MONTREAL MARKET SHOWS HEAVINESS

C.P.R. Weakness at New York Causes Depression

Montreal, Oct. 26.—A heavy tone in Canadian securities here today was in part a reflection of the weaker tendency in the New York market through the greater part of the day, and in part the result of a gradual clearing up of weak accounts left over from the protracted decline of recent weeks. Canadian Pacific's further weakness at New York was depressing, but as Montreal business in the stock continue to be executed in New York, the local market gave no indication of the extent of Canadian buying and selling on the movement. On Thursday's break of 5 1-2 points at New York no trades were reported in the local market. Today twenty-five shares were dealt in at 144, a decline of 4 points from last previous sale here.

The war loans were less active and steady. The only other active feature in bonds was Price Brothers 5s, 2,000 of the sterling issue selling at 81 3-4 against 82 in recent broken lot sales. Total business for the day was 2,950 shares, $33,000 bonds, and 270 unlisted shares.

WAR LOANS CHIEF FACTOR AT TORONTO

Stocks Show More Activity Though Checked by C.P.R. Slump

Toronto, Oct. 26.—Stocks took on more activity today, and aside from careful surveillance of the movement of Canadian Pacific in New York, the continued appreciation in value of the old war loans was the most important feature. All three war loans were marked up during the day's trading, due to buying actuated by anticipations of favorable conversion privileges in connection with the new loan. The third loan was most active, selling up to 94⅝, for a gain of ¼. The second issue was up ⅛ to 95⅝, and first loan was stronger to a similar extent at 96⅛.

ANOTHER TRAITOR INDICTED

New York, Oct. 26.—The federal grand jury in Brooklyn today indicted, under the Espionage act, Charles W. Walnum, a former pantryman of one of the Harry Payne Whitney's yachts, on a charge of attempting to place an explosive bomb on a former German merchant liner which was in drydock here. Walnum pleaded "Not guilty" before United States Judge Chatfield, who held him in $25,000 bail for trial on Nov. 11. Walnum, who claims to be a Norwegian, was arrested last week after he had, according to the indictment today, endeavored to induce a dockyard worker to allow him to go on board the steamer.

SINN FEINERS SAY PROVISIONAL GOV'T WILL BE FORMED

Conference of Sinn Feiners Declares for Irish Republic; the Members Will Be Trained in Use of Arms, But Not by Compulsion

Dublin, Oct. 26.—The Sinn Fein conference at its session, last night, decided that the members of the organization should be trained in the use of arms, although this will not be compulsory. The conference promised that the provisional government of Ireland should be established without delay. It adopted a provisional constitution aimed at securing the international recognition of Ireland as an independent republic and providing for the convocation of a constitutional assembly.

Dissension showed itself in the conference before the first session ended. Shortly after midnight Countess Markievicz denounced Prof. John MacNeil, president of the Sinn Fein volunteers, saying he had changed his mind many times and that it would not be safe for Sinn Feiners to trust their lives to such a man.

Mrs. Clarke, widow of Thomas J. Clarke who was put to death last year for his part in the attempt to set up an Irish republic, supported Countess Markievicz and an uproar followed. The chairman supported Prof. MacNeil's candidacy for election to the executive committee and after a time the dispute was dropped. The committee will consist of 154 members. Resolutions were passed demanding restitution and reparation from England and urging Irish trade unions to sever relations with English unions.

At today's session Prof. Edward de Valera, member of parliament for East Clare, who was referred to in the house of commons recently as having been inciting rebellion in Ireland, was elected president of the conference after Count Plunkett and Arthur Griffith, who also were nominated, had withdrawn. In announcing that Prof. de Valera had been elected unanimously, Mr. Griffith said the Sinn Feiners now had at their head a statesman as well as a soldier.

TORONTO NEWSPAPER OBJECTS TO BORDEN NAMING UNIONISTS

Ontario Electors Must Have Complete Say in Appointment of Candidates for the Union Government

Toronto, Oct. 26.—Ontario will not permit Sir Robert Borden to appoint M.P.'s for this district, says a heading on an editorial in the Evening Telegram yesterday. The editorial goes on to say:

"An appeal for unity in the constituencies in Ontario is sent out from Ottawa.

"A suggestion of autocracy is written in the decree of the union government to the constituencies of Ontario.

'Military Voters' Act or no Military Voters' Act, it is not the duty of Sir Robert Borden or Hon. Wesley Rowell to designate the men who are to represent the protectionist, conscriptionist, anti-Laurier convictions of the people of Ontario in the next house of commons.

"Union government will be saved much trouble if the leader and strategists of that government realize here and now that Ontario members of parliament are to be chosen either by acclamation or by the votes of the free people of this province. The friends of conscription, public ownership, public rights, progress and the foes of Laurierism in Ontario will not permit their members of parliament to be appointed by Sir Robert Borden in consultation with the saw-off artists of the two old party machines at Ottawa."

CROSSING THE BORDER

Sherbrooke, Que., Oct. 26.—A report from Scotstown in Compton county, states that a number of eligible men for military service have crossed the border. The matter has been reported to the government, and officers will investigate.

COMPLETE CONTROL OF BRITISH FOOD SUPPLIES BY GOV'T

Speculative Middleman Is Eliminated and All Commodities Under Control of Administrator

London, Oct. 26.—Rt. Hon. George N. Barnes, member of the British war cabinet, has issued a statement by the food ministry of the steps taken to meet the food shortage, and to limit the profits on food. He points out all the principal foodstuffs are now under control, namely, bread, flour, meat, potatoes, sugar, milk, butter, cheese, bacon, jam, oatmeal, peas, beans, chocolate and feeding stuffs for livestock. Regarding profits and prices which have been or are being fixed, he mentions every stage of production and distribution of controlled commodities from the stockyard or barnyard to the shop counter.

Mr. Barnes says the speculative middleman has been eliminated and the charges that may be made by the necessary middleman are being defined and regulated by fixing prices or profits.
