

Provincial Legislature

Labor and Chinese Restriction Form Chief Subjects of Debate.

House Decides to Appoint a Standing Committee on Agriculture.

Yesterday's sitting of the legislature was largely devoted to debate, the interesting subjects of labor and Chinese restriction both coming up and receiving about an hour apiece, without in either instance being near ended. Mr. Helmecken's resolution, which aimed at the protection of government contractors from the abuses of contracting, and also at the regulation of the locally acquired wages received the general support of the house. Its passage was somewhat hindered by the amendments of Mr. McInnes, who apparently was desirous of going the senior member for Victoria one better in this regard. Two amendments were offered, the first being disposed of and the second still under discussion when the debate was adjourned. The former one had, however, even the distinction of receiving the vote of a division of the session.

The second debate arose out of Mr. Tatlow's Chinese immigration bill. To show Mr. Brown proposed a very drastic amendment, which was to have been followed by another from Mr. Helmecken, who proposed that gentleman moved the adjournment of the question until to-morrow.

A little routine business had followed previous when Mr. Helmecken rose to move the following resolution, which was seconded by Mr. McInnes. It was a resolution of the house all government contracts should contain such conditions as will prevent abuses, and also that every effort should be made to secure the payment of such wages to the laboring classes as are earned in each trade for competent workmen in the district where the work is carried out; and it is hereby resolved that the work to which the foregoing policy shall apply includes not only work undertaken by the government, but also all work done under the grant of provincial public funds, and all works carried on under franchises granted by the government.

Upon Mr. Martin pointing out that the effect of the resolution was to deprive the government of the right to administer and revenues, the mover stated that he had already obtained the approval of the committee on which the resolution was presented. Mr. McInnes then claimed that, while a very proper resolution, it practically amounted to nothing, as it guaranteed that it would be carried out. At Ottawa, when a similar resolution had been passed, it was carried out.

Mr. Helmecken stated that it was but an effort to go one better, and that while the government was ready to approve of his motion, it was most unwise to embarrass it by introducing other features by amendment. Mr. McInnes, however, asserted to the responsibility of Mr. Martin's suggestion, the question of policy was involved, the motion might well have proceeded from the ministry. They were not to be taken as a precedent, but open how best to conserve the interests of white labor, and not being yet ready to accept the Chinese, they were always ready to object to any expression of such in a hasty or unguarded way.

Mr. Martin suggested that the resolution should have come from the government directly, but that, having been once admitted by them, it was the responsibility of amending it rested with the house. Mr. Helmecken stated that it was but an effort to go one better, and that while the government was ready to approve of his motion, it was most unwise to embarrass it by introducing other features by amendment.

Mr. Green would vote against the amendment, but that he did not believe in supporting the opposition in holding a club over the government, other features by amendment. Mr. Helmecken, however, asserted to the responsibility of Mr. Martin's suggestion, the question of policy was involved, the motion might well have proceeded from the ministry. They were not to be taken as a precedent, but open how best to conserve the interests of white labor, and not being yet ready to accept the Chinese, they were always ready to object to any expression of such in a hasty or unguarded way.

QUESTIONS ANSWERED.

The Attorney-General answered the following question of Mr. Tatlow: "Is a suit now pending between the Dominion government and the provincial government as to the ownership of Stanley Park, or any part thereof, and would the provincial government entertain favorably a proposition to convey its rights to the city of Vancouver, in trust for a purpose?" Answer: Yes, it is not advisable while the action is pending to make any change in the ownership.

Also the question of Mr. Hayward: "Is it a fact that the provincial police have been patrolling Fraser river since the raid of 1896 and 1897?" Answer: Yes, there was a communication with the Dominion government as to the Fraser river and Gulf of Georgia? If so, what was the reply? Answer: The following telegram was received from an official of the Dominion government: "A representative of the Dominion government has been sent to the Fraser river and Gulf of Georgia to investigate the matter of the Fraser river and licensed fishermen unable to fish. Matter outside jurisdiction of the Dominion government. Can protection be given fishermen?"

Also the question: "Does the government intend taking any steps to validate tax sales, especially government tax sales, held in the New Westminster district in 1897?" Answer: Yes, the government is taking steps to validate tax sales, especially government tax sales, held in the New Westminster district in 1897.

Mr. Wells answered Mr. Tatlow's question: "Is the intention of the government to introduce special legislation to encourage the manufacture of wood pulp, and to revise the schedule of charges for water carried by the province averaged less than 200 in 1899?" Answer: The government is now considering the most advantageous means of encouraging the manufacture of wood pulp, and to revise the schedule of charges for water carried by the province averaged less than 200 in 1899.

LETTERS TO THE EDITOR.

CHRISTIAN SCIENCE.

Sir—In your issue of the 9th inst. I notice an item which states that the Knights of Honor in Buffalo have decided to exclude Christian Scientists from the order. That such is not the fact is evident from the report of the decision of the society given in the Buffalo Commercial of 19th of June, from which I beg to quote as follows: "The matter of excluding Christian Scientists from the order was again discussed at length. The committee on laws presented the following amendment to the constitution of the order, extending from the order: 'One who avowedly professes to reject surgery or medical treatment for bodily ills, and who is not a member of the order, shall not be taken on the proposition and the report was lost by a vote of 13 yeas to 64 nays. Then the commanding officer would give a range, a non-com. standing at the ready with the squad, the rest of the detachments at the pumps, etc.—then, fire! and in a few moments the thing would be done and their country saved. The horses would return home, mosquito bitten perhaps, epauleted with lime, dirty but happy, conscious of (necessity and useful duty) well done and proud of the possession of the gratitude of their countrymen for their reward.
