OPPORTUNITY

\$100.00 Invested in White Pass Yukon R. R. Stock 5 years ago, now worth \$10,000.00.
\$100.00 Invested in Air Brake Stock is now worth \$24,000.00.
\$100.00 Invested in Bell Telephone Stock when first offered, now worth \$20,000.00.
\$100.00 Invested in Calumet & Hecla Stock is now worth \$100,000.00.
\$100.00 Invested in Crown Point Stock is now worth \$187,500.00.
\$100.00 Invested in Best & Belcher Mines is now worth \$155,000.00.
\$125.00 Invested in California is now worth \$76,500.00.
\$100.00 Invested in Consolidated Virginia is now worth \$65,000.00.
\$200.00 Invested in Le Roi in 1890 is now worth \$500,000.00.
\$200.00 Invested in Crow's Nest Pass Coal Co., of B. C. in 1896 is now worth \$570,000.00 or \$285.00 per share.
Stock of the Home Mining Co. advanced from 25 cents a share to \$25.00 a share in seven months.
Granite Mountain Stock advanced from 10 cents a share to \$75.00 in two years, and paid \$14,000,000.00 in dividends.
These are only a few examples; there are thousands of others.
While success cannot rightfully be judged by money standards, the fact remains that in the eyes of the world the extent of a man's success is the extent of his capital.
The world has no use for a poor man or a laborer.
The person who has reached middle age, wholly dependent upon

on his individual efforts for his livelihood, is accounted a failure. He no longer commands the respect of the multitude but receives instead their scorn or pity.
Have you ever thought of these things?
What are you doing to make yourself independent?
Your hand or brain devoted to another man's cause can never make you wealthy.
Nor can your dollars.
The man who only saves is at best a plodder.
He should invest his dollars.
Look about you.
There are successful men on every side.
Have you ever wondered how they made money while others have not?
Excluding those rich by inheritance, and those rich by fraud, there remains countless thousands of men and women who, starting practically without a dollar, have built up for themselves wealth or a handsome competence and are no longer dependent on their hands for support.
These people have made money first by working for and earning dollars, and then by putting their dollars to work.
You are cheating yourself and your family when you do not save from your earnings and put your earnings to work.
Suppose you put your savings in a bank. The bank pays 3 per cent. How can it? Because it invests your money so that it will bring much more than 3 per cent—

enough more so that most bankers become very wealthy on the difference between your interest and theirs.
And what if they invest unwisely and lose all as they sometimes do? Why, it's your money and your loss—not theirs.
You have not the control of your own capital—do not even know what they are doing with your money.
You are making your dollars work for others. Why don't you make them work for you.
The banker invests your money; pockets their earnings, and gives you 3 per cent.
Why don't you do your own investing and make the profit for yourself?
You may think you have opportunity.
But you have.
Opportunities are at every hand. No man or woman exists that has not had some opportunity for financial advancement.
The trouble is: most opportunities wear rubber shoes, and the public sleepily refuses to hear them.
One of the world's most successful financiers, when asked how he made money so fast, replied: "I have an agent at the elbow of every opportunity and never let one pass without paying me tribute."
Don't you realize that every great fortune had its humble beginning. That just a few dollars have grown to millions?
Look at Andrew Carnegie. He saved up \$500.00 and made his

first investment in Adams Express Company stock. It paid him big interest almost from the start.
You know what it and he are worth to-day.
There are hundreds of similar examples.
"No one ever succeeds except by doing things."—John D. Rockefeller.
To become wealthy—successful—you must save and invest your savings.
Where were you in the year 1896, and what were you doing? Could you have saved \$100.00 without inconveniencing yourself?
Suppose you did save \$100.00 and invested it in CROW'S STOCK. This stock was sold in 1896 to small investors at 10 cents a share—six years thereafter it was worth \$100.00 a share, and to-day is selling for \$285.00 a share, or your \$100.00 invested would pay you a dividend of over \$10,000.00 a year and be worth \$285,000.00.
Opportunity is always knocking at the door.
Jay Gould once said to a friend, "When you invest in the stock of a company, don't look for the 'best,' for you will never find it. Look for a good one; then invest and do so quickly. Don't wait to see if it pans out all right, for that is where you lose your opportunity. When you have waited to see if it pans out, you have to pay a premium on the stock, and you will have lost the biggest advance in value. You must make

