

TRUE BILL AGAINST HENRY

Grand Jury Brought in a Finding in Assault Case Yesterday Afternoon.

CRYSTAL HALL ECHO

Mrs. Margaret Boyd Sues W. J. Reid, Et Al.—Defence Asks for a Non-Suit.

After some deliberation, the grand jury at the spring assizes yesterday afternoon brought in a true bill against William Henry, the young man accused of criminal assault.

The first case heard in the session, which opened before Justice Macge, yesterday afternoon, was that of Mrs. Margaret Boyd, who was injured in the Crystal Hall wreck, of July 16, 1907.

The action is one for \$5,000 against Mr. W. J. Reid, the proprietor of the Crystal Hall, and Messrs. G. W. Kerohan, and R. G. Wilson, the contractors in charge of the alterations to the building.

Plaintiff's Injuries.
The plaintiff was the first witness called, and told of the occurrence of the accident and of the injuries she sustained.

Dr. Roome also testified as to the nature of the plaintiff's injuries. She was walking on the sidewalk on Dundas street, when the front wall of the building fell out, burying her in the debris and causing serious injuries.

Mr. George Hammett, contracting ricklayer, who was employed by Mr. Wilson, told of the work being done in the building. It was done, he said, according to the usual practice that had been used in his experience of 25 years. The wall had been shored up properly, and the work was carried out according to the architect's plans.

The inside walls were satisfactory, and the windows, which were placed in the second floor, were also satisfactory.

Plaintiff's Injuries.
The plaintiff was the first witness called, and told of the occurrence of the accident and of the injuries she sustained.

Dr. Roome also testified as to the nature of the plaintiff's injuries. She was walking on the sidewalk on Dundas street, when the front wall of the building fell out, burying her in the debris and causing serious injuries.

was dry and crumbled, as Mr. Hammett had said, was an indication, the witness thought, that it would not be wise to concentrate the sustaining power of the 60 feet of central wall, which had been removed, upon three pillars, with a base thirteen inches square.

"That is a matter of expert opinion, is it not?" asked Mr. Gibbons. "Undoubtedly," replied the witness. This concluded the case for the plaintiff.

Mr. George C. Gibbons at once entered an application for a non-suit, the argument on which was held in chambers.

GERMANY FACING NATIONAL STRIKE
Demands for More Money Are To Be Backed by Socialists.

Berlin, March 30.—The controversy now proceeding regarding the question of the Prussian franchise, which has already caused serious riots throughout the country, will develop in the near future into a more strenuous trial of strength, between the Kaiser's Government and the revolutionary legions of the socialists. The German socialists have in view a daring stroke whereby they are resolved to assert themselves.

The socialists intend to organize a complete strike of all the coal miners in Germany which will be partly economic and partly political in character. It is this combination of politics, pure and simple, and trade unionism which will render this strike so formidable and so inconvenient to the Government.

The situation in the coal industry is growing ripe for a tremendous trial of strength between the mine owners and the mine workers, who desire shorter hours and higher wages. The present movement is not suitable for a strike, because a large surplus quantity of coal is still in the possession of the mine owners. Because of the heavy orders this surplus stock of coal is steadily diminishing, and there will come a time within the next few weeks when the mine owners will be almost without a surplus.

Plan Simultaneous Strike.
When it does come a great miners' strike will be inaugurated. The socialists have decided to exploit the strike as a huge demonstration against the Government for withholding manhood suffrage for the Prussian Diet elections.

The simultaneous strike of all the coal workers will paralyze the industrial life of the country. Factories will cease to work, the great cities will be plunged into darkness, railway traffic will be stopped. A terrible blow will be struck at German prosperity. This, at any rate, is the socialists' intention.

They are making elaborate plans to render the great strike successful. The socialist trade unions in the Rhine provinces have negotiated with the trade unionists in Silesia to bring about a splendid national movement.

The socialist trade unions have also negotiated with some of the smaller trade unions, consisting of Roman Catholic workmen. These latter trade unions asked the leaders of the Roman Catholics (Centre party in the Reichstag) their opinion of such a strike. Through these inquiries the socialists' plans are now known to the Government.

Dilemma for Government.
The Government will be in a serious dilemma. The mine owners are already making preparations to enlist hordes of foreign workmen from Russia, Poland and Galicia to take the place of the strikers, and full military protection will be accorded them.

