THE LIGHTER SIDE OF LIFE

Answered in instalments.
Heckling the speaker at political meetings is no new thing. One of the smartest replies ever made to a heckler is credited to Lord Palmerston. One had demanded of him, "Will you, if you are elected, support such and such a measure?"
The candidate thought for a moment and then said: "I will."
"Hurray!" shouted the heckler and his gang.
"Not," continued the candidate, at which there were thunderous cheers from the other side.
"Well, you," he finished, thus fooling the entire crowd.
The Truth.
Sybil—"Did you tell him the truth when he asked you how old you were?"
Sophia—"Oh, yes!"
"What did you say?"
Following discreetly.
Judge—"What do you do?"
Prisoner—"I follow construction work."
Court sergeant (examining hands of prisoner)—"That's correct, your honor, but he hasn't caught up with it yet."

Evening Vocational Classes

The above classes at Devon in the near future. Those wishing to attend will please register with Mr. Fred Maxwell, South Devon or Mr. F. E. McEwen, North Devon, who will be pleased to give full information as to courses, etc.
No. 1. If I had \$80,000 to spend in a locality like this with such gravel pits, etc. I could build fifty miles of road, such as follows: Shirked 4 rods wide, turfed 22 feet from ditch, and finished by putting 12 inches of gravel on the wearing surface.
No. 2. This is the kind of road we farmers need. A good turfed road will be greased and ditched to provide proper drainage. I am very much in favor of concrete culverts, as I think they are an agreeable permanent as a culvert can be made. The old culverts are too expensive, so to speak.
No. 3. Why is Quebec the most envied town in the Dominion? Simply because they have good roads and a corps of capable men to see to it that the roads are made right and proper.
I hope the time will soon come when road supervisors will be required to write examinations to qualify for their work, the same as the forest rangers and school teachers, etc., are required to do.
I hope that some of the "knowers that be" will see this epistle of mine and that it will help to jog their memories as to our most needed accommodation.
We are all a very human lot of people here, but I am a little doubtful as to whether that awfully nice ocean Foster Government is for or not.

FROM THE PEOPLE

BAD ROADS AGAIN

To the Editor of The Gleaner.
Dear Sir,—As I am a subscriber to The Daily Gleaner I am quite naturally interested in all items appearing in it, especially the People's Column. Now, friend readers, before you would surely guess where the writer hails from. I am a Scotch Laker, yes, and not ashamed of it.
As I was reading The Gleaner to night I noticed an article written by a man from McAdam Junction complaining of the bad condition of a certain road in his section. So it has just prompted me to say a few words about the conditions in my district.
The road I am referring to is the road from Bear Island, through Scotch Lake to Springfield, Quebec. The road leading from Scotch Lake to Scotch Settlement, better known as the Allen road. Some sections of the latter are almost impassable, while the former is nearly as bad.
At Bear Island they have good roads. Why? Simply because Mr. Veniot wishes to please the man with the car, not the farmers, oh, no! I get you, Mr. Veniot, the farmers are the bread and life of this province, and they should at least be given a decent road to travel on.
At Springfield they have not good roads, and the people of Springfield should feel thankful to have an energetic, enterprising road supervisor like Mr. Rankin Moore.
Now this section of road between Bear Island and Springfield is only a distance of about eight miles and there are five or six gravel pits on it. It is a good road, but it has an unlimited supply of good gravel.
The Department of Public Works is spending \$50,000 on a twelve mile strip of road near Pokokuk and Medicine Hat, eighty thousand dollars! Just think of that, friend readers, and spending it on twelve miles of road that has a good road before they start a new road.

Perhaps M. B. has never worked hard enough to need the relaxation of a cigarette. These friends of mine are ladies in every sense of the word and have never seen the interior of those vulgar dance-halls that "M. B." refers to. We also have brothers, whose wives enjoy an after dinner cigarette and whose husbands have no thought of hitting them with a brick!
M. B. should go, out into the world of 1920 and come to life. She has my best wishes.

WHICH?

To the Editor of The Gleaner.
Sir,—I should be interested in obtaining your opinion—and the opinions of some of your readers—as to which subscription is being more commonly used in business, "Dear Sir" or "Gentlemen" and why?
Also as to the advisability of eliminating the word "Messrs." before the firm name—that is, addressing the firm as Jones and Smith and not Messrs. Jones & Smith.

WILL OFFER SEAT

To the Editor of The Gleaner.
Sir,—Having read Young Student's article and a few of his sympathizers' answers, I am at a loss to understand under what circumstances he offered his seat, and do not believe that a girl of refinement would raise a scene unless for a good reason. Of course, you have to take into consideration a young lady seeking publicity for some purpose would be tempted, as the papers would have a story to tell how she chased him around the town beating the "villain" who had the impudence to offer her a seat.
Another side to the case is my own experience. I have been employed for various concerns for more than five years and have in ninety-nine per cent. of my riding, where a woman was standing and I had the good fortune to obtain a seat, vivid it up to her. I will admit that some women have the idea that it is the man's duty to get up and that they forget to thank you, but that isn't much discouragement.
—Again, they might refuse but offer the excuse they are getting off at the next station. You surely should not feel embarrassed, for have you not the satisfaction of knowing you offered your seat and have done as you would expect any man to do for your sister, friend or mother?
Outside of a few refusals, my conversation with the lady was "Have her and no more, which gave them no cause whatever to cause a row, and I am happy to state that I will continue to offer my seat in the future.
To settle this dispute, I suggest the fair one who brought about this incident should come out and defend herself.

L. T. Z.

FRENCH STUDENT

To the Editor of The Gleaner.
Sir,—I was reading in The Gleaner of October 25th your inquiry to meet someone who would be willing to teach you French. I am French, read and write my language correctly. Two evenings a week teaching French to young girls would be a pleasure I'm sure. I have nothing in return as I am a young student myself. I think it would be profitable as well as pleasant. My address will be waiting for you at The Gleaner office when you read this.
