There was a great crowd present especially of young people and the square around the park was literally packed with autos and rigs. The band responded to several encores.

SHAMROCK DID NOT SAIL TODAY AS WAS PLANNED

It Was Desired That King George Should Have Look at Challenger.

[By Special Wire to The Courier] PORTSMOUTH, Eng., July 18.—Shamrock IV, Sir Thomas Lipton's new challenger for the America's cup, did not start for the United States this morning as had been arranged. The change in the program was brought about by the postponement of the arrival of King George for the review of the British fleet. It had been intended to sail the Shamrock IV. past the royal yacht for the inspection of his majesty before her departure.

The challenger left her moorings at Gosport and sailed past the fleet at Spithead, where she swung her compasses and then returned to Gosport. The Shamrock IV. has been rigged as a ketch for her voyage across the Atlantic and will carry only half of her racing crew of thirty men. Chas. E. Nicholson, the designer, William B. Burton, who is to be the racing skipper during the voyage, will be on board the yacht. The remainder of the crew will be on Sir Thomas steam yacht, Erin, which will act as convoy and will in case of necessity tow the Shamrock IV.

The problem of getting the Shamrock across the Atlantic under her own sail is almost as great as that of racing her, and the ship's builders and crew have been busy with preparation. Since the last trial spin the single mast which looks so large by contrast with the small hull, has been shortened by the removal of the topmast and a second small mast erected far aft to carry a small mizzen sail. In case of bad weather the Shamrock can sail with only her foresail and her small mizzen sail.
