SPECIAL TO THE DAILY BRITISH COLONIST

Eastern States.

NEW YORK, May 11 .- The Herald's special says friends of acquittal claim confidently they are sure of six Republicans voting on that side. Betting is at a stand still.

The Friends of Secretary McCulloch state there has been an open rupture between him and the President. He will resign on Tuesday so soon as the vote is taken, whether the President is convicted or not. Stevens from reconstruction committee reported bill to admit North Carolina, South Carolina, Louisans and Alabama to representation in Republican Congress.

The Senate is in secret session to-day. CHICAGO, May 12.—Senate remained session until midnight. Excitement in Washington is tremendous during the session of the Senate. At a recess of 15 minutes last night there was much comparing of notes among impeachers inside and outside. The Senate generally conceded that the case against the President began to look doubtful. Wade and Wilson said there did not appear to be much chance for conviction.

Fessenden was last speaker of the afternoon session. He spoke at length, treating the whole question presented by the House with much fulness, and declaring against every article. About half-past five o'clock a recess took place till seven. During that time there was great excitement in political circles, and the condition of affairs was discussed in terms neither cool nor polite.

Washington, May 12, 12:30 pm.—The vote on the President's trial is postponed until Saturday.

Washington, May 12-The Democrats generally are in good spirits. The extreme spirits among the impeachers are quite despondent, while the coolest and most impartial observers hold there is still some chance for conviction.

WASHINGTON. May 12-The constitutions has been adopted in North and South Carolina, Georgia and Louisiana.

WASHINGTON, May 12-The Republican's special thinks if it is necessary a two thirds vote will be secured, including the vote of Senator Wade, who has authorized the anmonneement that if his vote shall be necessary to secure conviction he will resign his position as President of the Senate to cast that vote. The feeling against Senatore Feesenden and Trumbull is very strong. The latter was hooted on the streets last night while going home.

The Maine delegation in the Lower House had a meeting, and decided to wait upon Fessenden and demand that he vote in accordance with the expressed wishes of his State or resign. Illinois members went in a body this morning and made the same demand upon Trumbull.

NEW YORK, May 13.—The Tribune of Mr Bayard Taylor has been visiting this morning says confidential dispatches, Rubla, in Germany, a place remarkable leave doubts if the Senate will convict on Saturday.

stone's third resolution, was announced. The Queen says she desires her interest in temporalities of the lrish Church will not in any way hinder parliamentary legislation on that subject. Gladstone will to-morrow bring in a bill to suspend for the present making additional appointments in the Irish Church.

CONSTANTINOPLE, May 12-The Sultan opened his new council yesterday. In his peech he remarked in regard to liberalism that the time had come when Turkish manners must yield to European civilization.

The Queen to-day in presence of a vast multitude laid, with imposing ceremonies, the corner stone of St. Thomas' Hospital, to be built on the Thames immediately opposite the Houses of Parliament.

Her Majesty attended by the Prince and Princess of Wales, received from the officers of the Corporation of City of London an address declaring profound sympathy with Her Majesty for the injuries received by Prince Alfred at the hands of an assassin, and expressing their derestation of the attempted crime.

In the House of Commons Gladstone soon after commencement of sitting, moved the bill to prevent making further appointments to Livings in the Irish Church for a specified period, also to suspend proceedings of Commission on Irish Church establishment for same period.

Parie, May 13—The funeral of Lord

Brougham took place to-day at Cannes. VIENNA, May 13-A bill guaranteeing the right of trial by jury passed the lower House Reichsrath yesterday.

MONTREAL, May 14-A man named Duggan, a saloon keeper, and two accomplices, were arrested yesterday, charged with being implicated in a plot to assassinate McGee One of the witnesses testified to being present at Duggan's house last December when the conspiracy was organized. Twelve American and twelve Canadian Fenians were present. He testified that Whalan was present and selected to do the murder. He then went by the name of Smith.