Even if large numbers of such foreign workmen were imported, unskilled, it would be impossible for them to produce the output of the regular workers. It is claimed. Moreover, it is inconceivable that a thousand would watch the importation of foreigners to take their places, without striking a blow to prevent this counter-stroke of policy. That would mean fearful conflicts with the Kaiser's troops and endless carnage.

More than two thousand million dollars' worth of mineral oil has been exported from the United States, since that product began to be an article of exportation, less than half a century ago.

Daniel D. Whitney, ex-mayor of Brooklyn, celebrated his 81st birthday by putting in as hard a day's work as the average business man considers necessary.

THE WEBBWOOD WRECK
Railwaymen Want Commission's Report of Accident Made Public.

Ottawa, March 29.—There is a feeling among railway employees that the report of the railway commission in regard to the recent Spanish River wreck should be made public.

The local representative of the B. of L. E., in fact, has made an effort to obtain some information from the railway commission in regard to the wreck, and they made a report, but no inkling of its contents has yet reached the public.

The railwaymen's representative, therefore, who is chairman of the legislative board of the B. of L. E., deeming that the result of the official investigation of the wreck would be a matter of considerable importance to members of the order, endeavored to obtain it, but was unsuccessful.

It is likely that the wreck will be among the subjects of discussion at the meeting of the legislative board of the order, which is now in progress in the city.

ETN A STILL BELCHING
Violence of Eruptions Continues and Thousands Are Made Homeless.

Catania, March 29.—The eruptions which had subsided up to noon today, are increasing in violence this evening. The rumblings and explosions have commenced again, and the emission of lava is more active. It is flowing more rapidly now, owing to the fact that the lava which was belched forth on the first days having hardened, an provided an easy course for the latest stream. The latest stream, however, is not causing any great damage.

The lower streams are advancing slowly at a rate of four metres an hour. Over this is other smaller streams, which are flowing at the rate of 100 metres an hour.

The authorities have issued orders for the evacuation of the entire southern slope of the mountains. This means that 75,000 people will be rendered temporarily homeless.

WOLTER STICKS TO STORY
New York, March 29.—The body of Ruth Wheeler, the 15-year-old stenographer, who was murdered in the room of Albert Wolter, last Thursday, was buried quietly today, while the accused of the crime continued to resist the efforts of detectives to obtain a confession.

Wolter still denies that he killed the girl or that he knew her. The district attorney's office says, however, that evidence sufficient to convict has already been obtained, and that the trial

HIGHEST FOOD-VALUE.

**EPPS'S
COCOA**

is a treat to Children, a sustenance to the worker, a boon to the thrifty housewife.

Breakfast SUPPER
In strength, delicacy of flavour, nutritiousness and economy in use "Epps's" is unsurpassed.

They Rival Bread in Economy and are equally nourishing

Try this experiment, madam.

Thin-slice a 20-ounce loaf of bread. Place in oven until thoroughly dry. Now weigh slices. 12 ounces—perhaps less. The missing eight ounces was moisture—mostly water which costs nothing.

There is no form of itching skin disease which can defy the extraordinary curative powers of Dr. Chase's Ointment.

This is a strong statement and is only made after years of experience with the use of this preparation in the most horrible cases of eczema which you could imagine.

Relief from the terrible itching comes with the first few applications, and then it is a question of patiently applying the ointment and watching the natural process of healing which is set in operation by this great healer.

There are lots of cures to refer to, but what you want is actual trial in your own case, when you will soon realize that there is no disputing the wonderful healing power of Dr. Chase's Ointment.

If you have Eczema or any form of itching skin disease don't let an hour pass before sending for this treatment. Sixty cents a box, all dealers, or Edmanson, Bates & Co., Toronto.

Enjoy their delightful crispness and superlative flavor—equal to bread in nourishing properties. Purity assured by our chemist's analysis of all ingredients. See that "Little Lord Fauntleroy" trade-mark is on package.

You see, there is very little difference in cost of using McCormick's Jersey Cream Sodas in place of bread—so serve them at meal times.

Now, McCormick's Jersey Cream Sodas have all the moisture baked out of them. Consequently cost only a trifle more than bread. But there is whole milk and more shortening in Jersey Cream Sodas—otherwise ingredients are the same. And you would never think of eating a loaf of bread without spreading on at least 2 cents worth of butter—while Jersey Cream Sodas are usually eaten without.
