Local Market.

London, Thursday, June 14. The offerings on the square today were not overly-abundant, even for the inactive demand that prevailed. Very little was disposed of except flowers and vegetables, in fact, little of anything else was supplied. Few butchers were present. Their stocks were small. A rather larger amount of poultry than rather larger amount of poultry than usual was offered, but there appeared to be no disposition on the part of those present to buy freely. Strawberries were more plentiful and showed a tendency to weaken in price. Three boxes for a quarter could be obtained retail today. The deficiency in the supply of butter is having an appreciable effect upon the prices. This is added to by the eagerness on the part of exto by the eagerness on the part of exporters to buy largely, and thus replenish their depleted stocks. As will be noticed by the quotations, eggs also

Quartermaster-General's Opinion of the Camp.

The Tattoo Tonight_Today's Review An Exhibition of Foolishness-Ineldents of Camp Life.

As the result of the energetic efforts of Capt. Cook, of the 27th, and his able corps of assistants, everything was in readiness last night for the grand military tattoo, and pyrotechnical display, at the camp grounds. It was unfortunate in a way that the heavy rainstorm forced a postponement, but the extra time thus gained will be used to good advantage in perfecting all details. A large crowd assembled on the heights after the rain had ceased falling, in the expectation that the programme would be carried out. It will be conducted as originally intended, to-

Testerday afternoon the troops were marched past Col. Aylmer and Col. Foster in regiments, brigades, and as a di-vision. The visiting ofners went vision. The visiting ofneers went through the lines. In commenting upon the plan of the camp, which was made out by Lieut.-Col. Holmes, D. O. C., Col. Foster said that it was the best laid-out camp that he had ever seen in

Canada.
This afternoon the infantry drawn up in brigades, with the cavalry massed behind the first brigade. Col Aylmer was received with the usual salute. He then inspected the lines, and afterwards a march past took place. The inspection and review commenced at 3 o'clock this afternoon, and was witnessed by many hundreds of visitors. Col. Stacey received word last night from St. Thomas that a large party were coming over from that city to see the parade, and attend the tattoo tonight. Many residents of other places whence the soldiers have come are expected to arrive in the city today.

Yesterday afternoon there occurred an unfortunate incident that might have been attended with very serious consequences, if the officers had not appreciated the position. The men of No. 3 company, 21st (Essex) Regiment, had been drilling hard all morning, and, being healthy chaps, they were very a large portion of their dinner without telling them that it would be served for their supper. The men believed that they were being wrongly treated, and when ordered out on parade they refused to do so. The commanding of-ficer ordered their arrest, and they were marched to the guard house. Soon afterwards they repented their foolishness and recognized the seriousness of their position. They made known their willingness to return to duty, explained their mistake, and the officers pardoned them.

Dr. Borden will not be able to visit the camp today as he intended. Last night Col. Aylmer received a telegram from him saying that on account of Mrs. Borden's serious illness he would

ing water for the men. In this respect it is acknowledged that London to unrivalled.

This morning a meeting was held in Canon Dann's tent in the lines of the 26th. All the chaplains in the camp attended it. The utmost satisfaction was expressed with the conduct of the men during the camp. Plans were formulated for a continuance of their work next year. A resolution was passed expressing the sincere gratitude of the chaplains in camp to the divisional brigade and regimental officers, for the assistance that had been given them in their work. In this connection it might be said that the officers have said repeatedly that the presence of the chap-lains and their work has done more than anything else to maintain the remarkably good order for which this year's camp has been noteworthy.

The course of musketry instruction has been completed, and Sergt.-Major Gregory, who has had charge of it, is preparing the reports of averages. He says that the shooting this year has been excellent.

The latest militia orders state that instead of ten cents per day all round for non-commissioned officers and men of the permanent corps, as camp alhowances, the following schedule is authorized. Warrant officers, 50 cents: staff-sergeants, 35 cents; sergeants, 25 cents; rank and file, 10 cents per day.

Col. Dawson, divisional paymaster, is in command of one of the busiest departments in camp. An idea of the importance of his work may be gained, when it is said that he must arrange for the payment of nearly \$30,000 to the soldiers. Besides this, another \$5,000

will be paid out for supplies. Col. Avlmer and Col. Foster leave for the Niagara camp tomorrow.

CAUGHT IN BUFFALO

Charles Bradstreet Arrested in That City Charged With Robbing a St. Thomas Residence.

When Michael McAndrews, an M. C. R. engine driver, returned yesterday to his home in St. Thomas, after six weeks' absence in Milwaukee, he found that his house had been broken into in his absence, and jewelry, plate and other articles to the value of over \$500 stolen. He at once reported the matter to the St. Thomas chief of police, and then called on Detective Michael Heenan, of the M.C.R. Mr. Heenan has been in London all week in connection with the sessions of the peace, and had been discussing with the local detectives the capture in Buffalo of a wellknown character named Charles Bradstreet, and the recovery through his capture of a quantity of goods for which the Buffalo police were anxious to find an owner. Detective Heenan was therefore in possession of certain inside information, and when he asked: "Did you lose a sterling silver spoon marked, 'Robert, 1896' " and "Did you lose such a lady's ring?" following up with a description of other of the miss-ing articles, Engineer McAndrews was considerably surprised. He was in-formed that the probable thief was in safe custody in Buffalo, and he accordingly went east this morning to iden-tify his possessions. Bradstreet is known in London, having been while here a guest at the Salvation Army Refuge on Clarence street. He associated with a bad gang in St. Thomas.

