AYLESWORTH DENOUNCES THE UNHOLY LLIANCE

Borden Has Made a Premeditated Alliance With Bourassa Sacrificing United Canadian Loyalty to Defeat Reciprocity-Appears on Platform With Candidate Pledged to Anti-British Bourassa Polico

Toronto, Sept. 14-Nomination was the field day for oratory. Conspicuous was the address of Sir Alan Aylesworth at Newmarket. The Minister of Justice just returned from Quebec and arraigned Borden for his premeditated alliance with Bourassa, sacrificing the United Canadian loyalty to a desire to defeat reciprocity.

Monday, September 18, 1911.

"Borden went to Quebec and appeared on the plat-form as an advocate of the candidates pledged to the anti-British Bourassa policy, deliberately appealing to their prejudice to make French-speaking Canada a separate self-governing Republic. That road leads to civil war. Borden has helped to administer a terrible poison to the body politic. He has signified a desire to receive help from an element which would tear Canada asunder. He has likened himself to the designing unprincipled, unscrupulous demagogues playing on racial and religious prejudice. If decent, honest Conservatives follow this course then God help Canada," exclaimed the Minister of Justice.

The Minister received an ovation from a joint nomination meeting, the Conservatives joining in the applause. Sir Alan scored the position of Clifford

"He is an example of the individual occasionally found in Old England Liberal circles who enters the House of Lords and becomes the hottest and wildest advocates of class privilege and taxing the many for the benefit of a few. Millionaire Sifton is out of touch with the Canadian people and their needs. He advocates the cause of the interests that in the United States have made huge trusts and combines which would have been impossible but for high protection."

Nomination meetings throughout Eastern Canada were characterized by warm debates. The Liberals scored a triumph at North Lanark and expect to redeem the seat.

The Premier was accorded a memorable reception at Quebec and expressed an assurance of a grat victory. Hon. Mr. Fielding was similarly honored in Nova Scotia, while the Hon. Mr. Pugsley expressed the conviction that New Brunswick would elect a solid Liberal contingent.

Liberals enter the last week of the campaign in high spirits.

Nomination day bets of even money on the government increasing their majority have been made. Financiers in Toronto offered \$4,000 at four to one on the government's return with no takers.

Sir Wilfrid Makes the staple industry of Quebec. Agri-cultural implements were the only markets.
