

EXCITED ER TRAITORS

Are Charged With
Plotting to Sell Na-
tional Secrets

25.—The arrest of En-
B. Ulmo, of the French
navy, yesterday on the
charge of plotting to sell
national secrets, was
followed today by
the arrest of another
man named Berton, who
was negotiating with an
alien power for the sale
of secrets.

It is creating a great
sensation in the French
case a second Drey-
fus.

Ulmo offered con-
fidentially to the minister of
war, saying that unless his
request was granted he
would not be able to
power. Thereupon a
search of his history
showed that he had been
in the French navy, and
that he had been in the
harbor mines in the
photographs of the mil-
lions of the famous 75 mil-
lions of Ulmo and Berton
added to the debate which
interpellations regarding
national defenses. General
Berton, a war, warmly de-
fending the two deputies
that a state of disorgani-
zation.

AY MEN ON TRIAL

and Brakeman Charged
With Fatal Wreck.

Fr. Ont., Oct. 25.—The
prisoning into the cause of
the wreck, on the C.P.R.
line, in which Engineer Ed-
ward received fatal injuries,
Magistrate Dobie this
morning.

McCarthy, conductor,
person, brakeman, on a C.
train, who have been on
an investigation, were

Steamship Entering the
Drydock

VANCOUVER MAN KILLED

Japanese Present Some Peculiar
Claims for Riot
Damages

Vancouver, Oct. 25.—The Empress
of China is now completely above water,
and the officers and crew are
aboard. She will not have to en-
ter the drydock as was reported, and
will not be more than a day late in
her voyage.

James Roberts, an employee of the
P. C. Electric railway, was killed by a
train on Westside avenue this morn-
ing. Roberts was a fireman and had
just descended from the train when
he was crossing the street behind one car
when he ran into another traveling
in the opposite direction. He was killed
instantly beneath the wheels.

The coroner's inquest on the body
of the Hindu shot by a white man two
miles ago, resulted in a verdict that
the deceased came to his death through a
shot fired by E. B. Brown, who is now
being held on the charge of murder.

Before the Japanese commissioner,
McKendrick, one Japanese claimed
\$15 for twenty guards employed to
defend his boarding house during the
riot. Mr. King pointed out the ab-
surdity of the claim.

Several days ago the remains of a
buried sloop were found at Adams
river, near Port Harvey, and among
them were parts of the body of a white
man. A provincial constable has gone
north to investigate.

Buildings for October will break the
record for October of previous years.
Last year, the highest, the figure was
\$23,425.

Health Authorities Take Steps to
Eliminate the Unsanitary
Conditions

The health authorities are taking
active measures to eliminate any un-
sanitary conditions which might be
conducive to the propagation of dis-
ease, and to this end the city health
department staff has been instructed
to visit the houses of all persons who
are suffering from infectious diseases.

Constable Clifford, who has been as-
signed to the duty of visiting the
houses of all persons who are suffer-
ing from infectious diseases, has been
instructed to visit the houses of all
persons who are suffering from in-
fectious diseases.

It is likely that McCarthy
will appear at the next
trial.

payroll of \$15,000, were
closed today. Master Mechanic
this order was due to
the fact that the employ-
ment of the Alabama
was reduced to 25 men.

on the Bioscope
Entirely new possibi-
lities in nature study
in field for—were re-
vealed yesterday, before
the audience of the
journalists. It has been
some time that the old
photographs of birds in
the world have been ex-
tended by the bioscope. In
silence the machine they
an altogether successful
presentation of his burr. Mr.
so successfully accustomed
presence that he had not
to handle them, and have
endured his apparatus
without a word. The results
were splendid. The pho-
tographers have
busy with young birds,
flickers, larks, spotted fly-
catchers, and other warblers.
The parents being engaged
in the young. You could follow
ment of the bird; watch the
wing out the puffed food in
quintessence; the latter run along
pathway, and carefully sel-
ecting food in turn. The young
of the bird, the ruffling of the feathers,
distinct. The audience could
a change when the mother
feeding her mate on the nest.
The food which she in turn
to the young. The second
to mostly sea birds, many of
hands now happily preserved
of naturalists. Apart from
real pictures of the birds,
most remarkable were the cor-
responding "their food" and
the young of the bird, the
nest on the Bass rock,
arton took a climax. At the

Assessment Stands
Oct. 25.—The appeal of the
Buffalo mining compan-
assessment levied upon
the town of Cobalt was dis-
missed by the assess-
ment board.

J. Bowell Injured
Oct. 25.—W. J. Bowell,
Sir Mackenzie Bowell, had
a fall in two places while
at a rig draw in the mine.
He is 72 years old, and
the accident may be
fatal.

Always Economize