COLODRING A MEERSCHAUM.—There are many persons who devote great attention to their pipes, rubbing them down, and clothing them with morocco as carefully as others do a Derby or St. Leger favorite. The following, if true, is more likely to take the shine out of pipes than put it on them! no desette eldereliene andlaws

received late last night by the editors, for the manufacture of meerschaums. Mr Taylor gives the figures showing the number made, etc., and adds : You will see from these figures that only one meerschaum in ten is genuine. Nine smokers out of ten, therefore, will strain their cheeks and trouble their souls in desperate efforts to obtain a colour which, alas ! they can never get. They may obtain beautiful brown or chocolate hues, and rejoice over them, but it will not be like turely confined and twenty of their children theories in regard to the colouring of died, many of the children are dwarfed, one meerschaum. It should be smoked in a case—without a case—never touched with the hand—rubbed with the hand pital permanently injured. Besides this, slowly, at internals—always kept burning in a still room—out of doors; in short, there is no end to the instructions. Now either the pipe is the servant and friend of the man, or the man is the slave of the pipe, and the former relation seems to be preferable. Life is too short and too valuable to devote to a half-inch of colour, easily and successfully coloured, and I give their answer for the benefit of many aspiring young Americans. 'It makes little difference,' said they,' 'provided the bowl is not touched by the hand while it is warm. As a general thing, it is better not to smoke a new bowl to the bottom. The colour is surer to be fine when not produced too rapidly; but the main thing lina, Louisiana, Georgia and Alabama to is that the meerschanm should cool with-out being touched. This is the only use of smoking with the bowl in the case; sidered more certain by Republicans to-day.

THE total receipts from nearly all the collection districts in the United States show the revenue for the last five months to be at the rate of \$12.800,000 per year, or \$30,000,000 less than the estimates of the Commission.

WE extract the following dispatch of the Duke of Buckingham from the last Gazette : Sir.—The Circular Despatch from this de-partment of the 31st December, 1863, authorized the Crown Agents for the Col-

onies to make a charge of one-half per cent., on interest paid by them on Colonial Government Loans. From that time to the present this charge

bas been regularly made on all such pay ments, but I am informed that the sum now periodically received on this account have increased to an extent disproportionate to the increased labor involved in making the payments, and beyond what is required for the support of the Agents' Establishment. I have authorized the Crown Agents, on and after the 1st Jacuary, 1868, to reduce the charge for the payment of interest on Loans from ten shillings to five shillings per £100 paid.

The charges on Colonial Loans, therefore, will be :--Governmen 1st.—For negotiating new Loans, one-quarter per cent. Commission and one quar-

ter per cent. Brokerage.
2nd.—For payment of interest one quarter

3rd.—For paying off the principal at ma-turity, one half per cent.

No charge will be made for services rend-

ered by the Crown Agents as Trustees of Sinking Funds for the redemption of Loans.

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

FOR PURIFYING THE BLOOD,
And for the speedy cure of the following complaints:
Screenia and Screenieus Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Beils, Blaims, and all Skin Discases.

OAKLAND, Ind., 6th June, 1859.
J. C. Ayer & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited, a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from anything. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that anything you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell of. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully. Yours.

St. Anthony's Fire, Bose or Erysipelars, Tetter and Salt Elbeam, Scald Head, Ringworms, Sore Eyes, Dropsy.

Dr. Robert M. Freble writes from Salem, N. Y., 18th Sept, 1859, that he has cured an inveterate case of Dropsy, which threatened to terminate fatally, by the persevering use of our Sarssparilla, and also a dangerous Malignam Erysipelas by large doses of the same; says he cures the common Eruptions by it constantly.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in Female Diseases of the Scrothlous diathesis. I have cured many inveterate cases of Leucorrhea by it, and some where the complaint was caused by ulceration of the ulcrus. The ulceration itself was soon cured. Nothing within my knowledge equals if for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes: "A dangerous ovarian tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarssparilla. Our physician shought nothing but extirpation could afford relief, but he advised the trial of your Sarssparilla as the last resert before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I tried everything, and everything failed to relieve me; and I have been a broken-down man for some years from no other cause than derangement of the Liver. My believed pastor, the Rev. Mr. Espy, advised me to try your Barsaparilla, because he said he knew you, and anything you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to made a new man of me. I feel young again. The best that can be said of you is not half good enough."

A great variety of cases have been reported to us resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

This is a remedy so universally known to surpass
any other for the cure of throat and lung complaints,
that it is useless here to publish the evidence of its
virtues. Its unrivalled excellence for coughs and
colds, and its truly wonderful cures of pulmonary
disease, have made it known throughout the civilized nations of the earth. Few are the communities,

personal experience of its effects—some living
trophy in their midst of its victory over the subtle
and dangerous disorders of the throat and lungs.
As all know the dreadful fatality of these disorders,
and as they know, too, the effects of this remedy,
we need not do more than to assure them that it has
now all the virtues that it did have when making
the cures which have won so strongly upon the
confidence of mankind. Prepared by Dr. J. C. AYER & Co., Lowell, Mass.
