Cobden Club party by recommending a calves.

2. The skim milk and flax seed meal interpretability and flax seed meal controlled in their

of the party had reached the rail the modification of the free trade principle ninister turned and said impressively; in the case of foreign highwines and fed calves were less interrupted in their

of the party had reached the rail the minister turned and said impressively;

"I cannot bid more than 6½ for State veals, but cablegrams from Londen quote refrigerated beef at a price that will enable me to pay \$4.90 for a car of choice Indiana beeves, and hearing this there was a rush for the young married couple the bride fell into the arms of her father, who is known to bear a striking resemblence to — a Connecticut ox weighing 1,875 pounds. The market here took an upward turn, and the guests, who numbered about 200, were served with a sumptuous dinner at the house of the bride."

"I cannot bid more than 6½ for State in the case of foreign highwines and similar articles of import, which in no sense can be considered objects of national necessity, like Swadish timber or American cotton. Protective tariffs have no doubt, often been carried to a runtious extreme, but it is a question if their application to health and wealther there took an upward turn, and the guests, who numbered about 200, were served with a sumptuous dinner at the house of the bride."

2. The skim milk and flax seed meal fed calves were less interrupted in their growth by weaning, than were the whole milk calves.

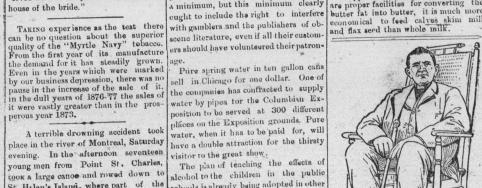

3. A saving value of butter fat alone of \$1.11 per month on each calf, was affected by substituting the ground flax feed.

4. The cost of producing a pound of gain, estimating new milk at \$7½ cents per hundred pounds, grains one cent per pound, hay \$5 per ton (the latter two being fed alike te both lots), and flax seed meal 3½ cents per pound increase with the fresh milk ration.

It appears from this their days of \$1.11 per month on each calf, was affected by substituting the ground flax feed.

4. The cost of producing a pound of gain, estimating new milk at \$7½ cents per hundred pounds, grains one cent per pound, hay \$5 per ton (the latter two being fed alike te both lots), and flax seed meal 3½ cents per pound increase with the free trade principle.

a minimum, but this minimum clearly ought to include the right to interfere butter fat into butter, it is much unconsidered to feed calves skim in