money on your judgement and foresight, and not on demonstrated facts."
Pittsburg, Pennsylvania, has over 400 millionaires who have made their fortunes out of coal and oil. Coal is the basis of all industrial and commercial wealth. Coal mining in British Columbia has always been a success. It is like diamond mining in South Africa—a bonanza of the first magnitude.
Dunsmuir made millions and millions in coal mining in British Columbia, and died the richest man in Canada.
THE BRITISH COLUMBIA AMALGAMATED COAL COMPANY of Portland, Oregon, controls 17,500 acres of coal land near Vancouver, B. C., estimated by coal experts to be underlaid with 1,400,000,000 tons of the best quality of steam, domestic, and cooking coal in America.
Our mine is better than the Crow's Nest, the quality of our coal is pronounced by coal experts to be as good, if not better, we are 500 miles nearer tide water, and 300 miles nearer the big smelters in the boundary district, where coke is used.
We are offering a limited amount of the treasury stock for sale at 25c a share, par value \$1.00 full paid and non-assessable.
The officers of this company are men of high standing. Bank or commercial reference will be taken. Call or write for prosperous or information.

GOOD GOVERNMENT.

(By MICHAEL WHELAN.)

"You can fool some of the people all the time, and all of the people some of the time, but you cannot fool all the people all the time."

—Lincoln.

This article will be brief, and it will be to the point.

Governments are responsible to the people, but the people are responsible for the Government. Why do governments become corrupt and when? Because and when the people are corrupt, is the general answer; but this is not strictly true. There are no purer people, politically speaking, on the earth than the Canadian people, yet they have had many corrupt governments.

Why is this? Well, there are many reasons. There is no lack of public spirit, of high and pure public spirit, in Canada, but there is a sad want of proper organization of the forces that make for right in the Canadian Electorate. The people are practically led like lambs to the slaughter by their political leaders. The people want honest, intelligent men and they try to get them. They accept these who profess and at the moment probably mean, to be honest. But they send them to the Federal and Provincial Parliament bound by no particular Policy, except of course, loyalty to the party, and lo! they are swallowed up in the great vortex of Party Politics.

Parties are good. They are necessary for proper organization. But Policy is more than party, and should be clearly, completely and definitely defined. It should be discussed by the people in their public halls, the right sustained, the wrong denounced, and insisted upon.

"Glistening Generalities" are too vague, and Golden Glammers are too rapid. Let us have real downright, earnest, practical, pure, honest politics. What right-inded man wants a "pull" at his neighbor's property? Then what right-thinking man should want a "pull" at the public property? Yet, what do we find? A Federal Government who took deliberately \$500,000.00 of the Federal Funds

to increase the salaries of officials already well paid, and in no need of an increase.

A Provincial Government who took \$9,000.00 of the public money for a similar purpose. A small thing to kick about, you say. Perhaps so. But look at the principle. What could prevent, constitutionally, 'b8th Governments from taking say, five million and ninety thousand respectively, had they chosen? O, you say, we would turn them out. Yes, lock the door when the steed is stolen. Old fogysm. It is quite time the people of this country awoke to their duty in this matter. "Hereditary bondsmen, know you not, who would be free themselves must strike the blow?"

