

AT LAST.
 Sanderson was dying. In summer, on Mendip side, a cottage where his father, a father's father, died.
 dying has grown so common, old men are so cheap; it was only the parish doctor see him off to sleep.
 thought he would last till morning, left him in his father's care; he was terribly handy, and said when some was there.
 he welcomed the awful stranger; the smile of wrinkled joy, only patently sighing.
 it like for to say boy:
 had as ruined from the village, sent to Bristol and listed, and left me woods to hoe.
 olden night and trembling; said 'un white and young; maids a could snare and 'village; a lack a could hold and fling.
 set scent of the sad sweetest; name in from the garden bed; he heard the wicket rattle; he heard the sound of a tread.
 it rane on the stony threshold, and woks the sleeping cat; the gleam of a candle, a transie-dying eyes saw that.
 saw a form in the doorway, against the sunset, black; he said, "My boy's come back."
 it groping with feeble fingers, my eye are cruel dim, and to see thy veins, lad, come here to thy father, Jim;
 it a ribbon in button hole, Jimmy, it a star as shines so vira, it summit o' bon, 'For Yalor, it all they whiniese thine?"
 strong arm lifted his shoulders; brown shadow, and the light; 'em 'v'm glory now for sartin; it, lithering weakly, said.
 it so on the breast of scarle, between the chest and the star; old man lay, as he waited to pass the stoniest bar.
 it while his face soul fluttered, it strove to die and live; it while his hand whispered the hoarse words, "Father, forgive."
 it of out the throbbing shadows, it answer faltered, it now, 'ear lad; I done it a more 'v' year ago."
 —The Spectator.

CAPITAL NOTES.

Humber & Son the Lowest Tenderers for the Victoria Drill Shed.

Proposal to Exhibit the Beaver at the World's Fair Given Every Encouragement.

From Our Own Correspondent.
Ottawa, April 28.—Humber & Son, Victoria, are the lowest tenderers for the new Drill Hall, the price being \$33,916. It is expected the contract will be awarded them.

Mr. Mara proposes to ask for a return, showing the number of voters in the several electoral districts of British Columbia, and the number of voters in each polling district.

Mr. White's bill, Honoring insurance agents and to prevent rebate on premiums, was thrown out to-day in committee on a vote of 12 to 14.

Hon. Mr. Lester moved a vote of want of confidence in the Government for discussing the trade negotiations at Washington before presenting the full information to the House. It was rejected by a majority of 41.

R. H. Benedict, of Victoria, is here. His proposed visit to the World's Fair at Chicago is receiving great encouragement, everyone believing that a mint of money can be made out of the exhibition of the historic steamer Beaver, the pioneer of the Pacific.

It is believed that the company have done well in undertaking this patriotic enterprise, which will be not only a test to the foresightfulness of those who first sent her out and of the fact of from what small beginnings great things frequently grow.

Ottawa, April 29.—The Redistribution Bill was introduced to-day. A change was made in British Columbia in north and south ridings, the present constituency being given two members. Yale and Cariboo are united. Queens and Ashburn are united in Nova Scotia, and Queens and Sunbury are joined in New Brunswick. St. John City and county also lose a member. Montreal gives two more members. Ottawa and Hochelaga counties each one. Napierville and Vercheres are wiped out. St. John and Iverville are united; also St. Maurice and Three Rivers.

Mr. Bernard made a vigorous kick about the change in British Columbia. He said it was not satisfactory to the people of the Mainland.

Hon. Mr. Laurier said the Quebec changes were outrageous. It was a gerrymander.

Hon. Mr. Abbott informed Mr. Corbould that if Westminster were not given two members, the Government would be compelled to accept Mr. Bernard's method of redistribution.

The report of Hon. Mr. Abbott's retirement is simply laughed at here. The question of cabinet changes has not occupied attention. Redistribution has the floor.

Mr. Bernard went to Toronto to-night. In the Senate it was tried to throw out the Reciprocity Wrecking bill. The second reading was defeated by 2 to 3.

Mr. Provand, of New Glasgow, a director of the Chignecto ship railway, is here, and induced the Government to grant certain concessions to the company.

The Marine Department announces that a bill buoy will be established at the Sandheads, on the Fraser river.

Mr. Lowell, Ont., was elected for Weland by 360 majority.

The election of Mr. Bigelow, Liberal, to the Local Legislature, at Toronto, was a great surprise, the count being 2 to 1 in Orange interests. The vote was, Bigelow 4,900, Bent 4,100, Thompson, labor, 470.

