

Wit and Humor.

A good country seat—A milking stool. A Kausman man is in jail for letting a neighbor's mule follow him. When is a man obliged to keep his word? When no one will take it. Never confide a secret to your relatives. Blood will tell. Dyeing for love—coloring your mouse-tache to please a woman. When a maiden gets married, she ends a miss spite life. A lawyer's effects are apt to depend upon the number of his causes. It is not what we make, but what we save, that makes us rich. It is not what we read, but what we remember, that makes us wise. Men who talk degradingly of women display their own degradation. Why are jokes like nuts? Because the drier they are, the better they crack. The best capital to commence life with is a capital wife. Tric's and treachery are the practice of fools who have not sense enough to be honest. A merchant asks why he should be obliged to go so often after money that is coming to him. 'Why, my friend,' said Roger, 'I brought the suit to oblige you. To oblige me, indeed! How so?' 'Why, to oblige you to pay.'

How is it, when a wife wears the trousers, she and her husband compose the number ten? Because she is number one and he is a cipher. 'A man cannot help what is done behind his back,' as the seamp said when he was kicked out of doors. A grave-digger who had buried a Mr. Button, sent the following curious bill to his widow: 'To making a 'button-hole,' 82.'

A sailor boy sentenced to be flogged begged the captain to wait till he could say his prayers. 'Certainly,' said the captain. 'Then I'll say them on shore,' said young tarpaulin. 'I can't find bread for my family,' said a lazy fellow in company. 'Nor I,' replied an industrious miller, 'I'm obliged to work for it.' 'Bridget, I told you to let me have my hot water the first thing in the morning.' 'Sure, sur,' replied Bridget, 'an' didn't I bring it up an' I've it at the dure last night, so as to be in time?' A young lady, while walking with a gentleman, stumbled, and when her companion to prevent her falling, grasped her hand somewhat tightly, she simpered, 'Oh, sir, if it comes to that, you must ask my pa.'

An advertisement of a farm for sale in Wisconsin winds up as follows: 'The surrounding country is the most beautiful that ever came from the Creative Hand. The scenery is celestial—divine; also three wagons and a yoke of steers.' 'I will bet you a bottle of wine that you will descend from that chair before I ask you twice.' 'Done,' said the gentleman, who seemed determined not to obey the summons so obediently. 'Come down!' 'I will not!' 'Then stop till I tell you a second time.'

An illiterate negro preacher said to his congregation, 'My brethren, when de first man was made, he was made of wet clay, an' set up agin de plas to dry. 'Do you say, said one of de congregation, dat Ad-AM was made of wet clay, and set up agin de plas to dry?' 'Yes, sir, I do!' 'Who made de plas to dry?' 'Sit down, sar!' said the preacher, sternly, 'such questions as dat would upset any system of theology.'

Cheering Prospects for an Abundant Harvest. THE present favorable spring weather warrants both farmer and mechanic in making timely preparations for the coming harvest. THOMSON AND WILLIAMS, While thanking their patrons for the liberal encouragement accorded them in the past, would cordially invite the attention of Farmers to their excellent assortment of harvesting machines for 1871. Our Ohio Combined Machine, with Johnston's Improved Self rake Has given complete satisfaction for the past two years, and is offered to the public with the strongest guarantee for durability and perfect work. THE CAYUGA CHIEF, Jr. MOWER. Which has gained for itself a world-wide reputation, is again offered as the most durable, handy, and best working Mowers known, being constructed in the body of the machine entirely of iron and steel, and with it we defy competition. We also offer the JOHNSTON SELF RAKE SINGLE REAPER. Which took the first and second prizes at the Provincial Exhibition in 1870. This reaper is acknowledged to be superior to any other pattern now in use, as it cuts perfectly, takes up lodged or tangled grain better than any other rake or reel machine, and cuts equally well on either side of the field. When wind is strong from any direction, it can be raised or lowered while in motion, and is very durable. We invite inspection of our machines and mode of manufacturing by purchasers before giving their orders elsewhere. We guarantee Satisfaction in every Machine or no sale. Terms Easy. The Agriculturalists of Perth, and adjoining counties, will not, we believe, be so blind to their own interests as to give their orders to shops more than 100 miles east, when there are first-class works in their midst, building largely the best of machines, equal to any of the same pattern made in the Province. CALL AND SEE US. Send in your orders by Mail, or deal with our agents, as in every case you will get a perfect Machine, and on the same terms as your neighbor, our principles of business and prices being established and uniform.