There are men, many good honest, pure and patriotic, men of both parties, in all the parliaments in Canada, but there are also many scoundrels. And while a heeler or grafter is allowed to lay his hand on the shoulder of an elector and lead him to the polls already bribed, and partly forced and cajoled, "a man convinced against his will, but of his own opinion still"; while a heeler or grafter is enabled by moneyed or other undue influence, to lobby in the Houses of Parliament, and lay his hand on the shoulders of the people's representatives, there will not be, there cannot be, pure government in Canada, nor any other country on God's green footstool or under the blue canopy of Heaven.

Renou's River, N. B., June, 1907.

Piles get quick and certain relief from Dr. Shoop's Magic Ointment. Please note it is made alone for Piles, and its action is positive and certain. Itching, painful, protruding or blind piles disappear like magic by its use. Large nickel-capped glass jars 50 cents. Sold by Thos. J. Durick.

Nero was in a towering rage the morning after the Roman banquet.

What's this thundered the emperor. He dares to say that I squander the people's money on peacock tongues and get intoxicated on orange wine every day in the year. Ye gods, but he shall pay for this! Bring the man with the muck rake forward.

And after it was all over only the sullen lions could be heard fighting over their feast.

FLIES AS DISEASE BEARERS.

The Common House Variety Are a Menace to Health.

The United States Department of Agriculture has started a crusade against the common house fly and is carrying on extensive experimenting as to the best way of banishing it from the abodes of man. The fly has been found to be not only a nuisance but a menace to man's health. Its hairy body carries both disease and death. Many epidemics which sweep over communities in the hot season have been traced to the fly. Having its origin in filth, it brings with it the bacteria which breeds in filth. And as it moves about, now crawling over the food on the table, flying from the lips of the sick to the lips of the healthy—it is said to be more dangerous to modern society than were the beasts to primitive man.

The high mortality among the children in the congested districts of a city where families are closely crowded together, where refuse accumulates fast, where food is often kept in living room, is due to a large degree, so scientists now say, to the fly. Infant diseases chiefly prevail in the hot season, when the flies abound. Dr. J. T. C. Nash, in The Journal of the Royal Sanitary Institute, giving his experience as an English health officer, says that the fly is responsible for the death of many children because of polluting the milk which they drink.

It is a matter that has been entirely overlooked, said Dr. C. O. Probst, recently, but we now know that the common house fly is an agent of importance in carrying the germs of typhoid fever. It was formerly believed that the germs were only carried in water milk or other liquid food. Flies breed and feed in places where the germs are to be found and then flying into our houses, no doubt often carry the germs and deposit them on our food.

Get a free sample of Dr. Shoop's "Health Coffee" at our store. If real coffee disturbs your Stomach, your heart or kidneys, then try this clever Coffee imitation. Dr. Shoop has closely matched Old Java and Mocha Coffee in flavor and taste, yet it has not a single grain of real coffee in it. Dr. Shoop's Health Coffee imitation is made from pure toasted grains or cereals, with Malt, Nuts, etc. Made in a minute. No tedious wait. You will surely like it. Sold by THOS. J. DURICK.

"Well," said the good-natured boarder, there's one thing about our boarding house. You can eat all you like there.

"Of course, same as ours," replied the grouchy one; "you can eat all you like, but there's never anything you could possibly like."

"Very probably I'm a stupid chump," said the reader, "but I must confess I don't like Henry James' novels."

"Oh your not necessarily a chump," replied the critic. "The people who don't like his novels are divided into two classes—those who don't understand him, and those who do."

The first dictionary was made by the Chinese scholars in 1109 B. C.

The first pair of spectacles was made by an Italian in 1299.

The dinner fork was introduced into Italy in 1491 and into England in 1608.

The game of Backgammon was invented by a Greek about 1224. Glass mirrors were known in A.D. 23, but the art of making them was lost and recovered until 1300 in Venice.

McJigger—Of course, you've heard about Meekly. Poor fellow! he's lost his power of speech.

Thingumbob—Nonsense! Why only this morning he was married to Miss Strongmind and—

McJigger—Well?

The French Minister of War, has authorized the delivery of lectures at the military clubs in Esperanto, the proposed universal language.