J. C. Frewer, of Victoria, has been appointed a commissioner to inquire into the Supreme and Exchequer Court.

J. M. Macdonald, of the Geological Survey, left for Victoria, to-night, and goes through the Maritime Provinces, with additional information regarding seal life.

Mr. Hugh Allan's Will in the Courts—Marchand to be Quebec's Liberal Leader.

WELLAND, April 29.—In the election for the House of Commons to-day Lowell, Liberal, was returned by 200 majority.

TORONTO, April 29.—Bigelow was elected to the Ontario legislature to-day, to represent Toronto, by 300 majority.

WINDYBAY, April 29.—The following Inland Revenue officers have been appointed in the Northwest territories: The Post Master, Moosomin; D. B. Jamieson, Regina; the Post Master, Medicine Hat; Thomas Dowling, Calgary; Donald, F. Champeaux, Lethbridge; Dr. Allen McLeod; the Post Master, Edmonton; H. E. Ross, Prince Albert.

HALIFAX, April 29.—The counsel for Mayor Thomas, of Truro, have obtained a suit for \$5,000 damages for assault and imprisonment against the members of the Government and Legislature, the Sergeant-at-Arms, Detective Power and Jailer Chambers.

BELLVILLE, April 29.—Ralph Murray, aged 62, of Rossport, died from the effects of an overdose of morphine.

SOUTHAMPTON, Ont., April 29.—The Imperial Upper and Kip Tannery, together with heavy stock, has been burned. Loss, \$25,000.

MONTREAL, April 29.—The will of the late Sir Hugh Allan is about to come before the local courts in order to decide whether the daughters of the deceased Knight are to receive, there being some doubt as to his intentions on this point.

QUEBEC, April 29.—A petition is being circulated here, praying that R. H. McGreevy, sentenced to one year's imprisonment for an attempt to defraud Michael Connelly, be pardoned.

QUEBEC, April 29.—The Opposition, in the Provincial Assembly, have elected Espeker Marchand as their leader.

RAT PORTLAND, April 29.—The body of an unknown man was found in Lake of the Woods, yesterday. It is supposed to be a case of suicide.

MONTREAL, April 28.—A. E. Gosselin, assistant city clerk, has mysteriously disappeared.

QUEBEC, April 28.—Charles Langelier

Ernest Pasand, accused of conspiracy to defraud the province, appeared in Court to-day. The trial has been postponed for this term.

TORONTO, April 28.—Alderman Leslie in the Liberal candidate in East York.

OTTAWA, April 28.—The introduction of the Redistribution Bill will be delayed for some days by alterations. Under the new bill British Columbia will not have an increase of representatives. It was proposed to abolish Cariboo and establish two constituencies, North and South Westminster, but this is not likely to be done. It is probable that part of Westminster will be included in New Westminster, which will increase into Yale and partially into Cariboo.

WINNIPEG WIRINGS.
Abatement of the Storm—Lost in the Bilzard—Navigation Opened on the Lakes.

WINNIPEG, April 28.—The storm partly abated, this morning, but left miles of telegraph wire down along the Canadian Pacific line. It is all right from Virdeu west to the Coast. It is not expected repairs will be made before Saturday.

George E. Lundy perished in the storm at Rossar Station. He was returning from Winnipeg, and got lost between the station and the hotel, a distance of 900 yards. He leaves a large family.

Word has been received of another death from exposure during the storm of yesterday James Taylor, of Bolesvain, being the victim. The deceased was walking home and missed the trail. He was a young Englishman, well connected, being the son of J. W. Taylor, of Manchester, England.

Navigation on the lakes has opened, the first boat having arrived at Fort William, to-day.

A New Era inaugurated—Departure of a Hundred Heads of Families for the Northwest.

MONTREAL, April 28.—A new era in Jewish colonization is being entered upon. To-night 100 male heads of families leave for the Northwest to found a new Jewish colony there. The settlement will be near Ox Bow, in the Souris District. The first contingent is composed of stalwart Russian Jews who arrived in Montreal, this spring. As soon as they get their homes built their families will follow. The scheme is practically backed up by Baron Hirsch, and a flourishing colony is expected before long.

A CALIFORNIA VOLCANO.
Serious Apprehensions Regarding It—Will It Ever Erupt?

LOS ANGELES, April 28.—Dr. Stephen M. Bovee, of Ventura, gives the following account of a discovery recently made in the mountains of the Coast Range.

