The alleged first breach in the game laws for the Fort was brought on trial today before J. Paul, justice of the peace, by Game Warden Ed. Simmon. It appears that Dave Simmon while out hunting wounded a deer. He was charged with coming up to what he thought was the same deer standing still he shot it, but found he had killed the calf of the deer which was lying dead by the calf. As it was chiefly accidental he was let off with the cost of the month.

A serious fire was averted by the presence of mind of George Taylor, jeweler a few nights ago. He had just returned from supper and was lighting a match to light the lamp when the lead blew off into the window, instantly setting fire to the cotton hanging in the window, of which there was a considerable amount. Mr. Taylor took off his coat and hat and after some minutes of hard work beat it out, but not before the window was burned.

Railway Commissioners Return to Ottawa After Western Circuit—Review of Cases Heard in Regina, Calgary, Saskatoon and Edmonton

Ottawa, Nov. 22.—D'Arcy Scott, assistant chief commissioner and Prof. S. J. McLean, commissioner of the board of railway commissioners for Canada, have returned to Ottawa after six weeks' absence in Western Canada. The development of the West, the wonderfully rapid duplication of railways to serve the needs of the settlers and to accommodate the growing commerce, render it necessary that the railway board shall hold a western circuit at least twice a year. On this circuit the board held sittings at Fort William, Winnipeg, Brandon, Regina, Saskatoon, Prince Albert, Edmonton, Calgary, Vancouver, Victoria and Nelson.

In all 151 cases were on the list for hearing and of those 126 were disposed of by orders or otherwise, 12 were reserved for the consideration of the board and the remaining 13 for reports from the expert officials of the board. At the sittings held on the western circuit it was found that in regard to certain complaints against the railways of Winnipeg and Regina, sufficient notice had not been given to the railway companies and the board decided to adjourn the consideration of the complaints to the next circuit.

EATON'S BUY VALUABLE LOTS

Saskatoon Will Have Departmental Store and Warehouses.

Saskatoon, Sask., Nov. 23.—Expropriation proceedings were taken today by the Government of the University of Saskatchewan, to secure certain land held by Butler and Byers, situated on the site chosen for the new university buildings. This morning the court of arbitration met to hear the witnesses, the above firm having refused to turn the land over to the Government for the price offered. The court consists of R. C. Sheppard, Winnipeg, for the government; W. W. Richardson, Portage La Prairie, for Butler and Byers and ex-Judge McGuire, Prince Albert, the third man. Three witnesses were heard at today's sitting, John A. McRae, of Engen and McRae; James Clinkskill, one of the government, and E. N. Talvy, a property owner close by. No decision is yet arrived at.

It is stated here on good authority today, that a block of lots, sold last week for \$15,000 on twenty-third street, were purchased by the Eaton company for the purpose of erecting a distributing warehouse at this point, which it is rumored this company is negotiating for some time. The owners of the property refused to divulge the name of the buyers but fairly reliable authorities state they were the Eaton.

The C.N.R. grading outfit of 400 teams and 600 men arrived in the city from the C.N.R. extension grade to the south of the city.

The freeze-up has stopped the work on the new lumber mill at Cowan which will be erected at a cost of a million and a half dollars.

Ray A. Henry was sentenced to six months hard labor in the local jail today for stealing a fur coat from George Russell, who came here from Vancouver.

Those Lambert, who pleaded guilty to stealing \$27 from M. O. Neil, were sentenced to six months in jail. There has been a great deal of thieving here during the last week.

A four civil cases on the docket. Among the criminal cases are King vs. Frank Cherry, neglect of daughter, King vs. Chas. Burgess, neglect of wife, King vs. R. Ralph, unlawful use of surgical instruments on Kathleen Dyck, King vs. Douglas Clark, forgery.

These "International Carpet Beggars," the Suffragettes.

New York, Nov. 23.—Mrs. Annie Nathan Meyer, representing the National Woman's Suffrage Association, delivered an address before the Brooklyn Philosophical Society in the Long Island Business College, South Eighth street and Broadway, yesterday.

"When I say the working woman can do no good with the vote I am told that the workingman would be represented at the polls, and that would be a serious menace to our institutions. I do not feel that the working woman, for the very simple reason that women are not a class, and all the suffragists cannot make them so. Women are a sex, not a class."

The suffragist makes the statement that if women were entitled to vote it would be impossible for anyone to establish a saloon. Now that is not a woman's object in life. Her object is to bring up her children, and if there are unjust laws she will not be tempted to drink liquor.

"We have no laws that are unjust in women in this country, and it is not necessary for these lady-like Hooligans to come over from England and sell us what we want. They are simply international carpet-beggars. A woman who has not the right to vote has more moral weight than any other class because she has no axe to grind."

Sensation in B. C. Town.
Nelson, B.C., Nov. 23.—A sensation has been caused in Creston, B.C., by the discovery of a skeleton by John Huscroft, while grading the road eight miles from Creston. The man was evidently over 50 years of age and was found in a hole 10 feet and not in Indian. He was probably in the ground many years. It is believed it may be the remains of a prospector, Wallace, who was thought to have been murdered by his companion, another prospector, fifty years ago.

ZAM-BUCK CURED HER BABY.
Mothers will find the following statement of "more than passing interest, showing, as it does, how Zam-Buck ends the skin-diseases of children. The ordinary remedies have completely failed. Mrs. C. W. Bowerbank, of 126, Denison Avenue, Toronto, says:—

"Not long ago my baby's face broke out in an eruption. The spots were black and very irritating and sore. At other times they itched fearfully, and caused the child to scratch and rub, thus making the sores very inflamed and painful. I tried all sorts of ointments and salves, but they somehow did not seem able to remove the trouble. Zam-Buck proved very different, and a few applications gave the child relief. The sores were healed completely."

"Since that time my little daughter has had occasion to use Zam-Buck for skin trouble. She broke out in blotches on her hands and arms, and in her case also Zam-Buck effected a cure."

"We now keep Zam-Buck handy as a household balm, and do not intend to be without it."

"Not only for skin diseases, but for cuts, burns and bruises, Zam-Buck is a fine remedy. The other day I burned my hand badly. An application of Zam-Buck seemed to take the fire out of it at once, and it soon healed. In the course of my experience I have tried pretty nearly all the salves and ointments obtainable, but there is nothing to come near Zam-Buck."

Zam-Buck is Nature's own healing balm, being composed of pure herbal essences. It is a cure for pimples, eruptions, eczema, ring-worm, ulcers, cuts, burns, bruises, poisoned sores, chronic wounds, and leg, piles, hemorrhoids, and all skin injuries and diseases. Druggists and Stores everywhere sell it in a box, or post free for price from Zam-Buck Co., Toronto, B. boxes \$1.25. You are warned against cheap and harmful imitations sometimes represented to be "just as good."
