To Western Fair Visitors

We cordially invite every person visiting the Western Fair this week to call at our office if at all interested in farming or in the buying or selling of farms in Ontario. The great productiveness of Ontario farms makes farming in this province one of the most attractive, profitable and independent of occupations. Thousands of these farms are for sale every year. They are owned by men who for various reasons are offering their farms for sale; some on account of advancing age, or on account of their sons having left for the West, wish to sell in order to buy smaller farms; some in order to keep their sons at home wish to sell and buy larger farms in Ontario. Some in order to give their children better school, or other advantages, wish to sell so that they can buy farms which will enable them to secure these advantages; some in order to wish to sell so that they can buy farms suitable for the kind of farming they wish to engage in, or in the locality in which they wish to live. During the last ten years through our method of advertising, selling and exchanging farms, thousands of Ontario farmers have made satisfactory sales and exchanges of their farms, and thousands of purchasers have secured suitable and satisfactory farms, which they never would have heard about except through our method of advertising. The cooperation of hundreds of newspapers and agents throughout the country enables us to accomplish results in selling farms for owners, and procuring farms for purchasers which cannot be obtained in any other way. If you want to buy a farm of any size, or any price, or in any county west or north of Toronto, we can help you and save you time and money. If you have a farm to sell or exchange we can get you a fair price for it, and every dollar it is worth, or we can exchange it for other property which will be a valuable asset to you. Over ten million dollars' worth of farm property has been sold and exchanged through our agency during the last ten years.

The Western Real Estate Exchange
