LeClare—Kearney.

A pretty wedding was solemnized on Wednesday morning at St. Peter's Cathedral, when Miss V. Kearney, daughter of Mr. R. J. and Mrs. Kearney. ney, of 30 Blackfriars street, was united in marriage to Mr. William Le-Clare, of Grand Rapids, Mich., formerly of this city. The bride was given away by her father. She wore a white ninon

dress over softest brocade, silk trimmed with lovely Italian point lace. Her hat was a picture hat of silk net, draped with ostrich plumes. The bridesmaid was Miss Helen Kearney, sister of the bride, while the groom was supported by Mr. Joseph Kearney, of Detroit, a brother. Following the ceremony the guests, all immediate relatives, sat down to a repast provided by host and hostess, and afterward Mr. and Mrs. LeClare left on the evening train for their future home in Grand Rapids. The bride's going-away suit was a champagne suit and hat to

ENGINEER GRAYDON IS ABSOLUTE NECESSITY

So Ald. Sanders Told Board of Works at Meeting Last Night.

"City Egineer Graydon is indisensable," declared Ald. Saunders at the meeting of No. 2 committee last night. "There has been a lot of criticism about the department of late, and want to place myself on record on this matter. Mr. Graydon does work in the office. He is there in the office six hours a day, and because of his knowledge he is indispensable for some time yet. He is not drawing his salary for nothing. The situation is simply this: We are getting the same service that we have had for years at \$1,200 less a year. This is what it amounts to, and instead of being an extravagant arrangement it is certainly economical."

"I do not mind fair, straight criticism, but City Engineer Graydon should be given at least credit for what he

City Engineer Wright also added his word of commendation, and declared that Mr. Graydon was of great assist-ance to him, and helped him at every The incident then closed.

C. M. B. A. CONVENTION

An Attempt Made to Oust the Present Executive.

Ottawa, Aug. 12.—What looked like the inception of a concerted effort to oust the present grand president of the C. M. B. A. from office was nipped n the bud at this morning's session of the convention by a large vote against the proposed advance. It was moved in effect by Delegate Friel, of Dorchester, N. B., that any member of the grand council be eligible for the office. This means that any delegate to the present convention would be able to take the office if elected. At present the constitution provides that to qualify for the presidency a member must have served a full term in some subordinate elective office of the grand council There was an exciting discussion on this motion, which was defeated just at the close of the session, the members supporting the present executive rising to their feet and cheering him to the echo.

Two other important matters were dealt with, it being decided to let the present method of representation at conventions stand. A proposal to divide the convention into territorial councils was defeated, the laws committee reporting adversely against the pro-

NOT PLEASED WITH DOMINION

British Teachers Say There is Too Much Money Getting.

Montreal, Aug. 13 .- The party of fifty British school teachers who have just completed an extensive tour of Canada, left on the Tunisian. In an interview with a Toronto correspondent on the ship, Mr. T. Gautry, the leader of the party, handed out a rather tart criticism of the Dominion There was much to admire about the country, and he thought the trip had profited the teachers, but he deplored the fact that Canadians seemed to be bent on the acquisition of the dollar. Mr. Gautry gave Montreal a particular roast, saying that the streets were

a disgrace to civilization. With regard to educational matters, Mr. Gautry said the party had been impressed with the fact that, considering the differing conditions, the school teachers in Canada were not as well paid as in the old country, which had naturally resulted in the profession being forced largely into the hands of underpaid girls. While the proportion in his party was fairly equal between men and women, that would not obtain in Canada, and the pay of teachers in the old country was such that men could engage in it still.

Stalwart Evidence of Forest City Laundry Excellence

Since equipping our present premises as a Laundry, we have employed some new methods for starching and ironing gentlemen's linen that makes the finished work par excellence.

There is no twisted shirt fronts, broken buttons, torn button holes, starched shoulders, bodies or sleeves to cause you annoyance.

In starching the neckband and wristbands the rest of the shirt is so protected that the starch is only placed where desired, leaving the shirt soft and pliable.

Every shirt when finished has its original shape. Every cuff and collar is ironed and shaped to just such an acme of perfection that they are faultless in fit, finish and feel.

Your white linen will have a snow-white appearance, your colored a brightness and newness that if we were to ask you more for the work you would willingly pay it. Our work costs no more than inferior work.

In no way is your laundry neglected.

Each garment intrusted to us receives the same attention as if it were the only garment left with us. That is why your linen will wear better, look better and retain its newness if left entirely with us.

We know our work to be perfect. To prove it to you, we say, send us your next bundle, and if you are not satisfied, it will cost you nothing.
