

WOMAN WOULD NOT GIVE UP

Though Sick and Suffering; At Last Found Help in Lydia E. Pinkham's Vegetable Compound.

Richmond, Pa. — "When I started taking Lydia E. Pinkham's Vegetable Compound I was in a dreadfully rundown state of health, and internal troubles, and was so extremely nervous and prostrated that if I had given in to my feelings I would have been in bed. As it was I had hardly strength at times to be on my feet and what I did do was by a great effort. I could not sleep at night and of course felt very bad in the morning, and had a steady headache.

"After taking the second bottle I noticed that the headache was not so bad, I rested better, and my nerves were stronger. I continued its use until it made a new woman of me, and now I can hardly realize that I am able to do so much as I do. Whenever I know any woman in need of a good medicine I highly praise Lydia E. Pinkham's Vegetable Compound." — Mrs. FRANK CLARK, 3146 N. Tulip St., Richmond, Pa.

Women Have Been Telling Women for forty years how Lydia E. Pinkham's Vegetable Compound has restored their health when suffering with female ills. This accounts for the enormous demand for it from coast to coast. If you are troubled with any ailment peculiar to women why don't you try Lydia E. Pinkham's Vegetable Compound? It will pay you to do so. Lydia E. Pinkham Medicine Co., Lynn, Mass.

Mother
The name of mother is our childhood's talisman, our refuge and safeguard in all our mimic misery; 'tis the first half formed word that falls from babbling tongue; the first idea that dawns upon the mind, the first, the fondest and the most lasting tie in which affection can bind the heart of man. It is not a feeling of yesterday and to-day, it is a feeling of the beginning the same unchangeable, it owes its being to this world, but is independent and self-existent, enduring while one pulse of life animates the breast that fosters it, and if there be anything of mortality which survives the grave, surely its best and noble passion will never perish.
To mothers largely is due the formation of their children's character. If she is vain and frivolous, wanting in those strong qualities of heart and head, the children will likewise imbibe much of her nature; but so much has been written on a mother's great influence over her children that there is but one little thought left to be said. To the toiling and careworn mothers all over the land our heart goes out in deepest sympathy, and I would say where you have good comfortable homes

Hints For Wives

Perchance you think that your husband's disposition is much changed; that he is no longer the sweet tempered, ardent lover he used to be. This may be a mistake. Consider his struggle with the world—his everlasting race with the busy competition of trade. What is it that makes him so eager in the pursuit of gain, so energetic by day, so sleepless by night, but his love of home, wife and children, and a dread that their respectability, according to the light in which he conceived it, may be encroached upon by the strife of existence. This is the true secret of that silent care which preys upon the hearts of many men; and true it is, that when love is least apparent, it is nevertheless the active principle which animates the heart, though fears and disappointments make up a cloud which obscures the warmer element. As above the clouds there is a glorious sunshine while below are showers and gloom, so with the conduct of man, behind the gloom of anxiety there is a bright fountain of high and noble feeling. Thinking of this in those moments when clouds seem to lower upon our domestic peace and by tempering your conduct accordingly, the gloom will soon pass away and warmth and brightness take its place.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Thinking Themes

As I write this I can look out of my window and see a Cloud, a Hill, a Spire, a House, a Wall, a Road and a River, in just this order from top to bottom.

Life is not a Cloud, for a Cloud has no substance, save thin mist.

Life is not a Hill, for a Hill, is beautiful at a distance only, while, life is near and dear, and its microscopic ways are as charming as its prospective.

Life is not a Spire, for a Spire points to a happiness grows in but one place, Here, and at one time, Now. The kingdom of life is about us.

Life is not a House for a House is permanent, while life is fleeting. Many lives come and go, and the House stands.

Life is not a wall, for a Wall is a limitation, while life is infinite, and has no bounds.

Life is not a road, for life roams the fields and goes where other men have not gone. It flies over the hedges as a bird, it treads the forest as a deer.

Life is a River, always the same yet ever different; always passing, always present; fluid, yet outlasting all walls and houses; flowing yet enduring; going, yet eternal. "The River of Life" is a true symbol. The River is the one natural object that is both fleeting and permanent.—Dr. Frank Crane.

Ready-made Medicine.—You need no physician for ordinary ills when you have at hand a bottle of Dr. Thomas' Electric Oil. For coughs, colds, sore throat, bronchial troubles, it is invaluable, for scalds, burns, bruises, sprains it is unsurpassed, while for cuts, sores, ulcers and the like it is an unquestionable healer. It needs no testimonial other than the use, and that will satisfy anyone as to its effectiveness.

