Medicines increase the disease, for they weaken the vital energies of the already prostrated system; while, under the strengthening, life giving, vitalizing infinence of Galvanism, as applied by this beautiful and wonderful discovery, the exhausted patient and weak ened sufferer is restored to former health, strength, clasticity and vigor. The great peculiarity and excellence of Dr. Christie's Galvanio Curatives,

consists in the fact that they arrest and cure disease by outward symication, in place of the usual mode of trugging, and physicking the patient, till exhausted vature sinks hopelessly under the infliction. They strengthen the soluble system, equalize the circu-lation of the blood, promote the secretions, and never do the slightest injury under any circumstances. Since their introduction in the United States, only three

REDUCED RATES OF PREMIUM-HALF CREDIT RATES OF PREMIUM.

CREDIT RATES OF PREMIUM.

THE great and decided success which has attended this Institution, has induced the Directors to REDUCE the RATES originally required in British North America, to the ordinary Raropean Rates. The result of such Reduction is to enable parties to avail themselves of the unportant benefits to Life Assurance at much lower Rates of Presisum than those of any other Januarance Company t ansacting business in Canada.

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved, and are so by the HALF CREDIT RATES of PREMIUM which have been so highly approved, and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their Interest in their respective Policies.

YOUNG MRS. ROBERTS' THREE CHRISTMAS DINNERS.

Really, Mr. Richard, you would not wish me to turn Quaker?"

"Clearly not, unless your reason and conscience bid you; I don't intend to turn Quaker myself, but I would like to see you turn a Rational, for which I am sure nature intended you, Maria; and from the Friends you may obtain excellent hints. With what you call your limited income, how much comfort and leisure a Quaker family could command; but how much more enjoyment could you command with your accomplishments and tasts." There was, with me, one decided superiority which Maria held over my friend Rachel. Her different mode of education, and scope of ragding and lively fancy, made her understand all nay allusions, whether playful or sarcastic. This had at once established a certain intelligence and sympathy between us, even when we quarrelled. But if Rachel did not always perceive the point of my illustrations, Maria was far more backward in apprehending the force of my reasoning, when directed against her own notions and practices. It was in vain that I strove to convince her that the household god she had set up under the name of Duty, was an ugly mis-shapen idol, blubberslipped, and with squinting eyes, consuming the time and wealth of its votaries in the besotted
