CHATHAM, Oct. 28 .- Reports are current that on different occasions residents of the country have been enjoying strawberries from ever-bearing vines, but a econd crop of raspberries in the one season is rather an unusual occurrence. This afternoon Julius Crow, of Shaddy Nook Farm, brought a number of red, luscious raspberries to the city.

Mr. Crow states that while the

berries are not numerous they are of excellent quality and are flavored on a par with the first pickings. Mr. Crow's farm is located in Dover.

Announce Their Intention

The public is asked to take Calling Off of Strike Will Not Affect Plans

CHICAGO, Oct. 28.—(Canadian Press Dispatch.)—Railroad heads to-night declared the nation's carriers would go right ahead with their plans to seek new wage cuts through the railroad labor board hearings, despite the announcement from the unions that their action in calling off the strike scheduled for October 30 had been influenced by the board's announcement that pay reduction petitions for any class would not be considered until working conditions for that class had been settled. ter executive, and representatives "The calling off of the strike will have no effect on the plans announced by the carriers on October 14 to seek the chapters of St. Thomas, immediate reductions, so that rates could be reduced," said Samuel Felton, president of the Chicago Great Western and chairman of the Association of Western Railroad Executives.

"I don't know how long, under the board's ruling, it will take to reach a decision on any pay cut petition, but these petitions undoubtedly will be presented within a very short time. It will be up to the board to decide when action should be taken. "I want it made plain, however, that we will seek these reductions in notices of cuts, then discussing them with the employees, and, if no agreeof is reached, appealing to the board

## The Car that is converting thousands to the SIX

The popularity of the six-cylinder automobile is universal. Everyone admits that there is great pleasure in driving a Six, and the six cylinder motor is now recognized as the most satisfactory unit of power.

The Studebaker LIGHT-SIX motor embodies the most advanced engineering developments—

-it is powerful. Its 40-horsepower motor supplies much more than the usual power per pound of car weight. From the first moment you sit behind the wheel you get that velvety feeling of a strong, continuous flow of overlapping power impulses.

-it picks up quickly and smoothly, affording a quick getaway in traffic; it throttles down to a snail's pace in -it is freer from vibration, up to 55 miles per hour, than any car of its size and weight yet produced in Europe or America.

The LIGHT-SIX is the most evenly balanced car you can buy. Its light weight (only 2500 pounds) is so equally distributed that if the chassis were halved or quartered each section would weigh practically the same. This means tire economy, and steady road-holding at high speeds.

See this car-drive it-test it. You will be won by it. You will understand