The greatest need in the home today is comradeship. We talk too much about food and clothing and shelter and forget that comradeship, which first brought the man and wife together, should be cultivated as a sacred thing. No man and woman can live together happily without the ability, of both to give and take. The fundamental thing is not food or clothing or shelter, but comradeship.

AFRAID SHE WAS DYING

Suffered Terribly Until She Took "Fruit-a-tives"

ST. JEAN DE MATHEA, JAN. 27th, 1914.
"After suffering for a long time with Dyspepsia, I have been cured by 'Fruit-a-tives'. I suffered so much that I would not dare eat for I was afraid of dying. Five years ago, I received samples of 'Fruit-a-tives'. I did not wish to try them for I had little confidence in them but, seeing my husband's anxiety, I decided to do so and at once I felt relief. Then I sent for three boxes and I kept improving until I was cured. While sick, I lost several pounds, but after taking 'Fruit-a-tives', I quickly regained what I had lost. Now I eat, sleep and digest well—in a word, I am completely cured, thanks to 'Fruit-a-tives'."

ORIENTAL CARPETS.

Some of Those Made of Kashmir Wool Strongly Resemble Silk.

Generally speaking, the carpets of India can never excel those of Persia, as the materials used in the former are not of the same superior quality as those employed in the latter country. The wool of which many of the best carpets are manufactured is obtained from Kashmir. Sometimes carpets which are mistaken for silk are really of an extremely fine quality of wool known as "pashm." This is obtained from the goats of Kashmir and grows close to the skin, being protected by the long and coarse wool. It is as smooth and lustrous as silk and is used for the beautiful soft shawls for which Kashmir is famous.

Peculiar methods are employed by the Indian weaver in converting his original design into a textile. Instead of working from a colored drawing or diagram, the weaver has the pattern translated on paper into rows of symbols, each of which expresses the number of stitches and the color. With this written "key" in his hand the head weaver sits behind his subordinates and dictates the pattern to them, one row at a time, all through the breadth of the carpet.

These weavers—generally small boys—sit in front of the warp strings and tie in the requisite number of stitches of each color as called out to them by the reader from his ciphered scrip. These boys, who perform the actual process of weaving the pile, follow day by day the dictations of the head man, knowing nothing of the pattern they are preparing, but gradually building up in a mechanical way the carpet on the strings before them.—Argonaut.

TRIALS OF A PARSON.

Efforts of Some of His Flock to Keep Him Meek and Humble.

Do not be a parson unless you are blessed with a strong sense of humor and a thick hide, advises an English clergyman in Pearson's Weekly.

I was asked by a friend who had been offered a living near me to go and see the vicarage and church and report. I did so, and the clerk showed me round. As we neared the end he turned to me and said:

"Be you our new parson, sir, if I may make so bold?" I assured him that I was not. "I be main glad to hear that, sir," he said, with relief. "We've always had good uns so far!"

In a scattered parish I called upon an old couple about tea time. "Would you like a cup of tea?" the housewife asked. I confessed that I should like it very much. The dear old soul prepared one and kept apologizing because she had no jam or cake. I assured her that it did not matter in the least. "Well, sir," she said, brightening, "after all, 'tisn't as if you was one of them that feed high. Any one can see that."

One more. A friend of mine had got a job for a man who had been for a long time out of work. I guessed he was getting pretty shabby, so I looked up a suit—we were much of a size—and took it round. The man's wife took it, and I waited in the room, ready to be overwhelmed with thanks. She came back and said:

"My husband thanks you kindly, sir, but he don't hold with parson's clothes. But if you've got anything as 'd suits a man he'll have a look at it!"

Soft corners are difficult to eradicate, but Holloway's Corn Cure will draw them out painlessly.

Are Your Buildings Insured?

A Policy in a good Company is most important. The Company insures you against loss. What are you doing to insure your Company against loss on your buildings?

Lightning was the cause of 66 1/2 per cent. of all barn claims settled in 12 years by 40 Companies in Ontario. Had these been properly equipped with Lightning Rods the loss would have been one-tenth of one per cent. of what it was.

Prof. Day, of the O.A.C. after 13 years of investigation, says that out of every \$1,000 worth of damage done to un-rodded buildings by lightning \$999 would be saved if these buildings were properly rodded. Ten cents would have been lost instead of a hundred dollars.

Your and your neighbors really pay the losses. The Company just collects from you and disburses the money they gather in from you. They are your trustees. You and your neighbors are insuring you and you are helping to insure them.

The less your Company loses the less you have to pay.

It will pay you if you rodd. It will pay you if your neighbors rodd. Talk it over with him and tell him what we say.

We would like to send you our Catalog, and will if you write us.