To Oppose the Entry of the Relie Force.

London, June 14.—A special dispatch from Shanghai says the position of the legations of Pekin is most critical. According to this dispatch 30,000 Chinese oops are drawn up outside the gates of the city to oppose the relief force, and guns are trained on the American, British and Japanese legations. The American, Russian and Japanese ministers have sent couriers to Tien Tsin asking for 2,000 troops of each nation-

ality.

The United States gunboats Yorkton and Castine left yesterday for Tong Ku. There is no foreign warship here

Tien Tsin, Wednesday, June 13 .- The international expedition is now at Lang Fang, half-way to Pekin. The troops found the station in ruins, and the Boxers carrying on their work of destruction. A mile and a quarter of track has been torn up. The expedition will remain for the present at Lang Fang.

A courier who arrived this morning from Pekin and Lang Fang brought a letter from the American legation, stating that Gen. Tung Fuh Siang intends to oppose the entrance of the foreign troops into Pekin.

Ten thousand troops were guarding the south gate. The courier reported that it was said that upwards of 2,000 Boyers were in the upwards of 2,000

Boxers were in the neighborhood of JAPAN SENDING A REGIMENT.

Yokohama, June 14.-Japan is about to send a mixed regiment to China. The government press declares that Japan alone could suppress the revolt, but that she must first win the confidence of the powers and avoid acts likely to awaken suspicions.

Tien Tsin, June 14.—Owing to the extensive damage done to the railroad line it is now feared the international troops cannot reach Pekin before Sunday. The Japanese cruiser Suma has arrived at Taku.

New York, June 14.—The telegraph companies report that the telegraph lines between Pekin and Kalgan, 200 miles to the northwest, have been totally destroyed.
Shanghai, June 14.—A dispatch from

Chung King announces that a riot has taken place at Yung Na Fu. The buildings of the China inland mission were partially destroyed, and those of the Roman Catholic and Bible Christian missions were utterly demolished. All the missionaries are safe.

THE POLL TAX

Government Bill Introduced to Double the Rate-The Outery Against Lieut.-Gov. McInnes.

[Special to The Advertiser per C.P.R.] Ottawa, June 14.-Sir Wilfrid Laurier will introduce a bill this afternoon increasing the poll tax on Chinese from \$50 to \$100. The increase is not so large as the British Columbia representative would like, but it will be given as a first installment, and is an experiment to see if it will have the desired effect decreasing Chinese immigration. What the labor people of British Col-umbia ask for is an increase of \$500, and this would be equal to a prohibitory act. The government, however, think that a good beginning will have

been made by doubling the tax.

The government is being besieged by telegrams and letters asking for the dismissal of Lieut.-Gov. McInnes. of British Columbia, because Premier Martin, whom he called on to form a government, has failed to get the indorsement of the people. A vote of the legislature would be the proper way to decide the standing of the parties in British Columbia. Lieut.-Gov. McInnes has been blamed for acting on two occasions and dismissing governments without permitting the legislature to decide, and those who were loudest in denunciations are now asking the Dominion government to do the very thing that they con-demned in him. The people and the people's representatives are the proper ones to decide this matter. Should Mr. McInnes refuse to alter the de cision of the province, then it would be time for Sir Wilfrid Laurier to act As the legislature has been called, those who are after the official head of the lieutenant-governor will not have long to wait.

From Col. Otter.

Ottawa, June 13.-Lieut.-Col. Otter. in a letter to the department of militia, under date of May 11, explains that a slight wound received in action on the 25th ultimo at Thabanchu necessitated his returning to the hospital at Bloemfontein. He speaks of the large amount of correspondence he attends to from relatives of deceased, sick and wounded men, both in England and in Canada, while the receipts of money and comforts sent for the non-commissioned officers and men of the battalion are almost without number, and have to be acknowledged and distributed. "I have," writes Col. Otand a house now full of comforts, with more constantly arriving, awaiting distribution to the battalion when opportunity arrives. The Canadian ladies of England have forwarded through our own high commissioner no less than 110 cases at different times, many of which have already arrived, to be given to the three Canadian contingents. At least a dozen other ladies in England have collected from their friends similar parcels and sent us for the gallant Canadians-these all from total strangers-while in Canada, from Victoria to Halifax, have come bales and boxes galore. The disappointment of it all is that owing to the constant movement of the battalion these comforts, which the battalion needs very much, cannot be distributed, as they cannot be transported with it, or cannot be got to it."

"You will have gathered from official reports," Col. Otter also states, "that the battalion has seen no small share of active service, and, from the public press, that so far it has acquitted itself in a creditable manner. It is fully conceded here that, of Lord Roberts' own immediate command, the 19th brigade has had the hardest work and the most fighting, and in that brigade the Royal Canadian Regiment has done its full share and held its own in every way throughout. day I was wounded both Gen. Ian Hamilton and Major-General Smith-Dorrien came to me specially and complimented us very strongly on the day's work, and referred in the same terms to the battalion's previous record. The natural result of this service is, of course, much diminished ranks, and, though a draft recently sent us has arrived, and is now in the field. I doubt if we have now fit for service there 600 officers and men, and these, I know are pretty well tired out, or were when I left them two weeks
