do Not Delay.—When, through debilitated digestive organs, poison finds its way into the blood, the prime consideration is to get the poison out as rapidly and as thoroughly as possible. Delay may mean disaster. Parmelee's Vegetable Pills will be found a most valuable and effective medicine to assail the intruder with. They never fail. They go at once to the seat of the trouble and work a permanent cure.

Prevent Disorder.—At the first symptoms of internal disorder, Parmelee's Vegetable Pills should be resorted to immediately. Two or three of these salutary pellets, taken before going to bed, followed by doses of one or two pills for two or three nights in succession, will serve as a preventive of attacks of dyspepsia and all the discomforts which follow in the train of that fell disorder. The means are simple when the way is known.

"I dunno," replied the victim. "Because they both go off."
