(From our Simcoe, Nov. 22.)—A month returned after cleaning-up some time down sized on the last Danville, was Price, of the fined \$200 and the Victoria House wine fermented into a faulty and expects to both decanters to from the same sion having test concluded likewise was dropped. A Keating's case wence deferred till Dec. 10, it will no doubt be the nominal \$200 here, too, judging from the evidence.

While at Danville, the Inspector saw the first public drunk for months, arrested, sobered up, tried by the magistrate and hiked out of town for the county goal on a three months' sentence because he would not tell where, how or by what means he got the dope—and the whole episode within two hours and a half, or about the time one usually waits for court to open here after the hour announced. Well possibly a little longer. Figuring it up, Inspector Edmunds is gathering in more than his salary and expects to make a big haul soon through an action against Carlings for selling over-strength goods within his over-strength.

HAVE ROSY CHEEKS AND FEEL FRESH AS A DAISY—TRY THIS!

Says glass of hot water with phosphate before breakfast washes out poisons.

To see the tinge of healthy bloom in your face, to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact to feel your best, day in and day out, just try inside bathing every morning for one week.

Before breakfast each day, drink a glass of real hot water with a teaspoonful of limestone phosphate in solution. This phosphate is the most powerful cleanser, sweeter and purifier of the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a splendid appetite for breakfast.

MISS TURNER TO SPEAK ON ZENANAS

Noted Speaker is Cordially Endorsed By H.R.H. the Duchess of Connaught.

Miss Turner, the honorary deputation secretary of the Zenana Medical and Bible Mission of India, is to lecture in Victoria Hall, this city, on the 24th inst. The following is a letter from the Duchess of Connaught highly commending her work:

Government House, Ottawa, May, 1915.

Dear Miss Turner: I have spoken to Her Royal Highness about the talk we had, when you came to Government House the other day. Her Royal Highness desires me to express to you, as honorary deputation secretary of the Zenana Bible and Medical Mission, her great hope that you will meet with a generous response to your appeal for funds in this country.

As president of the mission, and also having lived for so many years of her life in India, Her Royal Highness fully realizes the admirable work which the mission fulfills. During this terrible war its work must needs be increasingly heavy, as there will be so many young widows and orphans of the Indian soldiers who will be left unprotected and unprotected for. I hope you will forgive me for not having written sooner, but have also been busy in many ways.

Yours sincerely, DOROTHY YORK, Lady in waiting.

Her Royal Highness the Duchess of Connaught follows this letter with a handsome donation, which was received, viz., 1916, just before she left the country.

Pumping Out Goldfish. The large stone quarries at Amherstburg, which are being pumped free of water by Captain F. J. Trotter's wrecking pumps, are about emptied, and work will start in a few days by the Sobay Process Co. of Detroit in getting out some fine block stone for building purposes. The quarry holes are filled with gold fish, which sell at fancy prices in cities. These fish come right through the big steam pumps and go along the ditches to the big screw, where the muddy water kills them. Send Soldiers Camphor. A man who has had a great deal of experience in the lumber shanties of Canada and has suffered something of the tortures undergone by overseas troops from small visitors which infect their underclothes, advises the use of camphor. The particular sort of insect pest indicated responds readily to an invitation to see out if it is accompanied by a good whiff of camphor. So send a package of gum camphor in your next parcel to the front. Canned Goods Scarce. Canned goods in the Dominion are becoming scarce. In previous years when the pack was short there was usually a large carry-over, but this year the carry-over was very light. Meanwhile the pack, so far as can be gathered, is lighter than was at first expected. Not Enough Apples. Reports from prairie markets, says British Columbia Fruit and Farm, indicate that the demand for apples this year will exceed the supply.