High up on the side of the tallest mountain overlooking the Los Posas from the North, a volcanic crater, 300 feet in diameter, yet belted forth with lava and destruction dealing projectiles. However, but little rain is experienced by descending at its foot. Just below the highest peak of the range is a chalk ledge, 100 feet high. It looks as if it might have been a crater, and the bowels of the earth. At the foot of the ledge, 300 feet below the apex of the peak is the portion of earth which is the atmosphere and gives a faint idea of 100 feet one way by several times that the other. A peculiar smell, as of burning sulphur, mixed with an asphaltum odor, pervades the atmosphere and gives a faint idea of 'dante's inferno.' The ground is hot to the touch and resembles the covering to a smouldering fire. An attempt has been made to dig down into the covering, but the workers went no further than a foot or two as the heat became too intense. There does not appear to be any fissure for steam to come out of, and, as it appears, it would not require much excavating to strike the source of the phenomenon. That there is a fire under the mountain is self-evident, and the extent of it no one can even surmise. Michael Smith, who lives at the foot of the mountain, does not look upon the phenomena with alarm, but is content to be believed that it is a body of asphaltum, mixed with sulphur and other minerals, which has somehow become ignited, and is now burning. He says that he has noticed frequently that the taste of the spring water from the mountain, in that vicinity, changes at times. First it is bitter, again it is much changed with sulphur, and again with iron, and so on.

A CLERGYMAN'S SCARE.
Scandal in a New Jersey Methodist Congregation.

PORT NORRIS, N.J., April 28.—Did Rev. William J. Stewart, pastor of the Sanctuary M. E. Church, remain in the clutches of Miss Eva Owens, a member of the flock, after the prayer-meeting on a recent Sunday, near which place he jumped from the train? These are questions concerning which a clerical court will sit in judgment, in the course of a few days.

Mrs. Pease, a member of the congregation, whose house adjoins the church, charges that, on the night in question, she saw Miss Owens leave the church by the back door, some time after the lights were put out, and a little while after the preacher left by the front door. The couple, she claims, must have been alone in the edifice for over an hour. Dr. Stewart denies that the young lady in the case was at all, and says that she remained here because he acted as janitor owing to the illness of that employe. Miss Owens claims to be able to prove that she walked home from the prayer meeting with a number of ladies. She is extremely handsome, has always borne an excellent character, and moves in good society, her father being a trustee of the church and a wealthy merchant. Mrs. Pease has dragged her husband, who is a retired banker, into the affair, and it is said that he will testify supporting her statement. Dr. Stewart is one of the best known Methodist ministers in New Jersey, and has always stood very high in that denomination.

Explosion in New York.
New York, April 28.—Shortly before noon, to-day, a fire, followed by an explosion, occurred in a flat in Broadway street. A man and woman were both badly hurt.

BEHRING SEA.
The Owner of "La Nina," Contest the Jurisdiction of the United States.

American Law Has No Force or Validity Outside the Three Mile Limit.

SAN FRANCISCO, April 28.—Special Agent of the Treasury, Evans, has just returned from Los Angeles, where he has been engaged taking testimony in regard to the Behring Sea controversy between the United States and Great Britain. The principal testimony heard was that of Col. H. G. Oddy, who was formerly Special Treasury Agent for Alaska. The trend of Mr. Oddy's testimony went to show that it was through the exertions of the United States that the seals in Behring Sea were protected. He also thought that it would be to the advantage of the United States to join with Russia in the further protection of the seal rookeries. It is considered probable that the case of the schooner La Nina, which was seized in Behring Sea for illegal sealing, will not be heard in the United States Circuit Court of Appeals, in this circuit, although it is on the calendar of that court. The issue involves the main controversy between the United States and England, who was formerly Special Treasury Agent for Alaska. The trend of Mr. Oddy's testimony went to show that it was through the exertions of the United States that the seals in Behring Sea were protected. He also thought that it would be to the advantage of the United States to join with Russia in the further protection of the seal rookeries. The trend of Mr. Oddy's testimony went to show that it was through the exertions of the United States that the seals in Behring Sea were protected. He also thought that it would be to the advantage of the United States to join with Russia in the further protection of the seal rookeries. It is considered probable that the case of the schooner La Nina, which was seized in Behring Sea for illegal sealing, will not be heard in the United States Circuit Court of Appeals, in this circuit, although it is on the calendar of that court. The issue involves the main controversy between the United States and England, who was formerly Special Treasury Agent for Alaska. The trend of Mr. Oddy's testimony went to show that it was through the exertions of the United States that the seals in Behring Sea were protected. He also thought that it would be to the advantage of the United States to join with Russia in the further protection of the seal rookeries.
